

## SCHEDULE 2 – HERITAGE BUILDINGS, STRUCTURES AND SITES

The below tables identify all of the heritage buildings, structures and sites which are currently listed in Schedule 2 of the District Plan.

The tables have been divided into ‘Group 1’ listed buildings and structures (which are of regional or national significance or considered to be uncommon); ‘Group 2’ listed buildings and structures (which are of local significance or are more common); and ‘Sites’.

For each building, structure or site the table includes a District Plan reference number, its name (if it has one), its location, a description, whether it is also listed by Heritage New Zealand, and a photo.

*Note: Some of the photos in the tables below were taken quite a few years ago and therefore a building, structure or site may look slightly different now.*
