He Hokioi Rerenga Tahi (Lake Accord)

There will be an update on behalf of the Accord Partners on the various Accord projects.

Mayoral Report

The Mayor will comment on various matters.

Councillor Report

There will be comment from Cr Judd on behalf of Councillors.

Public Participation (further information):

The ability to speak at Council and Community Board meetings provides the opportunity for members of the public to express their opinions/views to Elected Members as they relate to the agenda item to be considered by the meeting.

Speakers may (within the time allotted and through the Chairperson) ask Elected Members questions as they relate to the agenda item to be considered by the meeting, however that right does not naturally extend to question Council Officers or to take the opportunity to address the public audience be that in the gallery itself or via the livestreaming. Council Officers are available to offer advice too and answer questions from Elected Members when the meeting is formally considering the agenda item i.e. on completion of Public Participation.

Meeting protocols

1. All speakers shall address the Chair and Elected Members, not other members of the public be that in the gallery itself or via livestreaming.
2. A meeting is not a forum for complaints about Council staff or Council contractors. Those issues should be addressed direct to the CEO and not at a Council, Community Board or Committee meeting.
3. Elected members may address the speaker with questions or for clarification on an item, but when the topic is discussed Members shall address the Chair.
4. All persons present must show respect and courtesy to those who are speaking and not interrupt nor speak out of turn.
5. Any person asked more than once to be quiet will be asked to leave the meeting.

**CARRIED**

Margaret Williams asked that her comment on page 3 of the minutes be corrected to read "The list could be summarised in two words: 'communication' and 'common sense'...".

## 4 Announcements / Decisions

### Access and Inclusion Plan

Eleanor Gully and Helen Hayes spoke briefly on the genesis/compilation of the document, pointing out that a broader key indicator around the ambulatory sensitive admissions is yet to be added. The Plan once finalised will be available on the HDC website in Te Reo Māori, English and ReadSpeaker (text to speech) formats.

Jo Mason acknowledged the tremendous work done around the Plan, which now was all-encompassing of those with impairments within our community.

Di Rump advised that Muaūpoko Tribal Authority would be planning a kaumātua hui for HDC to come along for kai and speak to both Ngāti Raukawa and Muaūpoko.

Mike Fletcher also commended the Plan; and suggested a wording change to the statement on page 13 "...those with a disability so that living well..."

MOVED by Ms Cook, seconded Mrs Williams:

*THAT the Access and Inclusion Plan be adopted by Community Wellbeing Committee for consideration by Council.*

**CARRIED**

Di Rump asked that it be minuted that there is still an amount of engagement to occur, that would add to the Plan.

The Committee was advised that once Council adopted the final Plan, it would undergo translation into Te Reo Māori before both hardcopy and electronic distribution into the public arena.

Helen Hayes was again commended for the process and involvement she undertook regards the Plan.

### Long Term Plan

Caitlin O'Shea and Nichole Mangione introduced themselves and spoke to their PowerPoint on LTP pre-engagement covering: how the community can engage with Council around the LTP; highlighting what a LTP is; difference between AP and LTP; and the various projects near completion or in play.

Ideas/input from the community agencies was requested, in particular feedback/perspective on the five outcomes presented for community wellbeing – stunning environment, thriving communities, vibrant cultures, enabling infrastructure, exuberant economy.

**Action Point:** Presentation and questions to be given to members to consider and provide feedback to HDC LTP Team

Committee reminded of this weekend's LTP engagement locations, including the online portal and freepost postcards feedback options.

Reinforcing the message, the Chair encouraged members to be involved in this process, to make contact, ask questions and bring forward ideas.

Di Rump expressed concern regards distributing the draft LTP, stressing that it is crucial what the document communicates. Siting that the LTP in its current format could do more in regards to the Treaty of Waitangi /Te Tiriti o Waitangi, and the "massive opportunities" that will present when Iwi move from pre- to post-settlement; particularly when two Iwi in the district are going through this. A real concern that none of this is evidenced in the LTP and if it is truly going to reflect the Council it is currently devoid of any of that thinking and/or understanding.

The Chair responded that this would be discussed further offline following the meeting.

The PowerPoint presentation is **attached** to the official minutes.

### Pensioner Housing

Frances Fanning (director of Compassion Horowhenua) provided the background of Compassion Housing Ltd also covering: what the group provides in support of their work; their current housing portfolio and ownership model; the management process/structure; and intentions regarding the Horowhenua properties.

The committee were informed that besides employing a resident maintenance contractor, the intention was to employ a local based nurse. Two Sisters will also reside locally to ensure the welfare of the residents/tenants.

A meet and greet function is planned for 30 October 2017 in Levin, Foxton and Shannon for residents/tenants to meet the Sisters, Board members and Services Manager.

Considering the 50/50 ownership it was asked how potential conflicts around future direction would be solved. Mr Fanning responded that he couldn't see any grounds for there being a fall out; if in the event of a change in ownership he wouldn't see the Sisters of Compassion pulling out.

Clarification was given around the expertise offered by the McGuinness family, it being one of property and building expertise, with a particularly long standing relationship between the family and the Sisters of Compassion.

Mr Fanning was assured a proper welcome to the whenua would occur, likely on or around settlement date; and members looked forward to a Compassion Horowhenua representation being involved in the CWC in due course.

Mid Central, Star 4

Due to an apology this presentation will be deferred to the December meeting.

## 5 Reports

### 5.1 Community Services Report to 17 October 2017

#### Purpose

To present to the Community Wellbeing Committee the Community Services Report 17 October 2017.

MOVED by Mr Fletcher, seconded Cr Mason:

*THAT Report 17/449 Community Services Report to 17 October 2017 be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

**CARRIED**

James Richmond spoke to the Community Services Report, focusing on the high level items/achievements and future planning.

Sophie Parrant introduced herself and briefly spoke of the genesis of the Beats n Basketball programme (to address 'disengaged youth'; change the stigma around the perception), the outcomes / success of the event held. It is intended for another event will be held on 24 November.

Committee were reminded of the opening of Te Awahou Nieuwe Stroom on Saturday 18 November 2017.

Regards Jack Allen House, more on the proposal would be presented at the next CWC meeting. Helen Hayes was again acknowledged for her excellent involvement with this project. Helen invited anyone/agency who wishes to be part of the new space in the RSA, to please contact HDC or herself directly.

## 6 Agency updates

Barbara Bradnock, MSD – Still busy; feedback around locality planning well received; starting the planning cycle again.

Stephanie Cook, HALT – Busy, particularly in the domestic violence arena. Collaborating with police and Rotary on White Ribbon Day events. This year riders are coming through from Marton on a Thursday rather than Saturday. They will stop at Foxton local schools and Manawatu College to meet students; with Rotary partners providing a sausage sizzle. Then on to Taitoko School for more kai, and activities before heading back to Palmerston North. The change of day provides a good opportunity to target young people; to implement/encourage a social and generational change and the issues around domestic violence per se.

Margaret Williams, Older Persons Network – advised of Grey Power monthly members meeting date change: 27 October at Cossie Club ("From Russia with Love"). Another project: to lobby Horizons for their help in providing a second bus service Levin-Palmerston

North; need HDC's support. The success of the Levin-Waikanae bus service has partly instigated this project.

Maureen Scott, Children's Team – Review of planning cycles. The evaluation team is in this week looking at impact, and alignment to changes happening over greater Oranga Tamariki.

Richard Fry, MSD – Housing is causing issues region-wide. Meeting with tenancy providers to look at ways to get ahead and address these.

Ella Tavernor, Ministry of Education – Key priority: community learning in the area (movement from tertiary to employment); more individual level and supporting vulnerable children, working with partner agencies.

Betty-Lou Iwikau, Raukawa Whanau-Ora – Priorities (1) Housing, the major issue being the amount of rent families have to pay; housing in Levin is substandard (mildew, no heating), (2) Great concerns around self-harm among our young people in the district, (3) Grandparents becoming parents again; we're not aware of any respite unit or support provisions for those looking after children. As an Iwi these are our main priorities and then how we strategically align ourselves with other services within our community. Commended Liam McLeavey's involvement.

Rangitahi Forum planned for March 2018. Targeting young Māori in 4<sup>th</sup> to 7<sup>th</sup> Form (ages 14-18) in the Horowhenua and Manawatu. Currently 800 students interested. The aim of the forum being to encourage young Māori to consider the health arena as career option/profession; asking various professions, including kaumatua and kuia to engage their story with our young people.

Di Rump, Muaūpoko Tribal Authority – concurred with Betty-Lou regards issues in our rohe. Muaūpoko are experiencing increased requests from both whanau and schools for mentoring, particularly from hard to reach whanau; alcohol and drug issues are presenting younger and younger; and impacts on the youth mentoring space. Mentioned Hauora Unleashed Expo taking place 25-26 November 2017 (first of its kind in the country).

Delphi Winters, LMG – Strategic planning in November to give refocus to Local Management Group (LMG). Drop in capacity within the NGO community. Housing, poverty issues prevail. With Super Grans hat on: workshops and classes scheduled around core kaupapa (e.g. cooking, money management etc.)

Liam McLeavey, Youth Voice – Spoke of the success of the Zeal Inflatable Challenge held; 150 young people participated in Levin, then at Horowhenua College. Plan to fundraise or purchase a similar large inflatable football to continue the activity. Recruitment for a new chair of Youth Voice is currently taking place. In terms of advocacy, he believes we've had a breakthrough with young people engaging in local governance e.g. Manawatu College student Meghan Davenport was recently appointed to the Foxton Community Board, who led the appointment.

Jo Mason, Elected Member – heartened today, commend the input of community wellbeing re: the wellbeing and issues of our district in terms of what really matters – education, housing, being safe etc. (not just infrastructure issues). Great to have other councillors here.

Neville Gimblett, Elected Member – Reiterated Jo's comments; our community is more about just pipes and roads, it is about our people/community. Adding that the public are appreciative of what the committee does.

Karl Severinson, Oranga Tamariki – some work with police around responding/approaching differently to domestic violence and children in the home. Oranga Tamariki itself are rolling

out its new practice framework – how we are going to deliver on our values, how do we live out these values and how we work.

Mike Fletcher, MSD – finishing contracting round, into planning; already looking at extension of contracts. Has information around funding in the district, happy to share that in the key areas MSD are funding (aware of investment going into the district). Oranga Tamariki and its first year of operation – headliners: quality social work, quality care placements, strategic relationships and partnerships, especially with Iwi.

Sharon Grant – Echoed the sentiments of others; great hearing about the work going on in our space and dedication of the organisations/agencies, moving us in a positive direction.

2:50 pm

There being no further business, the Chairperson declared the meeting closed.

# Live Well Horowhenua Horowhenua Access and Inclusion Plan

2017 - 2020

Vision

**“An inclusive Horowhenua  
where all people can live  
well and access and enjoy  
opportunities to fulfil their  
potential, prosper and  
participate in all aspects of  
social, economic, political  
and cultural life ”**

## Introduction

*The Horowhenua District has a changing and increasingly diverse population*

- New Zealand's population and that of the District is changing.
- The median age of the Horowhenua population is increasing.
- The proportion of older people (those aged 65 years and over) is increasing.
- The region has a higher than national average percentage of people who identify as disabled.
- Our population has become more diverse in terms of ethnicity, culture, sexual and gender identities, religion, values, languages spoken and family structure.
- Given this diversity, planning needs to be deliberate and considered to affect equity of opportunity and equality of outcomes.

Diverse identities need to be acknowledged and intentionally included in decision making and actions taken to incorporate these perspectives in our Community planning and development.

This Access and Inclusion Plan has been developed and confirmed by the collaborative that comprises the Horowhenua District Council Access and Inclusion Forum. It has also been endorsed by the Community Wellbeing Committee of Horowhenua District Council.

The Access and Inclusion Action plan seeks to provide a results based approach to inclusion over the next 3 years (2017 to 2020).

To achieve the best social inclusion and accessibility outcomes, Horowhenua needs the involvement of a wide range of stakeholders to take a collective approach to the adoption of community led Access and Inclusion planning in the District.

## History

Since 2013 Horowhenua District Council has overseen the running of the Horowhenua Disability Leadership Forum and the Disability Action Plan.

As part of the 2017 review process it was decided that going forward, the Disability Leadership Forum will be renamed the Access and Inclusion Forum.

## The Role and Purpose of the Access and Inclusion Forum

The Access and Inclusion Forum will report to the Community Wellbeing Committee of Horowhenua District Council on progress made toward identified objectives, as well as keeping the wider community updated with progress towards the achievement of community led inclusion across the district.

The key purpose of the Horowhenua Access and Inclusion Action Plan is to serve as a guide and a work plan for the Access and Inclusion Forum in championing inclusion for people of all ages and ethnicities across the District. The action plan; and therefore the Access and Inclusion Forum, serves to ensure every person in the district is included, and in so doing improves their quality of life, which in turn contributes to the achievement of the overall vision for Community Wellbeing in Horowhenua; namely to live well and thrive.

### Timeframe

This strategy has a 3 year span and will next be reviewed in 2020. Over the same time period different initiatives and projects will be implemented that relate to the Access and Inclusion Action Plan.

These initiatives may involve the collaboration with the Community Wellbeing Committee and its other community forums such as the Older Persons Network, Arts Culture and Heritage Forum, Education Horowhenua, Youth Network and Youth Voice.

### What documents guided this Access and Inclusion Plan?

The New Zealand Disability Strategy (2016 to 2026) and its foundational documents: the United Nations Convention on the rights of Persons with Disabilities, and the Te Tiriti o Waitangi (Treaty of Waitangi).

The Horowhenua District Council used the New Zealand Disability Strategy (2016 to 2026) and the Waitangi principles as the point of departure for the review of the forum and its' plan objectives. The New Zealand Disability Strategy uses the United Nations Convention on the rights of Persons with Disabilities (of which New Zealand is a signatory to), as the founding document for the New Zealand Disability Strategy.

### Key outcomes identified in the NZ Disability strategy

-  **Outcome 1 – Education** We get an excellent education and achieve our potential throughout our lives.
-  **Outcome 2 – Employment and economic security** We have security in our economic situation and can achieve our full potential.
-  **Outcome 3 – Health and wellbeing** We have the highest attainable standards of health and wellbeing.
-  **Outcome 4 – Rights protection and justice** Our rights are protected; we feel safe, understood and are treated fairly and equitably by the justice system.
-  **Outcome 5 – Accessibility** We access all places, services and information with ease and dignity.
-  **Outcome 6 – Attitudes** We are treated with dignity and respect.
-  **Outcome 7 – Choice and control** We have choice and control over our lives.
-  **Outcome 8 – Leadership** We have great opportunities to demonstrate our leadership.

New Zealand Disability  
Strategy

Principles and Approaches

## Vision

New Zealand is a non-disabling society - a place where disabled people have an equal opportunity to achieve their goals and aspirations, and all of New Zealand works together to make this happen.

## Principles of the Te Tiriti o Waitangi

Partnership	Participation
Reciprocity	Autonomy
Mutual benefit	Equity
Equal treatment	Redress
Active Protection Options	

### Community Wellbeing Objectives:

- Monitoring, measuring and reporting on community wellbeing processes across the district.
- Increasing communication with community and community organisations.
- Engaging with geographic communities to establish community committees and community action plans.
- Ensuring a broad mix of coordinated events, activities and opportunities are delivered across the district.
- Fostering neighbourhood level events and activities that foster social connection.
- Increasing the range of current relevant community service information available via the website.
- Enhancing community development offering in Foxton and Shannon.
- Encouraging sponsorship and fundraising associated with community events and activities through advice, funding, training and education opportunities.
- Supporting the capacity of community organisations with an emphasis on volunteers.
- Actively coordinating community forums to integrate planning and service delivery for target populations.
- Strengthening and fostering relationship building across the wider community.
- Supporting community innovation and volunteering and celebrating successes.

### Long Term Plan Community Outcomes

- Our community has access to health, social and recreation facilities (and services)
- Our older people have access to opportunities
- Our young people live in a safe and supportive environment and are empowered
- All sectors are encouraged to work together
- Our communities have a "sense of place"
- We invest in the knowledge and skills of our people
- We are proud of our heritage and diversity
- All our people and communities have opportunity to participate in local decision-making
- We provide strong leadership

### Meetings & Monitoring and Evaluation

Quarterly meetings will provide specific member agencies the opportunity to report on their respective initiatives and activities, as well as any collaborative project groups to report progress on various initiatives. An annual report will be submitted to Council via the Community Wellbeing Committee.

## The Approach

The approach is determined by that which is adopted by the Community Wellbeing Strategy, namely a Collective Impact approach within a results-based accountability framework. The conditions of collective impact are reinforced through the forum and the action plan articulates clearly expressed objectives and desired outcomes with results based accountability. The Forum will on behalf of the Community Wellbeing Committee gather relevant data and will monitor, evaluate and report whether specified outcomes have been achieved.

The Collective Impact approach describes a model of operating that achieves large-scale social change through broad cross-sector coordination. There are five required conditions within this model; i) a common vision and agenda (a common understanding of the problem to be addressed and a joined up approach to solving it); ii) shared measurement systems (collecting data and measuring results consistently on a short list of indicators at the population level); iii) mutually reinforcing activities (diverse group of agencies and programmes and initiatives working towards common goals; not requiring all participants to do the same thing, but encouraging and supporting each agency and initiative to undertake the specific set of activities it does well); iv) continuous communication (often involving regular meetings over long periods of time) that builds on mutual experience, common understanding and motivation behind the different agencies and initiatives; and v) an organisation prepared to provide backbone support.

### Access and Inclusion Review Process:

Horowhenua District Council seeks to integrate inclusion and accessibility issues into all aspects of Council planning and practice. We are committed to involving the community in our decision making processes and want to know what residents and stakeholders think is working, where we can improve, and what we can do differently. We held a range of interactive workshops, focus groups and one on one interviews to get your feedback on what works, what we can improve and what we need to do differently.

### Who participated?

Over 100 individuals and representatives of more than 30 agencies and groups were consulted in the course of this review process. These key informant groups included a wide range of government agency representation, disability sector staff and representatives of community organisations. Many of the people spoken with were active in their community with some participating in two or three community groups. In addition to the 3 formal consultation workshops a series of in depth interviews, focus groups and drop in sessions were held with Access and Inclusion Membership groups such as the Horowhenua Special Needs Network and

“We need to champion the use of technology in overcoming accessibility barriers”

Horowhenua Special Olympics. Surveys were also distributed to individuals not able to attend focus groups.

### What you told us

There was overwhelming feedback across the board that the Disability Leadership Forum and its associated action plan should be renamed and reinvented to be the Horowhenua Access and Inclusion Forum. It also emerged as a clear understanding that the Access and Inclusion Forum and Plan should include a range of groups we seek to intentionally include namely people of all ages, ethnicities and sexual orientation as well as representatives from a range of culture and linguistic diverse (CALD) groups that are more representative of the diversity of our communities.

“Iwi are an integral part of all planning in the community”

“Access to information and support navigating services is a big issue in the Horowhenua”

## What you told us

Current issues for people with disabilities in Horowhenua

## Success would look like

### Current Priorities

The following New Zealand Disability Strategy outcome emerged as priorities

- Accessibility
- Health and wellbeing
- Attitudes
- Choice & Control
- Education
- Employment

### Future Opportunities

A number of potential collaborative projects were identified in the course of consultation below emerged as the Top 5 collaborative project preferences

1. Live Well Horowhenua: Public Awareness Inclusion Campaign
2. Haeremai Horowhenua Welcoming Community Campaign
3. Accessibility Matters Advocacy & Action (First fully accessible toilet!)
4. Support for Inclusion & Choice (Education, Employment, Entertainment)
5. Emergency Preparedness Collaborative Campaign and Kits

### Key Indicators

The following are baseline indicators indicated in the Community Wellbeing Action Plan.

#### Key Indicators for communities:

- Number and % of people who have not felt lonely in the last 4 weeks (Manawatu – Wanganui; 2008 – 67.3%, 2010 – 75.5%, 2012 – 71.4%), (by gender, age, ethnicity), New Zealand General Social Survey, Department of Statistics - two yearly. HDC will investigate ways to measure.
- Number and % of people with access to support in a crisis from another household (Manawatu – Wanganui; 2008 – 96.7%, 2010 – 97.6%, 2013 – 96.6%), (by gender, age, ethnicity), New Zealand General Social Survey, Department of Statistics - two yearly. HDC will include in its annual Residents Survey.
- Number and % of people who report belonging to community club, group or organisation (by gender, age, ethnicity) New Zealand General Social Survey, Department of Statistics - two yearly. HDC will include in its annual Residents Survey.

#### Key Indicators for Older Persons and people who identify as having a disability:

- Analysis of Horowhenua's interRAI Data (National Comprehensive Clinical Assessment interRAI for Older Persons)
- Number and percentage of older adults (65% and over) with ambulatory sensitive admissions. (ASH & Māori)
- Number of people using the total mobility scheme. (as published by Horizons District Council)
- Number of Elder Abuse cases. (Age Concern)
- Number of people on Disability Supported Income Benefits.

## Why Is This Important?

In 2013 census, 24 percent of the New Zealand population were identified as disabled, a total of 1.1 million people. Horowhenua falls within the Manawatu-Wanganui region which has a higher than national average percentage of the population who identified as having a disability or impairment (27 percent).

**The plan will focus on partnering, facilitating, advocating or delivering on specific actions and projects for the next three years such as:**

- Providing services, supports, facilities and information that is accessible for all.
- Providing people living with disability access to equal opportunities to authentically participate in, and contribute to, our local community.
- Encouraging people living with disability to contribute to the delivery of accessible and inclusive services, support, facilities and information through ongoing consultation and engagement via the Access and Inclusion Forum.
- Working in collaboration with people living with disability, community groups, Council, local business, operators and other community stakeholders to improve access and inclusion within our community, and to raise awareness and understanding about living with disability.

As Local Government, the Horowhenua District Council has an important role to play in the successful coordination of these outcomes. Likewise, representatives in the sector. The services they provide complement the disability service system and enable people with disability to participate in their communities on an equitable basis. Community organisations and representatives from culture and language diverse groups as well as representatives from minority groups, will all play a part in the implementation of the Horowhenua Access and Inclusion Plan.

## Achieving social inclusion and participation means

Raising the overall level and distribution of wellbeing in society to ensure that:

- all people have equal access to opportunities.
- all people are able to live well and develop their potential.
- all people achieve a fundamental level of wellbeing.
- overall social wellbeing improves over time.

To achieve socially cohesive communities, Horowhenua needs inclusive practices. Meaningful access and inclusion involves a community-wide shift in attitudes and includes physical, social, economic and cultural aspects, as well as access to services and information.

With more than 27% of the people in our region identifying as having disability, it is more important than ever to ensure that all members of our diverse community are able to participate in, and contribute to society.

**The Horowhenua Access and Inclusion Forum are committed to improving outcomes and increasing opportunities for people from cultural and language diverse groups and those with a disability so that living well in Horowhenua is a reality for ALL the peoples of our district.**

This plan provides a foundation for achieving greater access and inclusion in line with international thinking and the expressed wishes of minorities and people with disability. We hope that, with an emphasis on collaborative impact and action, this inclusion and action plan can move us beyond compliance towards community wide attitudinal shifts and culture change focusing on access, inclusion best practice and innovation.

This approach provides a common framework that aligns with the Community Wellbeing Strategy and seeks to move from a focus on compliance and service provision to an empowering rights-based approach supporting individual agency, choice, control and independence.

## Outcome 1 ACCESS

### Inclusive and accessible communities

People with disabilities live in accessible and well-designed communities with opportunity for full inclusion in social, economic, sporting and cultural life.

Recognising that access to information and support to navigate and access services and support is as fundamental as physical access.

Seeking to ensure people with disabilities have improved access to public places and spaces. Forum to play an advocacy and lobbying role.

As a collaborative, Forum seeks funding to undertake relevant projects.

The Access and Inclusion Forum plays a role in auditing public facilities for accessibility and makes submissions to customer services, annual and long term plan Council processes to assist Council to identify issues and address areas needing improvement. Activities could include monitoring footpaths and forum members collecting data with regard to mobility car parks and providing advice to ensure safe access.

Council communications and publications are accessible at all Council Offices and service centres, libraries and Council newstands (for example height of shelving, visual and audio displays in foyer).

Communication methods to advise of consultation and engagement, report problems and address issues are publicised and takes people with disabilities into consideration.

All people in the District are empowered to participate in democratic processes and Council processes (Elections, Annual and Long Term Plan).

## Outcome 2 ATTITUDES

### Personal and community support

Access and Inclusion Forum takes a lead in providing public awareness campaigns such as "Live Well Horowhenua," and "Haeremai Horowhenua" to champion, educate and advocate for the care and inclusion of all people in our diverse community.

People who identify as having a disability, have access to a range of supports to assist them to live well, and to be independent, actively engaged and included in our community.

Outcome 3 HEALTH

Health as a fundamental to individual wellbeing

All residents of Horowhenua including those who live with a disability, older persons and people from culture and linguistic diverse (CALD) groups are supported to attain the highest possible health and wellbeing outcomes throughout their lives.

Mental Health as a key focus and action area for the next 3 years.

Outcome 4 CHOICE AND CONTROL

Education, Training, Life Long Learning  
Economic security and employment  
Opportunities and Activities

People in Horowhenua have the opportunity to achieve their full potential through their participation in an inclusive, high quality, education system that is responsive to their needs.

All people with disability, their families and carers shall have economic security and access to employment opportunities, enabling them to plan for the future and exercise choice and control over their lives.

All people who have a disability, and their families and carers as well as those from culture and linguistic diverse (CALD) groups shall be able to enjoy equitable access to opportunities and activities which allow them to participate, volunteer and contribute in their communities and shall be empowered to be able to exercise choice and control their lives.

People who identify as having a disability shall have opportunities to continue learning throughout their lives.

## Priority Projects to be undertaken by the Access and Inclusion Forum

- **Jack Allen Community House as a champion site for access and inclusion** The relocated Jack Allen hub to be seen as the home of inclusion in the Horowhenua
- **Live Well Horowhenua** public awareness inclusion campaign in partnership with Older Persons Network, Youth Voice and Youth Network
- **Haeremai Horowhenua** Welcoming community campaign
- **Accessibility Matters Advocacy & Action**  
Navigation advocates to assist in accessing services;  
First fully accessible toilet facility
- **Support for Inclusion and Choice (Education, Employment and Activities)**
  - Collect data and formulate research report regarding learner support in schools and after school options in partnership with Education Horowhenua
  - Collaboration with Youth Network focused on employment opportunities
  - Access and Inclusion Forum initiative to seek funding for inclusive activities
- **Emergency Preparedness**  
Collaborative Strategy, Campaign & Emergency Response Kits

## Appendix: Access and Inclusion Forum

### Terms of Reference

These Terms of Reference will be in effect from June 2017 - June 2020, where a review of both the Terms of Reference and the Forum and Action Plan will take place.

### Background

The Disability Leadership Forum was established in 2013. As part of the 2017 review process it was resolved that going forward the Disability Leadership Forum will be renamed the Horowhenua Access and Inclusion Forum.

### Objectives

- To ensure people who identify as culturally and language diverse, or a minority, or having a disability are given opportunities to be involved in decisions that affect them
- To ensure all residents living in communities in our district feel they are part of a connected and inclusive society full of social activity and opportunity
- To ensure all groups including those who identify as a minority or having a disability are included and equipped with good information and empowered with the means to navigate and access services
- To ensure those identifying as being a minority or having a disability are living in a safe, secure and healthy environment, physically, socially and financially
- To ensure that all people in Horowhenua are included, recognised, celebrated and supported for their contribution to the community and are given opportunities to work, volunteer and grow
- To provide a vehicle for Council and Government Agencies to interact strategically and operationally with minority groups including people who

identify as having a disability, in the district

- To take a leadership role in accounting for the needs of all the people in our district
- To advocate on behalf of culture and language groups and disabled persons
- To serve as a collaborative forum that can drive their own projects and activities with support from Council and other groups and agencies.

### Role/Purpose

The Access and Inclusion Forum seeks to ensure all people in the Horowhenua live safely and securely and experience optimum health.

This Forum seeks to advocate for an inclusive Horowhenua where all people can live well and access and enjoy opportunities to fulfil their potential, prosper and participate in all aspects of social, economic, political and cultural life. The Forum serves to provide people who identify as having a disability and minorities with a voice and a platform to advocate for access to good information and services. Its purpose is the progression of the social and economic wellbeing of minorities and people with disabilities via the establishment and delivery of actions from the Horowhenua Access and Inclusion Plan (2017– 2020).

A positive and collaborative communication platform between persons with disabilities, minorities and representatives of community organisations, culture and language groups and agencies of those involved in the provision of care for persons with disabilities and older persons with a focus on fostering a connected inclusive community for people of all ages living in the district.

### Scope

In undertaking its role, the network will consider:

- The different needs of its representative groups while understanding that there are different sub groups within the population
- The views and opinions of people who live in the Horowhenua District
- Any specific actions that the membership and / or the groups / networks represented will take responsibility for, in order to achieve the Networks action plan outcomes
- The priorities and activities undertaken are described in Access and Inclusion Plan, which will be the subject of a triannual review. These priorities will inform Horowhenua District Council's understanding of access and inclusion priorities within the Horowhenua District. Activities undertaken will be monitored in relation to how population level indicators of positive community wellbeing are influenced.

### The membership of this network will be constituted from representatives of the following areas:

- Muaūpoko Tribal Authority

#### 5.1 Draft Land Transport Bylaw 2017 - Consideration of Submissions and Decisions

##### Purpose

To present to the Hearings Committee (Committee) an updated copy of the Draft Land Transport Bylaw 2017 (Bylaw), having implemented all amendments to the Bylaw as requested by the Committee at the Hearings Committee meeting of 28 June 2017.

To present to the Committee a summary of Officer comments on submissions that were received during a further consultation process for the Bylaw and for the proposed change to the open speed limit on beaches to 60 km/h.

It is also recommended that the Bylaw, including any changes made as a result of the decisions on the submissions, be recommended by the Committee for adoption by the Council.

MOVED by Cr Wanden, seconded Cr Tukapua:

*THAT Report 17/523 Draft Land Transport Bylaw 2017 - Consideration of Submissions and Decisions be received.*

*THAT this decision is recognised as not significant in terms of S76 of the Local Government Act.*

**CARRIED**

Mrs Braithwaite, Council's Roading Operations Team Leader, joined the table to speak to the report. She noted that since the Hearings meeting on 28 June 2017 Officers had undertaken the requested actions, including consultation with Federated Farmers, and also consultation with regard to beach speeds. From that process two further submissions and a late submission had been received and there had been two requests to speak with regard to the proposed changes. The other Hearings Panel recommendations from the initial hearing had been included in the Bylaw.

Cr Mason raised the issue of the proposed change of signage outside the dairy

adjacent to Super Liquor and the request to have this included in the Bylaw schedule.

Mrs Braithwaite said that had not been reflected in the Bylaw as yet. The alteration to the Bylaw would be implemented once the signage change had been effected.

The Chair also noted the late submission from the Foxtton Beach Beach Wardens, which would be spoken to by Mr Brannigan. Acceptance of the late submission would need to be acknowledged by the Committee.

Speaking on behalf of the Waikawa Beach Ratepayers Association, Mr John Hewitson reiterated the Association's concerns with regard to speed limits, including the Association's desire to see the beach speed reduced from 100 km/h to 40km/h. Mr Hewitson provided a copy of the notes for his verbal submission and responded to questions from the Hearings Panel.

Mr Peel responded to some of Mr Hewitson's comments:

- as noted, the Beach access was on private land and Council was unable to set speed limits on private land;
- the temporary 80kph signs on turning into Waikawa Beach Road were not yet in the Bylaw, but would be included when the Bylaw was passed by Council. The temporary signs would then be replaced;
- last month new speed limit rules came into effect and Council would be doing a speed limit review on a number of roads around the district. When Waikawa Beach road was reviewed, which could be within 2-3 years, the speed limit would most likely become 80kph. Any changes done would see an amendment to the Bylaw, which it was intended would occur in June each year. If a speed limit changed, a temporary sign would be put up prior to it being included in the Bylaw;
- the 30kph signs put up by the Logging Company had been in response to a request and was approved as a temporary measure, for safety, which Council was able to do. It was not possible for Council to make that permanent;
- with regard to vegetation restricting visibility, Parks and Reserves were constantly requested to keep trees cut back;
- footpaths did not make up part of this Bylaw. However, in the last LTP \$100,000 per year had been approved for footpaths. A new LTP was coming up and there was the opportunity for the Association to submit to that process.

Mr Brannigan joined the table to speak to the late submission (copy provided) from the Foxtton Beach Beach Wardens.

MOVED by Cr Wanden, seconded Cr Tukapua:

*THAT the Hearings Committee accepts the late submission from the Foxtton Beach Beach Wardens.*

**CARRIED**

As Coordinator of the Foxtton Volunteer Beach Warden Group, Mr Brannigan presented the Group's submission which suggested that the Council's proposal to reduce the default speed limit on the district's beaches from 100 kph to 60 kph did not go far enough, with the Group requesting that the default speed be set at 30 kph.

Mr Brannigan outlined the Group's rationale for the requested change saying that whenever someone drove on the beach it became a road which allowed the Land Transport Act to become enforceable. Providing comment also from his 18 years Police experience, Mr Brannigan said people tended to drive at least 10kph above the speed limit so the proposed 30 kph did provide a buffer on what became a thoroughfare, not just a place of recreation. It was submitted that a default speed limit

of 30 kph would contribute to not only the continuation of public access for vehicles to the district's beaches, but would also provide a suitable safety net to all beach users at all times and, additionally, allow better protection of the coastal environment.

Responding to a comment from the Chair on the Police's submission which suggested a default of 50kph and the possibility of variable speeds, Mr Brannigan said that the Police had been very hands off Beach policing in the recent past, leaving it very much to the beach wardens. The beach wardens were all warranted as Beach Traffic Control Wardens and Litter Control Officers under the authority of Council. Foxton Beach had nine wardens; however their powers of enforcement were limited and their role was more of a PR/monitoring role, calling in the Police if enforcement was needed. Waitarere Beach also had a number of beach wardens.

With the Waitarere Beach Wardens having supported a beach speed limit of 60 kph, Mr Brannigan said he had not tried to influence them. His submission was based on his experience.

Cr Wanden queried of Mrs Braithwaite how the speed limit of 60 kph had been reached with Manawatu District Council.

Mrs Braithwaite said that Manawatu District Council had made contact advising they were undertaking a consultation process and were proposing a 60 kph speed limit within their beaches. Officers decided to propose 60 kph so there was a consistent speed limit for the two districts' beaches and, after consultation, had decided to stay with 60 kph. Manawatu District Council had also used consultants (GHD) who had also supported the 60 kph speed, as had the Police who had been made aware of GHD's proposed beach speed reduction from 100 kph to 60 kph.

Cr Mason said she would like to have seen the GHD report in detail. She also queried what discussions had been undertaken with Kapiti Coast District Council which had a 30 k beach speed limit.

Mrs Braithwaite said she only had what Manawatu District Council had provided to her.

Mr Peel gave an explanation with regard to the new speed guidelines and what speed limits could be expected going forward. He also noted that GHD had explained that when they had looked at the speed limit, the beach was not an urban street so they felt 50 kph was not appropriate, but 80 kph was too fast; which was why 60 kph had been proposed.

Responding to a query as to whether a speed limit had been proposed in the consultation process, Mrs Braithwaite said that 60 kph had been suggested, with submitters' feedback requested.

Looking at the list of consultees, Cr Tukapua queried why the Horowhenua Road Safety Group had not been included, with Mr Peel clarifying that that group was not run by HDC but by Horizons Regional Council and it would have been for Horizons to solicit their response.

With regard to consultation with iwi, and having raised the fact at the June meeting that there was an iwi group of at least 9 hapu which met monthly, Cr Tukapua said it was a shame that no feedback had been received from them. Noting that iwi preferred face to face consultation, Cr Tukapua said she had contacted a couple of members of that group and they were not aware of the consultation. She had solicited their feedback, which had been received within three hours.

Mrs Braithwaite said she had used Council's email list of iwi contacts and emails had been sent through to the various chairpersons. Only one reply had been received and

that had only asked that the consultation time be extended.

Cr Tukapua said the feedback she had received was much in line with the Foxton Beach Beach Wardens around protecting people and protecting the environment. Shellfish were specifically mentioned and the effects of driving speed. The sand dunes were also mentioned and the relationship between pingao and tuatua/pipi, with the preference expressed being for a lesser speed limit than what was being proposed; anything between 30 – 50 kph.

Cr Mason expressed her thanks for Cr Tukapua's input as the information provided was important for the Hearings Panel as it deliberated.

### Deliberations

Cr Mason said for her, having lived locally for a long time and having spent a lot of time on the beach, traffic on the beach was one of the things that bothered her the most. Also as an RMA Commissioner she was required to think about the environment and its sustainability. Cr Tukapua had raised the issue of shellfish on the foreshore and listening to the submissions from Waikawa Beach and the Foxton Beach Wardens, 30 kph would be her recommendation, as there was not only the Manawatu District to consider, but also Kapiti Coast District Council which had a 30 kph speed limit.

Cr Wanden said he agreed with the Chair's summation. He was conscious of the fact that what was best for this district needed to be considered, regardless of other viewpoints. He was also conscious of the feedback received by Cr Tukapua. He acknowledged the damaging effects that vehicles may have on beaches. The beach was a recreational area and while it was technically a road when a vehicle was on it, he did not believe in reality that it was, so he also agreed with restricting the beach speed to 30 kph.

Saying that driving on the beach was a privilege, Cr Tukapua said she had also taken heed of the desire of today's speakers to have a lower speed limit than that proposed. She therefore also supported a speed limit of 30 kph.

The Hearing Committee's recommendation to Council was, therefore:

MOVED by Cr Tukapua, seconded Cr Wanden:

*THAT the Committee, having taken into consideration the submissions received during the consultation process, recommends to Council the adoption of the Draft Land Transport Bylaw 2017, with the following amendments::*

- *the addition of the change to p15 outside the dairy adjacent to Super Liquor; and*
- *the inclusion of a beach speed limit of 30 kilometers per hour for all the beaches in the district;*

*and that on adoption by Council the Traffic and Parking Bylaw 2007 and the Stock Control and Keeping of Poultry, Bees and Pigs Bylaw 2005 be repealed.*

**CARRIED**

Cr Mason thanked Mrs Braithwaite and Mr Peel for all their work.

## 5.2 Gambling Class 4 Venue Policy 2017 - Consideration of Submissions

### Purpose

To provide the platform to allow members to hear and consider submissions received on this Policy during the consultation phase of this review process.

To propose members recommend the policy, as may be amended during the hearings process, for adoption by Council, and the subsequent repeal of the 2014 Gambling Class 4 Venue Policy.

MOVED by Cr Wanden, seconded Cr Tukapua:

*THAT Report 17/521 Gambling Class 4 Venue Policy 2017 - Consideration of Submissions be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

*THAT members hear and consider submissions received on this matter following use of the Special Consultative Procedure as was required by section 156(1) of the Local Government Act 2002.*

**CARRIED**

Mr Lepper and Ms Leyland joined the table to speak to this report.

Introducing herself, and speaking on behalf of the Problem Gambling Foundation, Ms Therese Grevatt explained the role of the Problem Gambling Foundation. She said it was important to note that the Foundation was not anti-gambling; it was anti the harm they saw as a result of problem gambling. She noted that \$7.6m per year or \$21,000 per day left the district, with a small group of people (approximately 3,200) being at risk of major financial harm. She commended Council for its decision to adopt a sinking lid policy which was a positive step and resulted in less money and time lost.

She then responded to Members questions with regard to the number of machines in the district per head of population and how that compared to other districts around the country; how much head room there was with regard to the sinking lid policy; the issue of location and whether people had to walk or drive to venues; the social effects and whether literacy and numeracy were an issue in terms accessibility of information; the issues and difficulties with regard to internet gambling; the disparity between figures provided by the Problem Gambling Foundation and the NZ Community Trust.

Ms Tanya Piejus from the New Zealand Community Trust gave a PowerPoint presentation underpinning the Trust's key messages: that the vast majority of players using gaming machines for entertainment know when to stop; a sinking lid policy would destroy essential fundraising infrastructure for this community; demand for funding would not go away and there was no simple answer to replacing the funding shortfall.

Stressing the importance of the community funding provided by gaming trusts, Ms Piejus said the Trust requested that Council change from a sinking lid to a cap on the number of gaming machines based on the current number or a population-based cap; and that the existing relocation policy to allow venue owners to move for their own business reasons, as well as when they are forced to move for reasons beyond their control, be maintained.

Responding to a query as to whether in the Trust's two venues there was responsibility placed on managers to do something where a problem was recognised, Ms Piejus said the Trust had a legal obligation and staff at all their venues had been trained with there being a whole range of measures put in place on an ongoing basis to deal with problem gamblers. Machines also stopped after 30 minutes to let people know how

long they had been playing. Problem gambling information/warnings in venues were also being translated into other languages, such as Chinese.

Ms Piejus also clarified how the money raised through the machines was apportioned and how much came back to the community.

The meeting adjourned briefly (3.05 – 3.15 pm).

Mrs Leyland, responding to a query about how many machines had been lost from the district since 2007 advised that five venues had been lost and 54 machines, with the number of machines now being 144.

### Deliberations

Considering the submissions received, Cr Mason noted they either supported the status quo or a firmer policy. Since the sinking lid policy had been in place the number of venues and machines had been reduced, with the funding coming through still supported. She said she had not seen or heard anything that supported changing the current policy. There was still head room for the number of machines to go down and be reflective of the number of people in the district. She thought it was a responsible policy.

Referencing the Department of Internal Affairs information in 8.5 of the Officer's Report, Cr Tukapua she supported the recommendation in 8.6 that the sinking lid policy currently in place should be maintained.

MOVED by Cr Wanden, seconded Cr Tukapua:

*THAT the Hearings Committee recommends to Council the adoption of the Gambling Class 4 Venue Policy 2017 as consulted on, effective from the date of adoption by Council (23 November 2017), and the repeal of the 2014 Policy.*

## **5.3 New Zealand Racing (TAB) Venue Policy 2017 - Consideration of Submissions**

### **Purpose**

To provide the platform to allow members to hear and consider submissions received on this Policy during the consultation phase of this review process.

To propose members recommend the policy, as may be amended during the hearings process, for adoption by Council, and the subsequent repeal of the 2014 New Zealand Racing (TAB) Venue Policy.

MOVED by Cr Tukapua, seconded Cr Wanden:

*THAT Report 17/520 New Zealand Racing (TAB) Board Venue Policy be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

*THAT members hear and consider submissions received on this matter following use of the Special Consultative Procedure as was required by section 156(1) of the Local Government Act 2002.*

**CARRIED**

Speaking to the Report, Ms Leyland said she had spoken with Jarrod True from the New Zealand Racing Board who had decided not to come and speak today. He had indicated that the Racing Board was happy with the Policy as it was and did not recommend any changes.

It was noted that there had also been no issues over the last three years and no request had been received to have a stand-alone venue, with the venues currently operating being purely agencies.

Deliberations

The consensus of the Hearings Committee was that the status quo remain.

MOVED by Cr Tukapua, seconded Cr Wanden:

*THAT the Hearings Committee recommend to Council the adoption of the New Zealand Racing (TAB) Board Venue Policy 2017, as consulted on, effective from the date of adoption by Council (23 November 2017), and the repeal of the 2014 Policy.*

New Zealand Police

Sergeant Dave Fraser from the Foxton Police gave an update on what had been happening since he last spoke to the Board. There had been a retirement and there had been family and health issues for other members so there had recently been resourcing issues for the Foxton Police. Despite that, things had been going well. Eight of the more serious local criminals (violent offenders and drug dealers) were in jail with Court cases pending. Hopefully they would continue to be retained.

They now had a four wheel drive vehicle which was used at the beach and for Search and Rescue.

It was, in effect, business as usual.

Responding to a query about speed on Seabury Avenue and the Police's stance on children and motorised vehicles on the beach which was in effect a road, Sergeant Fraser said it was about everyone respecting each other, which did not always occur. He had asked his officers to use discretion in those circumstances, rather than a blunt instrument.

With regard to replacing the retiree, Sergeant Fraser said he had a new officer coming next month. He also noted that a considerable amount of their time was taken up with domestic violence and mental health issues, which was no different than any other small town in New Zealand. It had not been a Police focus in the past, but with the way it was now reported it had become more evident.

Horowhenua District Council Update

Cr Gimblett said that the focus for Council recently had been the Long Term Plan process. There had been a lot of pre-consultation with the community and he commended the Council Officers who had been involved. Some of the events had been hugely successful and it was something new for Council to go out to the community before an LTP process so hopefully there would be a better result.

Another issue that had been exercising Council, but was somewhat in abeyance at the moment, was growth and Roads of National Significance (RoNS). There were some who

were extremely interested in this; however it was not being led by Council. Council currently needed to sit back and see what effect, if any, the change of government would bring. The rest of the issues in front of Council were mainly operational.

Referencing the Finance, Audit & Risk Agenda, Cr Gimblett noted the desludging of the Foxton wastewater ponds which was being planned. This was the first time this had occurred in 25 years. The Foxton Water tank was progressing and the flooding at the Foxton cemetery should progress with the fine weather. The Te Awahou Nieuwe Stroom opening was also eagerly awaited.

With regard to Cr Gimblett's reference to RoNS, which was a National Party initiative, Mr Clapperton said this should in the immediate future be referred to as "the expressway" until the new government's views on this whole project had been articulated. He did believe there was an opportunity for communities like Horowhenua to work with the new government and take advantage of any opportunities that may arise with the change of government.

## 7 Reports

### 7.1 Monitoring Report to 30 October 2017

#### Purpose

To present to Foxton Community Board the updated monitoring report covering requested actions from previous meetings of the Community Board.

MOVED by Ms Metcalf, seconded Mr Allan:

*THAT Report 17/531 Monitoring Report to 30 October 2017 be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

Ms Lundie said she had been to an open day held by the contractors which had 23 people in attendance. Everything was on target. Quite a few of the staff were living in Foxton. There was still a decision to be made about the median strip and whether or not there would be a barrier.

Mr Girling said he had had a chat with one of the engineers and had been told that each lane would be 2.5m wide, plus a 1.5m shoulder. An open invitation had been extended for Board Members to go down to the site.

Mr Roache said he would still like to meet with NZTA.

## 7.2 Chief Executive's Report to 30 October 2017

### Purpose

To present to the Foxton Community Board, for information, issues relating to the Foxton Community Board area.

MOVED by Ms Metcalf, seconded Mr Girling:

*THAT Report 17/530 Chief Executive's Report to 30 October 2017 be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

### Public Participation

Commenting on 3.2 Economic Update, Mrs Paton referenced Project Lift, as referred to in the initial bullet point, and queried how many of the Board Members had actually read, or even seen, the document. She said for her personally, it was perhaps the most boring document she had ever read and queried if it had, in fact, been edited.

Saying this document had gone to the Ministry of Business, Innovation and Employment, Mr Clapperton explained that while the document may appear to be repetitive, it had been formulated to meet the fairly stringent criteria required by government departments when it came to seeking government funding. This was a huge opportunity and hopefully would also draw the right response from the new government in terms of regional development. There was also an opportunity here for the Economic Forum and others to get involved in the innovation hub they are looking at establishing.

Mrs Paton also noted an error in 3.9 - Meeting Schedule for 2018. She was advised that the required correction had been made and an additional meeting had also been included for May, when one would not normally be held because of the LTP/Annual Plan process.

MOVED by Ms Metcalf, seconded Mr Girling:

*THAT the Foxton Community Board continues to meet six weekly for 2018, with a commencement time of 6.00 pm, as per the following meeting schedule:*

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Foxton Community Board Frequency: 6 weekly 6.00 pm	-	12	26		7	18	30	-	10	29		10

Speaking to 3.4 – Flooding Issues – Foxton Beach, Mrs Heine again raised flooding issues that had affected Roore Street and Seabury Avenue for approximately 19 years, with it being the anniversary of when the problem had been brought to the Board in 2016 by herself and John Hutchison. She showed a survey map of the area, noting the lack of a stormwater drain. Her property had been flooded twice during the winter and she was keen to have something done about the lack of proper drainage.

Mr Roache suggested a meeting should be held at the site, though he had been led to believe that the pipe had been cleared and the area was draining. Mrs Heine said they had gone around a cabbage tree, but that was all.

Mr Clapperton stressed that the problem was right across Foxton and Foxton Beach and any solution needed to address the whole issue rather than just fixing a problem in one location which could create problems in other areas. There could also be significant cost, which would need to be factored in.

Mrs Heine queried why funds from the Freeholding Account could not be used to fix the problem.

Mr Clapperton confirmed that was an option as it could be used for services and amenities at the beach, and it could be used on private property. There would be a process to go through but there was nothing to say that it had to be used for Council-owned property or utilities.

Mr Roache said he would take it up with Mr Saidy and it could be discussed at the upcoming LTP meeting schedule for 6 November.

Responding to a query as to whether stormwater was included in harmonisation, Mr Clapperton said that was for water and wastewater. Stormwater would be included in the general rate.

Commenting that this was the first time a Register of Assets had been provided for the Foxton Beach Freeholding Account (3.17), Mr Eady raised a number of queries, which Mr Clapperton responded to. With regard to the section values, Mr Clapperton said these were at book value and this information was provided on an annual basis and were based on information provided by a registered valuer. Mr Clapperton also gave an explanation as to why the Marine Parade foreshore (dune) sites were included.

Mr Clapperton then provided further comment on the items in the report:

### 3.8 Foxton and Beach Bowling Club

Since the report was prepared, he had been to a meeting at the Bowling Club where the provision of a suspensory loan was discussed. It had been ascertained that the Club did not have the ability to borrow so to get the work progressed consultation with the community needed to occur sooner rather than later on releasing monies from the Freeholding Fund. He sought the Board's direction as to whether, based on consultation, they supported recommending to Council that funds be released for the project.

Board Members discussed this in some detail, with varying views being expressed, including that this project was a discretionary activity with there being other competing demands on the Fund. As a responsible Community Board, that would need to be messaged correctly. Community support was raised, with it noted that the Club had already collected 460 or so signatures in support of the project. Also raised and discussed was what contribution would be made by the Club.

With Mr Clapperton stressing that this was just putting in place a process, it was not making a commitment as this stage, it was:

MOVED by Mr Allan, seconded Mr Girling:

*THAT the following process:*

3.7 Foxton Wastewater Treatment Plant Hearing

This was still going through the RMA process, but there was light at the end of the tunnel and it was hoped that a way forward would be in place prior to Christmas with a decision from the Environment Court early in the New Year. It was tracking along nicely in terms of process, which was very positive.

3.10 Dog Issues at Stuart Donnelly Park

MOVED by Mr Allan, seconded Ms Metcalf:

*THAT the current dogs on leash rules for Stuart Donnelly Park be retained on the basis there have been no issues reported over the last six months.*

**CARRIED**

Ms Lundie recorded her vote AGAINST the motion.

3.15 Manawatu Estuary Trust

Speaking to the Minutes, which she requested be taken as read, Ms Metcalf further noted in relation to the Sign on the Darwick Street Viewing Platform that the Estuary Trust had asked the Statutory Managers of the Estuary (i.e. DOC, HC and HDC) to renew the faded sign on the viewing platform. DOC was arranging the renewing of the sign, with it to be a similar style to the other signs in the area.

Mr Clapperton said he would check the price for such signage and where it could be funded from, if required.

Mrs Metcalf also spoke about the 'amazing morning' when the godwits were welcomed back, with about 20-25 people turning up to watch the approximately 30 birds that arrived at one time while they were watching.

3.17 Foxton Beach Freeholding Account

Mrs Metcalf noted that this was still only reporting on equity and a breakdown of administration, maintenance and overheads was still required.

### **7.3 Pump track installation at Holben Reserve, Foxton Beach**

#### **Purpose**

To seek a decision from the Foxton Community Board to endorse the installation of a pump track in Holben Reserve, Foxton Beach, which is to be funded from the Foxton Beach Reserves Investment Plan. This report is also to inform the Foxton Community Board of progress to date, including an outline of the detailed design.

MOVED by Mr Allan, seconded Ms Metcalf:

*THAT Report 17/547 Pump track installation at Holben Reserve, Foxton Beach be received.*

*THAT this decision is recognised as not significant in terms of S76 of the Local Government Act.*

**CARRIED**

Ms Grant and Mr Nelson joined the table to speak to this report and respond to any queries. Mr Nelson did confirm that should the park prove to be really popular any issues such as traffic management would be addressed at that time.

An amended recommendation was tabled, with Mr Clapperton explaining that it did not need to go to Council for ratification as it was within budget and the money had been approved.

MOVED by Mr Girling, seconded Ms Lundie:

*THAT the Foxton Community Board supports the development of a 50m x 50m pump track at the eastern end of Holben Reserve at a cost of \$338,121.70 (plus GST) (inclusive of landscaping and astroturf).*

## 7 Reports

### 7.1 Financial Report for the three months to 30 September 2017

#### Purpose

To present to the Finance, Audit & Risk Subcommittee the financial report for the three months to 30 September 2017.

Chief Financial Officer, Mr Law, spoke to the report, expanding on the information in his Executive Summary and responding to questions from Members:

- the \$6,000 additional grazing revenue for Shannon Wastewater was for three months and was over and above than actually budgeted for;
- also on page 14, Grants and Subsidies, the amount under budget was for the Te Awahou Nieuwe Stroom project, with Mr Clapperton saying he would check on the figure provided.

With the lower than budgeted employee costs noted (page 9), assurance was sought from the Chief Executive that Council's services were not being impacted on and whether or not that appeared anywhere at this stage as a risk traffic light.

Mr Clapperton said in terms of impact on levels of service, at this point it was manageable, but should vacancies remain unfilled for too long there could be an impact on capital projects. Any impact on capital projects to date had been largely weather dependent. There also did not seem to be any significance challenges in filling roles because of recent media coverage, with Council still seen as an employer of choice and a high calibre of applicant being attracted.

Mrs Brady commented further comments that in terms of risk, plans would be made to mitigate the risk should a role be unfilled for too long.

Deputy Mayor Bishop reiterated a previous request to have the number of subdivision consents approved (page 9) shown in terms of the additional residential lots created, as the figure of 17 consents approved did not provide enough information.

Mr Lepper advised that 46 additional lots had been created as at the end of last month.

An interest was expressed in having further information in terms of what happened during the processing consents applications as despite 100% of applications being recorded as processed within the prescribed time of 18 days that did not indicate what occurred when further information was required, and there was some frustration expressed in the building sector about the process. Whilst there were a number of measures that were covered by statute, that did not indicate what was happening on the ground. It would be helpful information, but not necessarily easy to report.

Mrs Brady said she would review the report structure and look at any issues around any reported barriers. Mr Clapperton said an indication would also be given with regard to the quality of the applications being received which would affect processing time. There were no applications being sent off-site for processing at present.

Further breakdown was requested in relation to the information supplied under 'Water Supply – Performance Measures (pages 76 & 77).

Mr Law provided an explanation with regard to the impact of amalgamation required by the Valuer General, particularly of rural properties, on rates debtors. This had been caused by revaluations done last year and it was unlikely to occur again.

Mr Jones advised he had requested that the next report include the overall spend and how that looked in terms of the forecast and a summary of non-financial performance measures for the year and how many had or had not been achieved to identify any trends.

MOVED by Mayor Feyen, seconded Cr Campbell:

*THAT Report 17/529 Financial Report for the three months to 30 September 2017 be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

**CARRIED**

## 7.2 Treasury Report

### Purpose

To present to the Finance, Audit & Risk Subcommittee the Bancorp Treasury Report for the September 2017 quarter.

Mr Law gave an explanation in relation to the proposed recommendation 2.3 which was in response to the Standard and Poors perceived liquidity risk. He had endeavoured to get further information from Standard and Poors as to why they believed there was a risk, to no avail.

Also offering comment, Mr Jones said that this was something he had seen done by other councils, with borrowing being for both and sort and long term.

MOVED by Deputy Mayor Bishop, seconded Cr Mitchell:

*THAT Report 17/546 Treasury Report be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

*THAT for the purpose of managing the potential liquidity risk identified by Standard & Poors, the Horowhenua District Council borrows an extra \$5m for a term of not less than 2 years and invests this in short-term investments with interest rates that will cover the cost of borrowing*

**CARRIED**

### 7.3 Infrastructure Projects Update

#### **Purpose**

To update the Finance, Audit & Risk Subcommittee on the projects being undertaken by the Projects team.

Projects Manager, Mr O'Neill, gave a PowerPoint update on the various projects reported on.

MOVED by Cr Wanden, seconded Cr Brannigan:

*THAT Report 17/525 Infrastructure Projects Update be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

**ARRIED**

### 7.4 Risk Management Policy

#### **Purpose**

To provide the Finance, Audit and Risk Subcommittee with the draft Risk Policy as agreed at the 13 September 2017 workshop.

Mr Jones said he wanted to stress this was the risk part of the Elected Members' function. This was setting the framework for staff to identify, manage and mitigate risk and to report back to this committee for monitoring. It was very important to understand the role of the various parties. A workshop had been held on 13 September and a number of changes arising from that workshop were reflected in the policy.

Mrs Brady took the opportunity to introduce Mr Ian McLachlan, who had joined the team to take this policy forward enumerating his considerable experience in the risk field.

Mr Jones reinforced that the Risk Management Framework was an internal document that had been brought to the Subcommittee for information only. It set out how risk would be managed internally and it was not part of the Policy.

Responding to a query as to whether, once the Policy was adopted, all Officer reports that came to Council would have been assessed for risk and how that would be reported, Mr McLachlan said that would be looked at once the Policy was adopted.

In relation the proposed Risk Management Committee, Mr Jones clarified the role of the Committee was to take the Policy and implement it throughout the organisation. It was good practice. It was an internal process and even he, as the FARS Chair, would not be involved.

With it proposed that the Statement of Risk Appetite would be approved annually, how that would be dealt with was queried. Mrs Brady said that would be up to Elected Members to set any terms of the review.

Mr Jones said what he saw happening was that the Subcommittee would get regular reports in terms of risks that had been identified and how they were being managed. In 12 months' time there would be a formal review as to whether the risk appetite had been adjudged correctly, or it could be looked at in six months' time.

The process was queried if it was someone like the CE, who was Council's only employee, who had caused an extreme risk. Mr Jones said in that case it would have been identified by the Senior Leadership Team and that would cascade up or down depending. It may be require to be elevated to the Mayor or to this Subcommittee. There would also be other policies that would come into play.

Mrs Brady said this policy was not written around an individual or individuals. This was reflected in the organisation-wide approach taken. If something did arise that was not covered by the policy and the policy needed to be changed, that would be addressed. This was just the starting point.

Requested amendments to the Policy::

- Addition of HDC Protected Disclosures (Whistleblowers) Policy to Related Policies and Procedures section
- Correction of Strategic Very Minor consequence descriptor to less than three (3) working days.

MOVED by Mr Jones, seconded Cr Campbell:

*THAT Report 17/533 Risk Management Policy be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

*THAT the Finance, Audit and Risk Subcommittee endorses the draft Risk Management Policy to proceed to Council for adoption.*

## 7.5 Situational Awareness Update

### Purpose

To provide a situational awareness update (under the umbrella of the Risk Framework) to the FAR Subcommittee.

Mr Clapperton said he had requested this report as there was a need to be conscious of what could impact on the organisation with the recent change in government and how that could be best managed from an HDC perspective. LGNZ and SOLGM would be working to understand what policy and legislative changes might mean, but this community had its own specific challenges and how they may be managed going forward needed to be considered.

Mayor Feyen said he would support a more direct approach to lobbying central government.

Mr Clapperton agreed saying that Council needed to be more proactive as a district council in directly lobbying to ensure those things that were important for our community were on the radar in Wellington.

MOVED by Mayor Feyen, seconded Cr Bishop:

*THAT Report 17/551 Situational Awareness Update be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

# Risk Management Policy

File No.: 17/533

---

## 1. Purpose

To provide the Finance, Audit and Risk Subcommittee with the draft Risk Policy as agreed at the 13 September 2017 workshop.

## 2. Recommendation

- 2.1 That Report 17/533 Risk Management Policy be received.
- 2.2 That the Finance, Audit and Risk Subcommittee endorse the draft policy to proceed to Council adoption.
- 2.3 That this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.

## 3. Background/Previous Council Decisions

- 3.1 On 13 September 2017 Philip Jones facilitated a briefing with the FAR Subcommittee exploring HDC's current risk policy, areas of improvement identified by officers and requirements of elected members.
- 3.2 The FAR Subcommittee at this briefing agreed that the Risk Policy should be adopted and owned by Council and requested that the policy returned to the FAR Subcommittee in draft for review at the 1 November 2017 meeting.

## 4. Issues for Consideration

- 4.1 As agreed with the FAR Subcommittee on 13 September 2017, officers have made the changes to the Risk Policy to include appendix attachments within the policy providing:
  - Descriptors of Consequence – these have been amended to reflect the five key risk areas.
  - Descriptors of Likelihood
  - Roles, Responsibilities and Reporting
- 4.2 Although it was agreed that the Risk Framework and associated process appendices were operational documents, these have also been provided in draft for provision of the FAR Subcommittee review.
- 4.3 The risk framework sets out the risk management process and reiterates the five key risk areas. Officers have made changes to the framework to include:
  - Additional descriptors by consequence level for areas of Heightened Interest have also been developed e.g Health & Safety, Information Management.
  - Reporting requirements
  - Risk Appetite Statement
- 4.4 In addition to the review of the Risk Policy and Framework, officers have identified an opportunity to establish an internal risk committee to consider timely identification of risks and their implications for the five key areas of strategy, finance, legislation, service delivery and reputation and to report to the Leadership Team. Terms of Reference (**attached**) have been created for the committee membership.

## 1. Purpose

Horowhenua District Council (HDC) shall establish a Risk Management Policy to facilitate a current, comprehensive and effective risk management framework and associated procedures, internal controls, and governance for effective identification and management of Council's significant risks.

## 2. Scope

All HDC Council Officers and elected members (through the Finance, Audit and Risk Sub-Committee) shall play a role in the successful implementation of this policy.

Risk identification and management shall be undertaken across all HDC activities as part of strategic planning, strategic analysis, annual and long term planning, business and community partnerships, business case development, procurement plan development, project and programme management, contract management, and day to day operations.

## 3. Commencement

This policy comes into effect on 23 November 2017.

## 4. Definitions

For the purpose of this policy, unless otherwise stated, the following definitions shall apply:

- 4.1 Risk: the threat or possibility that an event, action or set of circumstances will adversely or beneficially affect HDC's ability to achieve its objectives;
- 4.2 Risk Appetite: the communication of the level of risk we are prepared to tolerate or accept in the pursuit of our strategic objectives and delivering our services to the community;
- 4.3 Risk Management: the culture, processes and structures that are directed towards the effective management of potential opportunities and possible adverse effects within HDC's environment;
- 4.4 Risk Management Framework: provide the foundations for designing, implementing, monitoring, reviewing and continually improving risk management throughout HDC;
- 4.5 Risk Management Plan: A risk register with systematic application of the practices relating to communicating, consulting and establishing the context of risk;
- 4.6 Risk Management Process: overall process of risk identification, risk analysis and risk evaluation;

4.7 Risk Mitigation/Treatment: process to modify risk which can involve avoiding the risk, accepting the risk to pursue an opportunity, removing the source of the risk, changing the likelihood or consequence, sharing risk, and/or retaining the risk by informed decision.

## 5. Principles

The Risk Management Process at HDC shall be based on the following principles and shall be consistent with the Joint Australian New Zealand International Standard Risk Management- Principles and Guidelines (AS/NZS ISO 31000:2009):

- 5.1 Risk management creates and protects Value by contributing to the achievement of HDC's strategic objectives and improving performance, e.g. via legislative and regulatory compliance, use of reliable and accurate information and metrics for decision-making, effective and consistent project management, operational efficiency and robust governance;
- 5.2 Risk management is an integral part of all organisational processes including governance, strategic planning, project management, change management and the business as usual activities of HDC;
- 5.3 Risk management is part of decision-making by helping decision-makers at all levels in HDC to accurately assess situations, make informed choices, prioritise actions and select the most appropriate course of action to resolve risk issues within HDC;
- 5.4 Risk management addresses uncertainty by identifying, describing and resolving the nature and source of that uncertainty within HDC;
- 5.5 Risk management is systematic, structured and timely to ensure consistent, comparable and reliable results which contribute to efficiency through a risk a management framework and risk management plan;
- 5.6 Risk management is based on the best available information including historical data, experience, stakeholder feedback, observation, evidence, forecasts, expert judgement while taking into account any limitations of the data or modelling used, or possible divergence of expert opinion. To achieve this all HDC report templates shall include a consideration of risk of strategic, financial, legal, reputational and service delivery risk.
- 5.7 Risk management is tailored to align with the vision and strategic outcomes of HDC and its risk appetite and to enable the reporting of risk issues quickly to the appropriate level of HDC;
- 5.8 Risk management is transparent and inclusive to ensure that the views of all HDC stakeholders are taken into account in the process of identifying, assessing and treating risks and to ensure that risk management remains relevant and up-to-date;
- 5.9 Risk management is dynamic, iterative and responsive to change by ensuring that the HDC risk management framework and risk management plan is sufficiently agile to sense and respond to changes in the external and internal context of Horowhenua, including changes in knowledge. This process facilitates continual improvement of the organisation which improves HDC's capability of achieving its goals and by building the organisation's capacity to recognise and reduce risk in both the present and the future.

## 6. Objectives

Risk shall be determined in the context of the Vision of the Council and the Strategic Community Outcomes to achieve: a healthy local economy and a District that is growing; a sustainable environment; a community of knowledge, culture and diversity where people are proud to live; safe, resilient and healthy communities; and positive leadership and effective partnerships.

## 7. Risk Appetite

HDC shall establish, at least annually, a Statement of Risk Appetite to provide guidance to the Chief Executive on the level of risk HDC is willing to take to achieve its strategic objectives. HDC shall require the Chief Executive to ensure that risks are measured, consistent and compatible with the capacity to manage and do not expose HDC, or its stakeholders, to an unknown, unmanaged or unacceptable degree of risk. The annual statement of risk appetite shall be incorporated into HDC's Risk Management Framework and shall focus on strategic, financial, legal, reputational and service delivery risk.

The acceptable tolerance for risk shall be determined on the following scale:

**Low Risk:** Avoidance of any form of risk and uncertainty;

**Medium Risk:** Preference for safe delivery options that have a low degree of inherent risk;

**High Risk:** Eager to be innovative and to choose service delivery options offering potentially higher quality/customer satisfaction despite greater inherent risk in these activities.

All HDC Council Officers shall have a duty of care to consider and report on risk, including when they are working in partnership with other organisations, and to ensure compliance, at all times, with the Risk Management Framework and the Risk Appetite set by HDC.

HDC shall be supportive to all Council Officers who manage necessary, calculated and measured risk in the context of the Risk Appetite Statement, in order to achieve the objectives set by HDC.

## 8. Risk Management Process

HDC shall draw on the best practice principles outlined in ASNZ 31000 to identify, analyse, assess, and report risks which may have a deleterious effect on the Vision and Strategic Community Outcomes and to identify a reporting structure for HDC. The Risk Management Process shall develop a Risk Matrix of Consequence (C) against Likelihood (L) which shall allow the prioritisation and treatment of identified risk. The steps involved in the Risk Management Process shall include:

### 8.1 Identification of Risk

Staff members shall be empowered, and required by the Chief Executive, to identify and communicate risks to the 5 key areas of Strategic, Financial, Legal, Reputational and Service Delivery using an agreed reporting mechanism to escalate such risks. Appropriate risks shall be recorded in a Risk Management Plan held on behalf of the Chief Executive to ensure that the impact on the Vision or strategic outcomes is managed.

### 8.2 Analysis of Risk

Risks shall be reviewed and analysed to identify the potential consequences and the likelihood of occurrence on the objectives of HDC grouped in 5 key areas of Strategic, Financial, Legal, Reputational and Service Delivery.

*Refer Appendix 1 - outlines the categorisation of Consequence (Impact), on a scale from Very Minor to Catastrophic, by key area. These descriptors are the initial benchmarking, are an integral part of the Risk Management Framework and will evolve as more metrics are sourced from events and lessons learnt from projects.*

*Refer Appendix 2 - outlines the categorisation of Likelihood, on a scale from Extremely Unlikely to Almost Certain, by key area.*

### 8.3 Assessment of Risk

The seriousness of risk shall be categorised as a function of Consequence and Likelihood as per best practice and shall involve selecting the most appropriate combination of consequence and likelihood levels known at the time. Risk assessment categories from Low to Extreme are shown in Table 1 below.

Table 1

Likelihood	Consequence				
	1 - Very minor	2 - Minor	3 - Moderate	4 - Major	5 - Catastrophic
5 - Almost certain	Low	Moderate	Significant	Extreme	Extreme
4 - Very Likely	Low	Moderate	Significant	High	Extreme
3 -Likely	Low	Moderate	Significant	Significant	Extreme
2 - Unlikely	Low	Low	Moderate	Moderate	Moderate
1 - Extremely unlikely	Low	Low	Low	Low	Low

Risk	Actions
Low	Examine where un-needed action can be reduced, Advisory Line Manager
Moderate	Managed by routine procedures, Advisory Line Manager
Low	Managed by routine procedures, Advisory Line Manager
Moderate	Managed by Group Manager and Advisory to Leadership Team
Significant	Managed by Group Manager and Advisory to Chief Executive

Significant	Managed by Group Manager and Immediate Advisory to Chief Executive & Leadership Team for review and action
High	Chief Executive & Leadership Team attention to review and manage risk and to report to next Finance, Audit and Risk Sub-committee
Extreme	Chief Executive <b>immediate</b> action required to reduce risk Immediate Advisory and consultation with Chair & Deputy Chair of Finance, Audit and Risk Sub-committee advised with subsequent reporting to the Sub-committee

#### 8.4 Roles, Responsibilities & Reporting

HDC shall assign specific risk responsibilities to specific roles to provide clarity and to strengthen the risk management framework. A reporting structure shall be in place to ensure that HDC, the Chief Executive and delegates are advised timeously of risk as appropriate.

*Appendix 3 - identifies roles, responsibilities and reporting requirements.*

## **7 Executive**

### **7.1 Local Government Leaders' Water Declaration**

#### **Purpose**

To bring to the Strategy Committee, for consideration, the Local Government Leaders' Water Declaration, prepared by Local Government New Zealand.

MOVED by Cr Tukapua, seconded Cr Brannigan:

*THAT Report 17/552 Local Government Leaders' Water Declaration be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

**CARRIED**

As a member of the LGNZ Policy Advisory Group which had been working on this, Cr Tukapua sought input and endorsement from around the table.

The need for local government to encourage central government to have consistency throughout the country, particularly should it come to charging for water, was stressed as water was a national resource and not something that should be fought over. LGNZ should be emphasising the cost to communities should there be a water charge.

The 2050 timeframe was also raised and discussed, with one view expressed being that that target should be brought forward and another view being that there was

already significant work being done in the rural communities when it came to water but it was a huge logistical challenge particularly in terms of the country's topography so 2050 may not be unrealistic. There was also the issue of how people used water, whether it was for personal use, stock water, bottling for sending overseas. It would have a huge impact on the economy.

Depending on this evening's decision, Mr Clapperton said a letter would be drafted that captured the views expressed and it would be circulated to Councillors for comment before being sent to Wellington.

MOVED by Cr Tukapua, seconded Cr Kaye-Simmons:

*THAT the Strategy Committee recommends that the Horowhenua District Council becomes a signatory to the Local Government Leaders' Water Declaration.*

**CARRIED**

## **9.2 Consideration to Sponsor the Establishment of a Charitable Community Trust for Horowhenua**

### **Purpose**

To consider the recommendation that Council sponsor the establishment of the proposed charitable community trust for the people of Horowhenua.

MOVED by Cr Campbell, seconded Cr Mason:

*THAT Report 17/559 Consideration to Sponsor the Establishment of a Charitable Community Trust for Horowhenua be received.*

*THAT this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.*

**CARRIED**

Expressing his appreciation of the good relationship that existed between the Horowhenua Economic Development Board and Council, Mr Cameron Lewis, spoke in support of Council sponsoring the establishment of a Charitable Community Trust for the Horowhenua. He stressed how important economic development was for this community which faced some very big challenges, but also some huge opportunities.

He noted that the Economic Development Board had spent two years considering how economic development could be better enabled in the Horowhenua and its members were very excited at the opportunity to unlock new possibilities with a Trust that was owned by the people, for the people.

Asking that the report be taken as read, Council's Economic Development Manager, Mr Grainger responded to queries from Elected Members.

With regard to using the money currently tied up in Council property and facilities to reduce Council debt, Mr Grainger clarified that what was proposed was that if there was debt against specific properties then Council would want to pay that down. One of the key actions should this progress would be for the CE to develop a programme in relation to property as in some circumstances Council would be required to undertake public consultation for certain properties and a process that would be acceptable to both the Trust and Council would need to be developed.

The suggestion that the Mayor be included in Recommendation 2.3 to work with the Chief Executive to provide appropriate advice and assistance as the Trust was established was discussed, with views being expressed for and against the

amendment.

Also queried was whether the Trust members would be comprised of the current Economic Development Board. Mr Grainger said the current Board would have an establishment role but it was proposed to set up an appointment panel which would undertake recruitment of people for the initial period and then, subject to the projects undertaken, there would be the need to recruit people with the appropriate skills and expertise to deliver the work programme.

The amended resolution was put:

MOVED by Cr Campbell, seconded Cr Mason:

THAT the Strategy Committee recommends to the Horowhenua District Council that it sponsors the establishment of a charitable community trust with the Chief Executive **and Mayor** mandated to provide appropriate advice and assistance as the Trust is established.

A division was called:

**For:**

Councillors: Ross Campbell  
Victoria Kaye-Simmons  
Joanna Mason  
Christine Mitchell

**Against:**

Councillors: Wayne Bishop  
Ross Brannigan  
Neville Gimblett  
Piri-Hira Tukapua  
Bernard Wanden

Mayor Michael Feyen abstained from voting.

The division was declared LOST by 4 votes to 5.

The original recommendation was then put.

MOVED by Cr Campbell, seconded Cr Mason:

*THAT the Strategy Committee recommends to the Horowhenua District Council that it sponsors the establishment of a charitable community trust with the Chief Executive mandated to provide appropriate advice and assistance as the Trust is established.*

**CARRIED**

### 13 Procedural motion to exclude the public

MOVED by Cr Gimblett, seconded Cr Wanden:

*THAT the public be excluded from the following part(s) of the proceedings of this meeting.*

# Notices of Motion: Council Building; Horowhenua Growth Trust; Reintroduction of Development and/or Financial Contributions

File No.: 17/582

## 1. Purpose

In accordance with Standing Order 26, the Chief Executive has received three Notices of Motion from Mayor Feyen, seconded by Cr Campbell, with the request that they be placed on the agenda for the 22 November 2017 Council meeting.

To provide Mayor Feyen and Cr Campbell the opportunity to speak to these Notices of Motion and for Council to consider appropriate courses of action.

## 2. Recommendation

- 2.1 That Report 17/582 Notices of Motion: Council Building; Horowhenua Growth Trust; Reintroduction of Development and/or Financial Contributions be received.

## 3. Issues for Consideration

- 3.1 The Notices of Motion for consideration are:

1. That the Notice of Motion item 2 passed at the Horowhenua District Council meeting on 2 November 2016 be rescinded on the grounds that it did not record there was no Council approval for the two previous building reports by Opus International Ltd (2014) and ISPS Ltd (2016) concerning the Horowhenua District Council civic building.
2. That the HDC reviews whether plans to set up the independent Horowhenua Growth Trust triggers the Council's Significance Policy established under Section 76AA of the Local Government Act 2002

AND FURTHER

That the Horowhenua District Council confirms that the Mayor, ex-officio, is a member of the Horowhenua Growth Trust committee as per Local Government Act 2002 41A(f).

3. That in light of the District's current and potential growth the Horowhenua District Council considers the reintroduction of Development and/or Financial Contributions as part of consultation for the Draft Long Term Plan 2018.

The signed NOM is **attached**.

- 3.2 The Notice of Motion, Item 2, referred to in 3.1.1 is:

*"THAT the Horowhenua District Council supports the two independent reports that have stated the Council building is safe for occupancy and that no further ratepayers' resources are to be invested in this matter."*

- 3.3 Council's direction on these three Notices of Motion is sought.

# Chief Executive's Report to 22 November 2017

File No.: 17/368

---

## 1. Purpose

For the Chief Executive to update Councillors, or seek endorsement on, a number of matters being dealt with.

## 2. Recommendation

- 2.1 That Report 17/368 Chief Executive's Report to 22 November 2017 be received.
- 2.2 That these matters or decisions be recognised as not significant in terms of s76 of the Local Government Act 2002.
- 2.3 That Councillors Judd and Brannigan be appointed to the Hearings Committee for the purpose of the Draft Easter Sunday Trading Policy hearing.

## 3. Chief Executive Updates

### 3.1 Economic Update

- Statistics NZ released the provisional Subnational Population Estimates for the year to June 2017. Horowhenua's population grew by 1.8% (600 people), taking the district's total population to 32,500 people. This compares to an estimated average population growth rate of 0.4% p.a. over the previous decade.
- September quarter benefit numbers were released by the Ministry of Social Development. Despite a growing population, job seeker numbers has decreased by - 6.1% (95 people) compared to the September 2016 quarter, and total beneficiaries have reduced by -4.4% (156 people).
- Investment into the district remains strong, with a number of business relocations and expansions currently occurring. This increase in activity is set to have a positive impact for job growth over the coming months. The most notable recent example of this is the creation of 100 new jobs at Alliance Meats.
- A tightening property market continues to put pressure on house values in the district. Real estate agents indicate that there is still a high demand for property in the Horowhenua, particularly from out-of-towners, but tightening supply is constraining sales volumes. Understanding these pressures Officers have recently publicly notified a change to the District Plan (Plan Change 2: Residential Development) that seeks to create a greater range of residential development opportunities within the existing urban areas of the district. Officers also continue to progress the review of the Horowhenua Development Plan (2008) and are currently developing the draft Growth Strategy that will identify the land supply needs for the district looking out to 2040.

### 3.2 Appointments to the Hearings Committee

1. Council has recently consulted on a draft Easter Sunday Trading Policy for the Horowhenua District. Submissions have closed and now need to be considered by the Hearings Committee for a subsequent recommendation to Council.
2. Three of the four current members of the Hearings Committee have either a real or perceived conflict of interest in this matter and therefore are not able act. As a consequence there is a need to appoint two (2) other Councillors to the Hearings Committee for the purpose of the Draft Easter Sunday Trading Policy.

3. It is proposed that the two appointees be Councillors Judd and Brannigan, both of whom have confirmed they have no real or perceived conflict on the subject matter – see recommendation 2.3.

### 3.3 Potential Sale of Civic Assurance House

Further to Council, on 30 August 2017, resolving to vote in favour of Civic Financial Services selling Civic Assurance House, **attached** is a letter from Civic Financial Services reporting back on the result of the Special General Meeting held on 5 October 2017 with “overwhelming support” being received in favour of the sale. As noted, Council will be kept informed when a new timetable for sale is produced.

### 3.4 Horizons Passenger Transport Committee

Report from Cr Gimblett, Council's representative on this Committee:

“The Horizons Passenger Transport Committee consists of five Regional Councillors plus one elected representative from each of the constituent district or city councils. The latter have no voting rights. The Committee meets three monthly, I missed the last visit due to the visit of Hon Anne Tolley, but attended the meeting on 17 October.

*To summarise:*

- Horowhenua has three bus services plus the Total Mobility service under the control of Horizons and Foxton Beach community van plus a contribution to the Health Shuttle.
- The once a week Day Out In Town service connecting Foxton, Shannon and Levin carried 2,115 passengers last year. This is the highest average passenger count of any Horizons service. 47.6% of passengers were SuperGold card patrons. Other services range from 4% to 26% Gold Card. With a flat fee of \$2 for others on this bus service the average cost per passenger to Horizons is \$7.64 (other services range from 52c to \$12.75). The fare box recovery (a combination of fares paid and funding from a 3rd party such as a district council) was 8%. The aim for Horizons is 45 to 50%. Total dollar cost to Horizons was \$16,162. This is a trial service only, contract due to expire in 2018.
- The Levin to Waikanae service operates twice weekly since April. Of 1,365 passengers 93.6% are SuperGold card holders. Cost per passenger to Horizons is \$4.26 and fare box recovery 28%. Wellington Regional Council also contributes.
- The Levin to Palmerston North morning service, returning in the evening, operates Monday to Friday. Horizons' cost per passenger last year was \$1.87 and fare box recovery 56%. Total Horizons cost \$16k.
- All Horizons bus services (and nationally) have been suffering from declining passenger numbers for several years - petrol prices are too low. Horizons have recently trialled more frequent services on some routes with a considerable increase in passenger numbers but increased total costs. They are intending to trial increased frequency in Whanganui for 6 months at a cost of between \$88k and \$157k. Current Whanganui service costs are approximately \$600k, to give a perspective on Horowhenua costs.
- The Foxton Beach community van received \$2,267 for 984 trips.
- The Levin Health Shuttle is the only health shuttle in the region not fully funded by Horizons. \$31,800 in funding.
- Total Mobility services have had a change in legislation since 1 October putting all small passenger vehicles (Uber, taxis, Driving Miss Daisy etc) on the same footing for Passenger Transport which will allow an expansion of the number of providers for total mobility services. Basic requirements are enshrined in legislation but Horizons will be keeping a watching brief for any additional contractual requirements. Levin has 920 active users of this service, taking 35,127 trips last year.

- Lew Rohloff and Margaret Williams also made a submission requesting further improvements in the Levin to Waikanae service and a better service between Levin and PN.
- As a Council we need to monitor the Day Out In Town service, based on cost recovery and HDC needs to consider what ongoing support it should provide for improved services to PN and Waikanae.”

**Report on Special General Meeting held on Thursday 5 October 2017**

As you will be aware there was a Special General Meeting of Civic Financial Services Limited held in Civic Assurance House, 116 Lambton Quay, Wellington on Thursday 5 October 2017.

The purpose of the meeting was to consider and if thought fit, approve the Directors using their best endeavours and acting in their view in the best interests of the Company to achieve a satisfactory price for the sale of Civic Assurance House.

We received voting papers from 32 councils which represented 49.5% of the Company's total shareholding. I can report back that there was overwhelming support in favour of this resolution to sell Civic Assurance House with 5,507,566 votes for and 63,434 votes against the proposal; a total of 98.9% votes in favour of the resolution.

Two shareholders representing 13.1% of the total shareholding did not get their voting papers in by the due date but wished it recorded that they supported the proposal.

In the information pack sent to you on 23rd August we advised that if the sale was supported a two month tender process will be initiated however this has been delayed as the updated earthquake rating review we requested as part of the sales pack will not now be received until late January/ early February 2018.

Your Board will now take the appropriate action to progress this forward and will keep you informed when a new timetable for sale is produced.

Yours sincerely,

## Horowhenua District Council Meeting Schedule for 2018

---

### 1. Purpose

To seek Council's approval of the proposed meeting schedule of the Council and its committees for the period from February to December 2018.

### 2. Executive Summary

Council is required to hold meetings as outlined in Schedule 7, Clause 19(1) of the Local Government Act 2002. This report outlines the proposed meeting schedule for 2018.

### 3. Recommendation

- 3.1 That Report 17/567 Horowhenua District Council Meeting Schedule for 2018 be received.
- 3.2 That this decision is recognised as not significant in terms of S76 of the Local Government Act
- 3.3 That Council adopts the schedule of meetings for the committees of Council for the period January to December 2018 (Attachment 1)
- 3.4 That Council notes that additional ordinary, extraordinary and multi-day meetings may be scheduled from time to time in consultation with the Mayor and Chief Executive.
- 3.5 That it is noted that meeting times for other committees and subcommittees will be formally notified when they are required in accordance with the Local Government Official Information and Meetings Act 1987 and Local Government Act 2002.

### 4. Meeting Schedule

- 4.1 As outlined in Schedule 7, Clause 19(1) of Local Government Act 2002, Horowhenua District Council must hold meetings that are necessary for the good governance of Horowhenua District.
- 4.2 It is good practice for Council to adopt a schedule of meetings for the following calendar year. This will allow the business of the Council to be conducted in an orderly and transparent manner, thus enabling an open democratic process, and to allow public notification of meetings to be given in compliance with the Local Government Official Information and Meetings Act 1987.
- 4.3 A schedule also allows for elected members to plan their commitments over the year.
- 4.4 The yearly meeting schedule is based on the current governance structure comprising committees of which Council, Finance, Audit & Risk Subcommittee and the Strategy Committee will operate on a six (6) weekly cycle.
- 4.5 For 2018, a meeting commencement time of 3:00 pm is proposed. For the 2017 year, the meeting commencement time has been 4:00 pm. An earlier time of 3:00 pm has been proposed due to the high workload expected in the 2018 year with the review of the Long Term Plan, as well as regular meetings. Adopting a 3:00 pm commencement time will mean that Council briefings can be scheduled in after meetings.

4.6 Attached in Appendix A is the meeting schedule to be adopted.

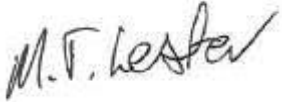

**Confirmation of statutory compliance**

In accordance with section 76 of the Local Government Act 2002, this report is approved as:

- a. containing sufficient information about the options and their benefits and costs, bearing in mind the significance of the decisions; and,
- b. is based on adequate knowledge about, and adequate consideration of, the views and preferences of affected and interested parties bearing in mind the significance of the decision.

## Provisional Local Alcohol Policy - Appeals

### 1. Purpose

The purpose of this report is to advise Council that appeals against the Horowhenua District Council Provisional Local Alcohol Policy (PLAP) have been lodged with the Alcohol Regulatory and Licensing Authority (ARLA).

### 2. Executive Summary

On adoption of a Provisional Local Alcohol Policy, those persons that appealed the draft Local Alcohol Policy are notified of the PLAP being adopted, and they have the right under the Sale and Supply of Alcohol Act 2012 to appeal the PLAP. Two appeals have been lodged.

### 3. Recommendation

- 3.1 That Report 17/534 Provisional Local Alcohol Policy - Appeals be received.
- 3.2 That this decision is recognised as not significant in terms of S76 of the Local Government Act 2002.
- 3.3 That Council resolve that the Hearings Committee of Council be directed to act on behalf of Council on this matter as may be required following notification by the Licensing Authority.

### 4. Background / Previous Council Decisions

- 4.1 There have been a number of reports to Council in respect of a Local Alcohol Policy.
- 4.2 On the recommendation of the Hearings Committee, following the hearing and consideration of submissions to the draft LAP, Council adopted the PLAP at its meeting of 30 August 2017.

### 5. Discussion

- 5.1 Following the adoption of the PLAP on 30 August 2017, the original submitters to the draft LAP were advised the PLAP had been adopted. The submitters were able to, within 30 days of public notification being given, appeal to the Licensing Authority against any element of the resulting provisional local alcohol policy.
- 5.2 The only ground on which an element of the PLAP can be appealed against is that it is unreasonable in the light of the object of the Act.

*S4(1) Object. The object of this Act is that –*

- (a) *The sale, supply, and consumption of alcohol should be undertaken safely and responsibly; and*
  - (b) *The harm caused by the excessive or inappropriate consumption of alcohol should be minimized.*
- (2) *For the purposes of subsection (1), the harm caused by the excessive or inappropriate consumption of alcohol includes –*

- (a) *any crime, damage, death, disease, disorderly behaviour, illness, or injury, directly caused, or directly or indirectly contributed to, by the excessive or inappropriate consumption of alcohol; and*
  - (b) *any harm to society generally or the community, directly or indirectly caused, or directly or indirectly contributed to, by any crime, damage, death, disease, disorderly behaviour, illness, or injury of a kind described in paragraph (a).*
- 5.3 At the conclusion of the appeal period we had received notification of two (2) appeals to the PLAP having been lodged with the Licensing Authority. The appeals were from Foodstuffs North Island and Progressive Enterprises Limited, both being submitters to the draft LAP, although only Progressive appeared before the Hearings Committee during the deliberation phase. Foodstuffs had stated they wished to appear, were notified of the hearing, but failed to appear.
- 5.4 In summary both appeals focus on the proposed temporary 2 year cap on no new “Off” licences being granted for stand-alone bottle stores or in respect of grocery stores (the proposed cap excluded supermarkets). In addition Foodstuffs North Island have appealed 3 other conditions in the PLAP relating to “Off Licences” – discretionary conditions; maximum trading hours; and locational requirements. A copy of the respective appeals is attached as **Attachment A and Attachment B**.
- 5.5 The next steps in this process rests with the Licensing Authority, who may dismiss the appeals or ask Council to reconsider an element that has been appealed. The appellant has no right of appeal against the decision of the licensing authority.
- 5.6 If the licensing authority asks Council to reconsider an element of the PLAP, Council must –
- (a) resubmit the policy to the licensing authority with the element deleted; or
  - (b) resubmit the policy to the licensing authority with the element replaced with a new or amended element; or
  - (c) appeal to the High Court against the licensing authority’s finding that the element is unreasonable in the light of the Object of this Act; or
  - (d) abandon the provisional policy.
- 5.7 It is considered appropriate at this point that Council resolve to appoint the Hearings Committee to act on this matter as may be advised to Council by the Licensing Authority, hence **recommendation 3.3**.

## 6. Options

Once the decision of the Licensing Authority is known the options available are as described in clause 5.6 above.

## 7. Consultation

There is no consultation required to be undertaken.

## 8. Legal Considerations

There are no legal requirements or statutory obligations affecting this matter at this point in time.

## 9. Financial Considerations

There is no financial impact.

## 10. Other Considerations

There are no other considerations.

## 11. Next Steps

We will be advised of the Licensing Authority decision in due course, and as a result of that the next step would be for the Hearings Committee consideration and a subsequent recommendation to Council as to what those proposed next steps would be – see Clause 5.6 above.

WELLINGTON 6146

**1. NAME OF APPELLANT**

1.1 PROGRESSIVE ENTERPRISES LIMITED ("Progressive Enterprises") appeals against the Horowhenua District Council's ("Council") Provisional Local Alcohol Policy ("PLAP") as set out in this notice of appeal.

1.2 Progressive Enterprises is one of New Zealand's leading supermarket operators and currently operates over 180 licensed Countdown supermarkets across New Zealand. (Note: Progressive Enterprises' subsidiary, General Distributors Limited, operates its supermarkets and holds its off-licences on a store by store basis.) Progressive Enterprises is also the franchisor of the SuperValue and FreshChoice brands in New Zealand, which represents a further 60 stores, independently operated by franchisees. Some of the SuperValue and FreshChoice stores are small supermarkets (under 1,000m<sup>2</sup> GFA) and are categorised under the Sale and Supply of Alcohol Act 2012 ("the Act") as grocery stores.

**2. SUBMISSION OF APPELLANT**

2.1 Progressive Enterprises made a submission on the draft Local Alcohol Policy released for public consultation by the Council. A copy of this submission is attached as **Appendix A**.

**3. DECISION OF COUNCIL**

3.1 Progressive Enterprises received notice of the Council's PLAP on or around 5 September 2017.

**4. ELEMENTS OF THE PLAP WHICH PROGRESSIVE ENTERPRISES IS APPEALING AGAINST**

**Scope of appeal**

4.1 Progressive Enterprises appeals against the following elements of the PLAP:

- (a) The temporary cap placed on the total number of off-licenced bottle and grocery store premises in each town or township in the district (Element 6.2(c)).

**Relief sought**

- 4.2 The Council should be directed to reconsider the element appealed against.

5. **GROUNDS AND REASONS FOR THE APPEAL**

**Ground of appeal**

- 5.1 Progressive Enterprises considers that the element appealed against is unreasonable in the light of the object of the Act.

**General reasons for appeal**

- 5.2 Without limiting the generality of the ground of appeal, the reasons why Progressive Enterprises considers that the Horowhenua PLAP is unreasonable in the light of the object of the Act include (without limitation) the following:

- (a) The councils' reasons for adopting elements of the PLAP are unclear, uncertain and unreasonable in light of the object of the Act.
- (a) The PLAP does not appropriately respond to the local characteristics of the Alcohol Related Harm in Horowhenua.
- (b) The PLAP is unreasonable in light of the mandatory criteria in section 78 of the Act.
- (c) The PLAP is unreasonable in light of:
  - (i) The differing needs of different types of off-licences and differing community concerns about different types of off-licences; and
  - (ii) The differing needs of the various communities in Horowhenua.

6. **OTHER MATTERS**

- 6.1 Progressive Enterprises supports the remainder of the PLAP and would wish to be heard in support of these provisions should any person appeal them.
- 6.2 Progressive Enterprises would be willing to attend mediation or other forms of alternative dispute resolution in relation to this appeal.

7. **ATTACHMENTS**

- 7.1 Attached is a copy of the submissions Progressive made on the draft LAP that became the PLAP (**Appendix A**).
- 7.2 Attached is a copy of the PLAP (**Appendix B**).

Progressive Enterprises wishes to appear before the Horowhenua District Council ("**Council**") to present this submission.

## 1. KEY POINTS

### Introduction

- 1.1 Progressive Enterprises supports the purpose and object of the Sale and Supply of Alcohol Act 2012 ("the Act") and we are committed to selling beer and wine in a responsible and safe manner. We believe that the Horowhenua Draft Local Alcohol Policy ("Draft LAP") is a sensible response to the local needs of Horowhenua.

### Licensed hours

- 1.2 Whilst we support the application of the Act's national default off-licence hours (ie 7am to 11pm) we do not oppose a 10pm off-licence hour restriction in the Horowhenua district.

### Location for off-licences

- 1.3 We do not oppose the locational controls of the Draft LAP. We are unsure whether a Draft LAP can specify notification requirements and suggest that the Council obtain advice on that aspect.

### Discretionary conditions

- 1.4 We also believe that the discretionary conditions are suitably clear that they can be reasonably understood and applied by the District Licensing Committee and licence holders.

### Potential changes to the Draft LAP

- 1.5 In the event that the Council considers altering the Draft LAP, we would like the opportunity to discuss the appropriateness of the changes as we do not know what changes other submitters might seek.

## 2. PROGRESSIVE ENTERPRISES

- 2.1 Progressive Enterprises is one of New Zealand's leading supermarket operators and currently operates over 180 Countdown supermarkets across New Zealand. It is also the franchisor of the SuperValue and FreshChoice brands in New Zealand, which represents a further 55+ stores, independently operated by local franchisees. Some of the SuperValue and FreshChoice stores are small supermarkets and are categorised under the Act as grocery stores. We include them when we refer to supermarkets in this submission.
- 2.2 We are a retail investor and employer in the Horowhenua area, and play an active part in the communities we work and live in. In Horowhenua district, we operate one Countdown supermarket which is Countdown Levin, which usually trades between 7am and 10pm and has current licensed hours of 7am to 10pm.
- 2.3 We understand and agree that drinking alcohol has the potential to cause serious harm<sup>1</sup> particularly if people drink alcohol excessively or inappropriately. To address this potential harm the Act sets in place a default national licensing approach and also allows councils to tackle local issues, supported by evidence of actual alcohol related harm ("ARH") in the local community.

<sup>1</sup> Law Commission Report, Alcohol in Our Lives at chapter 2.

- 2.4 Reducing ARH caused by the excessive and inappropriate consumption of alcohol needs action from all parts of the community. As a retailer, we have a role to play together with other off-licensees, on-licensees, regulatory agencies and consumers. We are committed to ensuring that all our stores sell and supply alcohol (beer and wine) in a safe and responsible manner and have written policies to ensure this (see **Appendix 1** for more details). We support efficient, effective and reasonable initiatives that minimise ARH and we are proud to have a number of policies and processes in our stores which go beyond minimum measures prescribed by legislation.
- 2.5 By law, supermarkets sell beer and wine only. We appreciate that a licence to do so is not a right, but a privilege, and we work very hard to maintain that privilege. With 2.5 million customers across the country each week, Progressive Enterprises is nationally recognised as a good operator within the licensing industry. Our ID 25 policies are over and above that required by the law and through our business practices, we strive to achieve best practice in the way that we promote and sell beer and wine.
- 2.6 We note that decisions on the Draft LAP are also made under the Local Government Act 2002 ("**LGA**"). Under the LGA, councils need to assess matters such as the benefits and costs of each option in terms of the present and future interests of the district or region<sup>2</sup>. To make these sort of decisions it is critical to have a sound evidence base.

### **3. RECOMMENDATIONS**

- 3.1 Progressive Enterprises does not seek changes to the Draft LAP provisions.

---

<sup>2</sup> Section 77 of the Local Government Act 2002.

**APPENDIX 1: PROGRESSIVE ENTERPRISES AS A RESPONSIBLE OPERATOR**

1. Progressive Enterprises has a Liquor Policy and we also have in-store communications which address the sale of beer and wine in our supermarkets.
2. Our policy makes it clear that intoxicated persons are not permitted to enter or remain on the premises. Observing customers tends to be easier in a supermarket environment owing to the fact that it is brightly lit and there is individual interaction at the check-out. This is supported by the extremely small number of off-licence breaches which occur in our supermarkets across New Zealand, despite serving 2.5 million customers every week. Our supermarkets already have extensive CCTV coverage.
3. The supermarket store experience itself promotes the availability of food and non-alcoholic beverages. Under the new Act, supermarkets are not able to display non-alcoholic beverages within the "single area" for beer and wine (except alcohol-free beer and wine).
4. In our stores specifically, every sale of beer or wine must be approved by a supervisor, no matter whether the customer is 18 or 80. We have an ID 25 policy which is above and beyond the legal requirement around identification, as well as a policy to request identification where a member of the group looks under 25 and our staff reasonably believes that there is a possibility that beer or wine may be being purchased for this person. We believe most customers are now very aware of what constitutes appropriate ID. Store supervisors will ask for drivers licence, passport or the HANZ card, and no other form of ID is acceptable.
5. It is our company policy not to sell beer or wine that specifically markets to and promotes the consumption of alcohol by young people. We also have a policy of not selling beer or wine below cost.

HOROWHENUA DISTRICT COUNCIL  
LOCAL ALCOHOL POLICY

1. INTRODUCTION AND EXPLANATORY MATERIAL

- 1.1 The Sale and Supply of Alcohol Act 2012 (the Act) has the following objectives:
- (a) that the sale, supply and consumption of alcohol should be undertaken safely and responsibly; and
  - (b) the harm caused by the excessive or inappropriate consumption of alcohol should be minimised.
- 1.2 Alcohol related harm is defined very widely and includes any crime, damage, death, disease, disorderly behaviour, illness or injury, and harm to individuals or the community, either directly or indirectly caused by excessive or inappropriate alcohol consumption.
- 1.3 The Act allows territorial authorities to make a local alcohol policy (LAP). The LAP is a set of policies, made by the Council in consultation with its community, about the sale and supply of alcohol in its geographical area. Horowhenua District Council has decided to develop a LAP for its district and to set restrictions and conditions for licensed premises within the district.
- 1.4 Once the LAP comes into force, Council's District Licensing Committee (DLC) and the Alcohol Regulatory Licensing Authority (ARLA) must have regard to the policy when they make decisions on licence applications.
- 1.5 Once adopted, the LAP will enable the District Licensing Committee to:
- Limit the location of licensed premises in particular areas or near certain types of facilities, such as in specific neighbourhoods or near schools or churches;
  - Limit the density of licensed premises by specifying whether new licences or types of licences should be issued in a particular areas;
  - Impose conditions on groups of licences, such as a "one-way door" condition that would allow patrons to leave premises but not enter or re-enter after a certain time;
  - Recommend discretionary conditions for licences;
  - Restrict or extend the default maximum trading hours set in the Act, which are:
    - 8.00 am – 4.00 am for on-licences (such as hotels and restaurants)
    - 7.00 am - 11.00 pm for off-licences (such as bottle stores and supermarkets).
- 1.6 Where the LAP does set maximum trading hours, the District Licensing Committee has discretion to set the permitted trading hours as more restrictive than the maximum trading hours in the LAP.
- 1.7 The LAP can be more restrictive in its provisions relating to licensed premises, but cannot permit activities not allowed by the District Plan. The Horowhenua District Plan provides for entertainment activities (including licensed premises) within the commercial zone, or by resource consent.
- 1.8 Section 117 of the Act permits the District Licensing Committee and the Alcohol Regulatory Licensing Authority to issue any licence subject to "any reasonable conditions not inconsistent with this Act". The LAP includes policies to guide the District Licensing Committee and Alcohol Regulatory Licensing Authority as to the discretionary conditions that may be appropriate.

2. **CRITERIA FOR CONSIDERING LICENSING APPLICATIONS**

- 2.1 The purpose of the LAP is to provide local guidance to the Council's District Licensing Committee in deciding whether to issue or renew a licence.
- 2.2 Under section 105 of the Act, the DLC has to have regard to a range of matters in addition to any relevant local alcohol policy when considering a licence application. The types of matters include:
- the object of the Act;
  - the suitability of the applicant;
  - the design and layout of any proposed premises;
- whether (in its opinion) the amenity and good order of the locality would be likely to be reduced, to more than a minor extent, by the effects of the issue of the licence;
- whether (in its opinion) the amenity and good order of the locality are already so badly affected by the effects of the issue of existing licences that—
    - they would be unlikely to be reduced further (or would be likely to be reduced further to only a minor extent) by the effects of the issue of the licence; but
    - it is nevertheless desirable not to issue any further licences.
- 2.3 The Act says that a licence may be refused or conditions applied if the issue of the licence, or the consequences of the issue of the licence, would be inconsistent with the LAP (section 108 and 109). Where a licence is renewed and it will be inconsistent with the provisions of the LAP, conditions may be imposed (section 133).

3. **GOALS OF THIS LAP**

The LAP provides direction for the DLC so that licensing decisions:

- contribute to Horowhenua being a safe and healthy District;
- reflect local communities' character and amenity and their values, preferences and needs;
- encourage licensed environments that foster positive, responsible drinking behaviour and minimise alcohol-related harm.

4. **OBJECTIVES OF THE LAP**

The objectives of the LAP are to provide a policy which:

- reflects the views of local communities as to the appropriate location, number, hours and conditions that should apply to licensed premises within their communities;
- provides certainty and clarity for applicants and the public as to whether a proposed license application will meet the criteria of the LAP;
- provides effective guidance for the decisions of the DLC and ARLA.

5. **DEFINITIONS**

- 5.1 When reading this LAP, the following words and phrases have been used. For further details refer to the section of the Act referenced.

## 5.2 Types of Licences

- **on-licences** where the licensee can sell and supply alcohol for consumption on the premises and can let people consume alcohol there (see section 14 of the Act);
- **off-licences** where the licensee sells alcohol from a premises for consumption somewhere else (see section 17 of the Act);
- **club licences** where the licensee (e.g. a club) can sell and supply alcohol for consumption on the club premises to authorised customers (see section 21 of the Act); and
- **special licences** which can be either on-site or off-site special licences. With an on-site special, the licensee can sell or supply alcohol for consumption there to people attending an event described in it. With an off-site special, the licensee can sell the licensee's alcohol, for consumption somewhere else, to people attending an event described in it (see section 22 of the Act).

### Notes:

Some premises hold more than one licence – for example, a tavern will hold an on-licence and may also hold an off-licence and be able to sell alcohol which is consumed off the premises.

The Act allows special licences to be issued for up to 12 months. Unlike other kinds of licence, special licences are not subject to the Act's default maximum hours so can apply up to 24 hours a day. Special licences are to allow the sale or supply of alcohol at events and are not intended to be a substitute for a "Club", "on" or "off" licence.

## 5.3 Other terms

- bottle store** means retail premises where (in the opinion of the DLC) at least 85% of the annual sales revenue is expected to be earned from the sale of alcohol for consumption somewhere else (refer section 32(1) of the Act).
- bar** in relation to a hotel or tavern, means a part of the hotel or tavern used principally or exclusively for the sale or consumption of alcohol (refer section 5(1) of the Act).
- café** has the same meaning as restaurant in terms of the licence.
- club** means a body that –
- (a) is a body corporate having as its object (or as one of its objects) participating in or promoting a sport or other recreational activity, otherwise than for gain; or
  - (b) is a body corporate whose object is not (or none of whose objects is) gain; or
  - (c) holds a permanent club charter (refer section 5(1) of the Act).
- grocery store** grocery store means a shop that –
- (a) has the characteristics normally associated with shops of the kind commonly thought of as grocery shops; and
  - (b) comprises premises where –
    - (i) a range of food products and other household items is sold; but

- (ii) the principal business carried on is or will be the sale of food products (refer sections 5(1) and 33(1) of the Act).

<b>hotel</b>	means premises used or intended to be used in the course of business principally for providing to the public – (a) lodging; and (b) alcohol, meals, and refreshments for consumption on the premises (refer section 5(1) of the Act).
<b>night-club</b>	a place of entertainment open at night which normally provides music and space for dancing and may provide a show, e.g. of comedy or other 'acts'.
<b>supermarket</b>	means supermarket premises with a floor area of at least 1,000 m <sup>2</sup> (including any separate departments set aside for such foodstuffs as fresh meat, fresh fruit and vegetables, and delicatessen items) (refer section 5(1) of the Act).
<b>tavern</b>	means premises used or intended to be used in the course of business principally for providing alcohol and other refreshments to the public, but does not include an airport bar (refer section 5(1) of the Act).

## 6. OFF-LICENCES

### 6.1 Hours

The following maximum trading hours apply to all off-licensed premises in the Horowhenua District territorial area and includes all off-licence sales including over the counter sales:

Monday to Sunday	7.00 am to 10.00 pm.
------------------	----------------------

### 6.2 Location

- (a) From the date this LAP comes into force no off-licences are to be issued for any premises unless that premises is already licensed; or is located on land zoned commercial or a Resource Consent has been granted by Council for its operation either before or after that date.
- (b) No new off-licences in respect of a bottle store shall be issued for any premises located within 100 metres of the legal site boundary of any school, early childcare facility, place of worship, Marae, health care facility, public park or reserve, urupa, cemetery, bus stop primarily used by minors or other Off-Licence premises existing at the time the licence application is made.

Note: Renewal of a licence shall be unaffected should such a facility later establish at a site within 100 metres of the premises.

- (c) From the date this LAP comes into force there will be a temporary cap placed on the total number of off-licensed bottle and grocery store premises in each town or township in the district. The cap will remain in place for a period of 2 years, or until such a time as this policy is reviewed. The number of permitted licences for bottle stores and grocery stores for each area of the district will be determined by the number of operative licences for each of these types issued at the time this policy is enacted. This provision does not apply to supermarket premises.

### 6.3 Discretionary Conditions

Conditions relating to the following matters may be appropriate for off licences:

- Supervised designation of all bottle stores to ensure unaccompanied minors do not enter bottle stores;
- Display of safe drinking messages/material;
- Supermarkets, grocery stores and bottle stores will give effect to the principles of Crime Prevention Through Environmental Design with regards to the following outcomes:
  - Lighting
    - internal lighting inside the premises enables passive surveillance by staff and active surveillance by CCTV
    - lighting allows customers to be seen as they enter the premises
    - lighting allows staff to check IDs
    - external areas such as car parks and loading bays are well lit, subject to the requirements of any resource consent or a district plan rule.
  - Internal Layout
    - general points of sale are positioned near the main entrance.
  - CCTV
    - CCTV is installed in suitable locations to monitor vulnerable areas (areas which are not easily or not continuously monitored by staff).
    - customers are aware of the CCTV system.
  - Staff
    - relevant staff understand how to operate the CCTV system.
    - there are sufficient numbers of staff to ensure control of the premises during trading hours.
  - Advertising Signage -
    - the display of alcohol-related advertising signage will be considered as part of the effect on the amenity and good order of the locality during the application consideration process.

## 7. ON-LICENCES

### 7.1 Hours

The following maximum trading hours apply to all on-licensed premises in the Horowhenua District territorial area (other than hotel in-bedroom (mini-bar) sales):

Monday to Sunday	9.00 am to until 1.00 am the following day
------------------	--

The following hours apply to hotel in-bedroom (mini-bar) sales:

Monday to Sunday	24 hours per day.
------------------	-------------------

### 7.2 Locations

- (a) From the date this LAP comes into force no on-licences are to be issued for any premises unless that premises is already licensed; or is located on land zoned commercial or a Resource Consent has been granted by Council for its operation either before or after that date.
- (b) No new on-licences shall be issued for any premises located within 100 metres of the legal site boundary of any school, early childcare facility, place of worship, Marae, health care facility, public park or reserve, urupa, cemetery, bus stop primarily used by minors existing at the time the licence application is made.

Note: Renewal of a licence shall be unaffected should such a facility later establish at a site within 100 metres of the premises.

### 7.3 Discretionary Conditions

Conditions relating to the following matters may be considered generally appropriate for on-licensed premises such as night-clubs and late-night bars:

- 'One-way door' restrictions;
- The time entertainment finishes;
- Provision of additional security (staff) after 'x' hour, as determined by the DLC;
- The installation and operation of CCTV cameras on the exterior of, and within a premises;
- Provision of effective exterior lighting;
- Restrictions on the size of servings (e.g. 'doubles') and time of 'last orders';
- Management of patrons queuing to enter the licensed premises;
- Restriction on the use of outdoor areas after 'x' hour, as determined by the DLC;
- That where a licence is granted for the first time (first time meaning premises where the prospective licensee has never held a liquor licence previously or is operating a premises that has never been a licensed premises before), the trading hours may be more restrictive than the maximum trading hours contained in this LAP;
- Application of the principles of Crime Prevention Through Environmental Design;
- The display of advertising signage will be considered as part of the effect on the amenity and good order of the locality during the application consideration process.

The following conditions may be appropriate for on-licensed premises such as BYO restaurants:

- The holder of a manager's certificate to be on duty during busy periods, e.g. Thursday, Friday and Saturday nights;
- That where a licence is granted for the first time (first time meaning premises where the prospective licensee has never held a liquor licence previously or is operating a premises that has never been a licensed premises before), the trading hours are more restrictive than the maximum trading hours contained in this LAP.

## 8. SPECIAL LICENCES

### 8.1 Hours

The hours (opening and closing) and duration of a special licence are set at the discretion of the DLC for each event, having regard to the nature of the event or series of events.

### 8.2 On and Off-site

Special licences may be issued both for off-site consumption (e.g. wine sales from a market stall) or for on-site consumption, e.g. at a community event or when a bar has a special licence to open earlier/close later for significant events. Generally for premises holding existing on-licences, the conditions of a special licence will specify a closing time no more than two hours later than permitted by their on-licence.

### 8.3 Discretionary Conditions

In addition to the discretionary conditions in Section 147 of the Act, the following conditions may be considered appropriate for special licences:

- Any special licence for a series of events should not be for a period exceeding 6 months, and the number of events is not to exceed 20.
- A 'One-way door' restriction to apply from a specified time.
- No glassware is to be taken outside the building or onto grass or artificial grass surfaces.
- Plastic containers or cans to be used for any event (except when it is being served and remains within the building).
- Areas to be clearly defined / cordoned off / demarcated where liquor is being sold/consumed outside of the building, e.g. beer tent. Where appropriate people are to remain within the defined area.
- The holder of a manager's certificate to be present when alcohol is available for sale, or the number of manager's certificate holders required may be specified.
- The maximum number of alcoholic drinks per sale transaction may be specified.
- A register to be maintained recording any incidents or issues of concern, and is to be available to Police or Licensing Inspector on request.

## 9. CLUB LICENCES

### 9.1 Hours

The following maximum trading hours apply to all club-licensed premises:

Monday to Sunday	9.00 am until 1.00 am the following day.
------------------	--

### 9.2 Discretionary Conditions

Conditions relating to the following matters may be appropriate for Club licensed premises depending on the size and nature of the club:

- a requirement for the holder of a manager's certificate to be present when alcohol is available for sale during busy periods, e.g. more than 100 people are on the Club premises.

## 10. POLICY REVIEW

Pursuant to section 97 of the Act Council must review its LAP using the Special Consultative Procedure no later than six (6) years after it comes into force and no later than six (6) years after the most recent review of it was completed. The first review is to be conducted within 2 years of the operative date of this policy – see clause 6.2(c).

### Elements of the PLAP appealed against

Foodstuffs North Island Limited appeals against the following elements of Horowhenua District Council's provisional local alcohol policy (PLAP):

- 1 Clause 6.1 of the PLAP: Maximum trading hours for off-licences;
- 2 Clause 6.2(b) of the PLAP: Locational prohibition on new off-licences for bottle stores;
- 3 Clause 6.2(c) of the PLAP: Temporary cap on off-licensed bottle store and grocery store premises; and
- 4 Clause 6.3 of the PLAP: Discretionary conditions. In particular, the condition relating to advertising signage.

### Grounds of appeal

These elements of the PLAP are unreasonable in the light of the object of the Sale and Supply of Alcohol Act 2012 (**the Act**) for the following reasons:

#### Element 1 - Maximum trading hours for off-licences

- 1.1 The PLAP proposes maximum off-licence trading hours of 7am to 10pm, Monday to Sunday, to apply to all off-licensed premises in the Horowhenua region and including all off-licence sales.
- 1.2 In relation to supermarkets and grocery stores and the proposed maximum off-licensed trading hours, no regard has been or is had to the provisions of the Act which apply to beer, wine and mead sales from those types of off-licensed premises (for example, the requirement for single-area conditions including restrictions on display, promotion and advertising of alcohol).
- 1.3 The proposed maximum off-licensed trading hours in the PLAP are not based on or supported by any, or any sufficient, evidence that prohibiting sales of beer, wine or mead from supermarkets and grocery stores between 10pm (being the closing time proposed in the PLAP) and 11pm (being the default national maximum closing time set out in section 43(1)(b) of the Act) will reduce or minimise harm caused by the excessive or inappropriate consumption of alcohol.
- 1.4 The proposal of maximum off-licence trading hours in the PLAP goes beyond what is reasonably necessary, and would unreasonably restrict the responsible sale, supply, purchase and consumption of beer, wine and mead.
- 1.5 The proposal of maximum off-licence trading hours in the PLAP is unreasonable in that it does not reflect or achieve a balance between the positive benefits associated with responsible drinking and the objective of minimising alcohol-related harm without penalising responsible sellers, purchasers and drinkers of alcohol.
- 1.6 The element as proposed is ultra vires the Act because it is in conflict with section 49 of the Act relating to the remote sale of alcohol.

#### Element 2 - Locational prohibition on new off-licences for bottle stores

- 2.1 The PLAP proposes a blanket prohibition on all new bottle store off-licences within 100 metres of the site boundary of any school, early childcare facility, place of worship, Marae,

3442747\_1

health care facility, public park or reserve, urupa, cemetery, bus stop primarily used by minors or other off-licence premises existing at the time the relevant application is made.

- 2.2 The element unreasonably prejudices and burdens potential applicants for a new bottle store off-licence as it does not allow for applications where the Applicant can show that they will not add to alcohol-related harm in an area.
- 2.3 In formulating the element, no, or insufficient regard has been had or is had to the practical implications of a change in ownership of existing bottle store premises.
- 2.4 The element is not based on or supported by any sufficient evidence that it will reduce harm caused by excessive or inappropriate consumption of alcohol in the Horowhenua region or that such harm is related to the location of bottle stores in proximity to the specified areas.
- 2.5 The element lacks clarity and goes beyond what is reasonably necessary, and would unreasonably restrict the responsible sale, supply, purchase and consumption alcohol.

### **Element 3 - Temporary cap on off-licensed bottle store and grocery store premises**

- 3.1 Clause 6.2(c) of the PLAP would place a blanket cap on the total number of bottle store and grocery store off-licences permitted in each town or township in the Horowhenua region for 2 year, or until the policy is reviewed.
- 3.2 In formulating the element, no, or insufficient, regard has been had or is had to the differences between individual off-licensed premises or between types of off-licensed premises. In relation to grocery stores, no regard has been or is had to the provisions of the Act which apply to beer, wine and mead sales from those off-licensed premises (for example, the requirement for single-area conditions including restrictions on display, promotion and advertising of alcohol).
- 3.3 The element is not based on or supported by any sufficient evidence that it will reduce harm caused by the excessive or inappropriate consumption of alcohol in the Horowhenua region or the relevant areas.
- 3.4 The element as proposed is not in fact a temporary cap, goes beyond what is reasonably necessary, and would unreasonably restrict the responsible sale, supply, purchase and consumption of beer, wine and mead.
- 3.5 The proposal would unreasonably prejudice and burden potential applicants for off-licences as it does not allow for applications where the Applicant can show that they will not add to alcohol-related harm in an area.
- 3.6 The element would also unreasonably constrain the ability of the relevant areas to develop in response to changes, including in population, demographics and city planning.
- 3.7 The element does not reflect or achieve a balance between the positive benefits associated with responsible drinking and the objective of minimising alcohol related harm without penalising responsible sellers, purchasers and drinkers of alcohol.

### **Element 4 - Discretionary conditions**

- 4.1 The element as drafted appears to propose, as a discretionary condition, that supermarkets, grocery stores and bottle stores must give effect to the principles of Crime Prevention

3442747\_1

Through Environmental Design with regards to the outcome that the display of alcohol-related advertising signage will be considered as part of the effect on the amenity and good order of the locality during the application consideration process.

- 4.2 The element is ultra vires the Act as it purports to control the decision-making functions of the DLCs or ARLA and is not a policy within the meaning of or allowed by section 77(1) of the Act.
- 4.3 The element as drafted is unreasonably ambiguous, if not meaningless, even if (as it appears to purport to be) it is a policy under section 77(1)(f) of the Act. It unreasonably provides no meaningful guidance to the DLCs, ARLA, or existing and prospective licensees.

Horowhenua District Council

By email [michael.EL@horowhenua.govt.nz](mailto:michael.EL@horowhenua.govt.nz)

**Submission on the Horowhenua District Council's Draft Local Alcohol Policy**

**Summary of submission**

Foodstuffs is the franchisor of the PAK'nSAVE, Gilmours, New World, Four Square and Write Price brands. Foodstuffs takes many steps to ensure our stores are responsible retailers of alcohol.

Foodstuffs believes that the maximum licensed hours for supermarket and grocery stores should be 7am-11pm, but recognises that its stores do not currently operate past 10pm.

It should be made clearer in the draft LAP that the proposed maximum trading hours do not apply to remote sales of alcohol.

Provisions in the draft LAP relating to notification, special licences and discretionary conditions that are ultra vires the Act should be removed or amended.

The draft LAP should be drafted clearly to align with the Act and any errors should be amended.

**Who we are**

The Foodstuffs Co-operatives franchised stores employ more than 30,000 people nationwide across approximately 137 New World, 50 PAK'nSAVE, 274 Four Square stores and other related brands. This extended footprint means we are an integral component of almost all local communities big and small throughout New Zealand.

As a proudly 100% Kiwi owned and operated business, the Foodstuffs Co-operatives have grown from humble beginnings to become New Zealand's biggest grocery distributor, and one of the country's largest organisations. Stores are active members of their communities and as large employers continuously strive to give back by sponsoring and giving support to a wide range of charitable initiatives, sports teams and schools.

Foodstuffs North Island Limited (**Foodstuffs**) is the franchisor of 44 PAK'nSAVE, 98 New World, 183 Four Square, and 7 Gilmours stores. It is also franchisor of the Write Price brand in the North Island. Our stores are a major employer in the Horowhenua Region with six franchised stores. Our stores in the Region are as follows:

- Write Price
- Foxton New World
- Levin New World
- Four Square Foxton Beach
- Four Square Shannon
- Four Square Waitarere

We may in the future open more stores in your Region.

**Steps undertaken by Foodstuffs to ensure our stores are responsible retailers of alcohol**

Foodstuffs works hard to ensure that it, and every one of its stores, is a responsible retailer of alcohol. As a business, we ensure our stores understand fully their obligations under the current legislation regarding the sale of liquor.

Before a new employee can sell alcohol to customers, they must complete induction training which teaches the employee about their responsibilities under the Sale and Supply of Alcohol Act 2012 (**Act**). All employees must then undertake refresher courses which they must pass. There are voluntary online courses which store owners can recommend to their staff and, on occasion, Foodstuffs may require employees to complete this online course in addition to their mandatory training. After receiving training, staff are required to sign an acknowledgement stating that they understand their obligations under the Act.

All duty managers and operation managers are required to carry out their Licence Controller Qualification and Foodstuffs requires that all stores have at least two people employed with their General Manager's Certificate, with supermarkets having a much larger number than this.

Our point of sale systems prompt the verification of age when an alcohol product is scanned. All stores have an "Under 25: ID required" policy which requires anyone who looks under the age of 25 to provide proof of their age.

Additionally, we have an independent programme in place where all of our stores are 'mystery shopped' to ensure proof of age compliance is being adhered to. There are heavy penalties for liquor audit fails (both internal and 'police stings'), which include fines, additional training programmes and referring repeat offenders to our Board of Directors which can result in a store owner's franchise agreement with Foodstuffs being terminated.

Due to the seriousness of the consequences of a liquor audit failure, our store owners are vigilant in ensuring that the Act is adhered to, in particular the prohibitions on supply to minors and intoxicated persons.

#### ***Foodstuffs' submissions***

Foodstuffs appreciates the opportunity to provide feedback on the draft LAP. Foodstuffs commends the Council on producing a Draft LAP which seeks to balance the needs of the community, local business and other key stakeholders such as the Police and Medical Officers of Health, who each have differing perspectives and views on alcohol in the community.

#### ***Submission one - Maximum hours for off-licences***

We set out below for your reference the current licence and store trading hours for our stores in your Region.

<b>Store</b>	<b>Store opening hours (week days maximum)</b>		<b>Current Licence Hours</b>
Write Price	7am	8pm	7am to 9pm
Foxton New World	7am	8pm	7am to 11pm
Levin New World	7am	10pm	7am to 11pm
Four Square Foxton Beach	7am	9pm	7am to 8pm
Four Square Shannon	5am	7pm	7am to 11pm
Four Square Waitarere	7am	7pm	7am – 11pm

#### ***Morning Hours***

The draft LAP proposes that the maximum licensed hours for all off-licences will commence at 7am. We fully support this proposal as it covers all of our stores existing morning hours and we are

**100%**  
NZ OWNED

unaware of any research that shows that restricting the morning hours for off-licences reduces alcohol-related harm.

*Evening hours*

The draft LAP proposes that the maximum trading hours for all off-licences will conclude at 10pm.

Ideally, Foodstuffs would like to see the maximum trading hours for the Horowhenua District extended to 11pm.

This is because maximum licensed hours are not the default licence hours that licensees can obtain as a right – the licence hours are set by the licence decision-maker after assessment of the licence application (or renewal application) in accordance with the Act. We do not believe there would be many off-licence holders who would have legitimate reasons for needing a liquor licence to 11pm, and we value the flexibility that allows legitimate and scrupulous off-licence holders to apply for such a licence if future growth in the Horowhenua District indicated that customers would benefit from this. In addition, we believe that there are many valid reasons for distinguishing supermarkets and grocery stores from other types of off-licences.

We believe that the Council should consider the likelihood of harm being caused by the differing types of premises. Most sales of alcohol from our supermarkets and grocery stores occur when a customer is purchasing alcohol as part of a wider grocery shop. Our supermarkets and grocery stores can only sell beer and wine, they cannot sell RTDs or spirits, and they will also be subject to the 'Single Area condition' limiting the location of alcohol in the store to a particular defined area.

However, Foodstuffs recognises that we currently do not have any stores in the Horowhenua District operating beyond 10pm.

*Ultra Vires*

We note that it is unclear whether the maximum trading hours provision is purporting to restrict the hours for *all* sales of off-licence alcohol, including *remote* sales of alcohol made pursuant to an off-licence. Restricting the hours for remote sales of alcohol is ultra vires the Act, as section 49 of the Act specifically exempts remote sales from the trading hours restrictions.

**Submission two – Location**

*Clause 6.2(a)*

The draft LAP contains certain restrictions on the issuing of off-licences for premises outside of the commercial zone. However, it is unclear whether this clause adds anything to the existing regulatory regime, as the District Plan and Resource Consent process already determine whether an off-licence can establish outside of the commercial zone.

*Clause 6.2(b)*

We support the Council's recognition in this provision of the different types of off-licences and the differing likelihoods of harm attributable to these off-licences. However, we would suggest that the Council consider defining the sites referred to in this provision, such as 'school' and 'public park'.

**Submission four - Notice of Licence Application**

*Ultra Vires*

Foodstuffs acknowledges that the Council may have concerns with the notification provisions prescribed in the Act.

However, provisions of a local alcohol policy that impose requirements in relation to notification of applications for new off-licences or renewals of off-licences, that are over and above the requirements of the Act, do not fall within the matters outlined in section 77 of the Act. Clause 6.3 of the Draft LAP is therefore ultra vires.

It is important to note that the Act prescribes the form and the manner in which applicants must make and notify their applications. These obligations are not to be imposed by the Territorial Authority, as this would be an interference with the independent statutory role of licensing authorities and the separation of powers doctrine implied in the Act at sections 77(1), 108 and 109.

**Submission five – Discretionary conditions**

*Crime Prevention Through Environmental Design*

Foodstuffs notes that the provision in clause 6.4 relating to the application of the principles of Crime Prevention Through Environmental Design (**CPTED**) is not clearly drafted.

Given that certainty and clarity is an objective of the Draft LAP, we suggest amending the wording of this provision to 'Application of the following principles of Crime Prevention Through Environmental Design.' and deleting the sentence 'Supermarkets and bottle stores...the following outcomes'. We make this suggestion because the list included in that provision is not a list of outcomes, rather it is a list of principles, and the reference to supermarkets and bottle stores serves only to repeat the primary paragraph of clause 6.4. These amendments would both simplify and clarify the provision, without changing the substantive effect.

*Advertising Signage*

We assume that the condition relating to advertising signage relates to *alcohol* product advertising, as required by section 77(3) of the Act. To ensure that this is clear, we suggest including the words 'alcohol-related' directly before 'advertising signage'.

However, we also have concerns that the specific wording of this condition is ultra vires the Act. The provision purports to prescribe what the District Licensing Committee (**DLC**) must consider when determining the effect of an off-licence application on amenity and good order of the locality. It is unlikely that a District Licensing Committee would not consider alcohol related advertising signage when making this determination, but significantly, the Act gives the responsibility for undertaking this evaluative decision specifically to the licensing authority as an independent body from the Territorial Authority. It is not for the Territorial Authority to prescribe how a licensing authority is to exercise its decision-making functions.

We also consider that this condition, or a modified condition specifically relating to alcohol-related advertising signage, should be listed as a separate discretionary condition from the list of CPTED principles.

For completeness, we note that this condition is repeated in the Draft LAP at clause 7.4.

**Submission six - Special licences**

*Hours*

Foodstuffs has similar concerns in relation to clause 8.1 as a special licence is not subject to section 43 of the Act (default national maximum trading hours). As noted in the Draft Lap, the hours and duration of a special licence are at the discretion of the DLC for each event.

We therefore suggest that the Council amend this clause to clarify that it is a discretionary condition that the DLC 'may' consider for special licences, where appropriate.

### Submission seven - Drafting clarification

In relation to the general clarity of the Draft LAP, we have noticed some minor drafting errors and/or points of clarification that we would like to suggest that the Council take into consideration. We note that in a recent decision by the Alcohol Regulatory and Licensing Authority in relation to appeals of the Dunedin City Council's Local Alcohol Policy, it was determined that:

'A LAP can provide parameters for a DLC to operate within (provided they are consistent with the object of the Act), but that does not permit a territorial authority the ability to make discretionary conditions under the Act compulsory thereby fettering a DLC's discretion in respect of a particular application before it. The LAP is one of the matters to be considered under s 105, when granting a licence. But a LAP cannot seek to do more than indicate 'at a policy level' what kinds of discretionary conditions a DLC might consider in respect of individual applications.'<sup>1</sup>

#### *Clauses 1.3*

We note that the phrase 'to set restrictions and conditions for licensed premises' suggests that the LAP may fetter the discretion of a DLC. We therefore suggest amending the wording to 'suggest restrictions and discretionary conditions for licensed premises...'.

#### *Clause 1.5*

For similar reasons, we suggest amending 'Recommend' to 'Suggest' and to amend 'Impose conditions on groups of licences, such as a "one-way door" condition...' to 'Suggest a "one-way door" condition...'.

#### *Clause 2.2*

We suggest amending this clause to better align with the specific wording in the Act to state:

'...The matters include:

...

whether (in its opinion) the amenity and good order of the locality would be likely to be reduced, to more than a minor extent, by the effects of the issue of the licence; and

whether (in its opinion) the amenity and good order of the locality are already so badly affected by the effects of the issue of existing licences that -

- o They would be unlikely to be reduced further (or would be likely to be reduced further to only a minor extent) by the effects of the issue of the licence; but
- o It is nevertheless desirable not to issue any further licences.'

#### *Clause 4*

We commend the Council for seeking certainty and clarity as objectives for its Draft LAP. However, we note that it is unclear what is meant by 'whether a proposed license application will meet the criteria of the LAP'. We note that the criteria for licence applications is set out in the Act, and although the LAP is something to which the DLC must have regard, whether the applicant meets the criteria of the Act is for the DLC to determine.

#### *Clause 5.2*

<sup>1</sup> Dunedin City Council v Foodstuffs South Island Limited & Ors [2016] NZARLA PH 21 - 26 at [93].

We suggest amending the 'special licences' provision to 'on-site special licence' and 'off-site special licence', and also amending the 'Notes' provision to '...a tavern will hold an on-licence and may also hold an off-licence to be able...'

*Clause 5.3*

We note that 'annual sale revenue' should be 'annual sales revenue' and that the section reference should be section 32(1)(b) of the Act. We also note that at (a) in the 'club' provision 'a body having' should be 'a body corporate having' and that in the supermarket definition 'means premises' should be 'means supermarket premises'.

We also suggest that for clarity the reference to 'food product' is '(as defined in the Act)' and the reference to 'principal business' is '(as determined in accordance with the Act and the regulations made under the Act)'. In addition, the definition of 'tavern' should include '(but does not include an airport bar (as defined in the Act)).'

Foodstuffs would also like to seek clarity around the meaning of '(generally speaking)' in the bottle store provision and as to why 'principally' is underlined in the 'bar' provision.

*Clause 8.3*

We note there appears to be a minor drafting error at the end of the first bullet point in this clause.

**Presenting submission in person**

Once again, Foodstuffs is grateful for the opportunity to make this written submission. We would also like the opportunity to present our submission in person, together with a number of our franchisees.

## Review of Delegations - Customer & Regulatory Services

---

### 1. Purpose

To propose a series of officer and contractor delegations in respect of the Customer & Regulatory Services arm of Council, for the resolution of Council.

### 2. Executive Summary

- 2.1 Council delegates various functions to officers and contractors to allow them to conduct their duties both legally and in accordance with legislation, and as a consequence it is important that these delegations are reaffirmed from time to time.
- 2.2 Delegation means the assignment of a duty, or power, or action to another, with the authority to carry out that duty or complete the action assigned together with the responsibility for the outcome.
- 2.3 There have been various changes in legislation over recent times together with internal changes in the Regulatory space and therefore it is now timely that delegations in place are reviewed and updated, hence this Report.

### 3. Recommendation

- 3.1 That Report 17/519 Review of Delegations - Customer & Regulatory Services be received.
- 3.2 That this decision is recognised as not significant in terms of S76 of the Local Government Act 2002.
- 3.3 That Council resolves the delegations, attached as **Attachment A**, effective 23 November 2017.

### 4. Background / Previous Council Decisions

Delegations have been reviewed from time to time – the last time they were reviewed and resolved by Council was in May 2016.

### 5. Discussion

There are no issues associated with this matter. This report is purely to ensure that up-to-date delegations are in place that reflect both the practicalities for officers and contractors of the Customer & Regulatory Services Department to carry out Council duties, and that those delegations reflect the prevailing legislation.

### 6. Options

- 6.1 Option 1 – Approve by resolution Updated Delegations -  
This will ensure delegations in place reflect accurate legislation and that duties and functions conducted are within approved and accurate delegations of Council.
- 6.2 Option 2 – Not approve by resolution Updated Delegations -  
Administrative incumbents in that officers and contractors may not have correct and legal delegations to conduct their duties, hence a 'risk' exposure to Council and the inability of staff and contractors to conduct their duties.

6.3 Preferred Option – Option 1 – hence recommendation 3.3.

## 7. Consultation

There are no consultation requirements in respect of this matter – it is purely and administrative functional requirement.

## 8. Legal Considerations

8.1 If the appropriate and legally correct delegations are not in place, duties may be carried out by staff and contractors that they do not have the legal basis (delegation) to do so, and as a result leave any action or decision that may be taken in the normal course of their duties open to challenge, for example -

- The Fencing of Swimming Pools Act has recently been repealed and the authority on this matter is now included in the Building Act;
- If a building officer does not have a delegation to grant a building consent, the territorial authority is allowing the granting and subsequently issuing of a building consent without the appropriate officer authority to do so.
- An amendment to the Resource Management Act effective 18 October 2017 requiring the need for additional delegations to be put in place for Resource Management Planners allowing them to conduct day to day duties.

8.2 It is also just good practical commonsense to review delegations periodically to ensure that changes to legislation have been captured.

8.3 The delegations attached as **Attachment A** are made in accordance with the Local Government Act 2002 and any other statutory authority permitting delegation such as the Building Act 2004 or Resource Management Act 1981 (the appropriate authority is as shown in Attachment A).

## 9. Financial Considerations

There are no financial considerations applying to this matter.

## 10. Other Considerations

There are no other matters that need to be considered.

## 11. Next Steps

Following adoption of the delegations attached, Officer and Contractor Warrants of Appointment, and the Horowhenua District Council Delegations Register will be updated.

## 12. Supporting Information

<b>Strategic Fit/Strategic Outcome</b> – Not Applicable
<b>Decision Making</b> – Not Applicable
<b>Consistency with Existing Policy</b> – Not Applicable
<b>Funding</b> – Not Applicable

**Confirmation of statutory compliance**

In accordance with section 76 of the Local Government Act 2002, this report is approved as:

- a. containing sufficient information about the options and their benefits and costs, bearing in mind the significance of the decisions; and,
- b. is based on adequate knowledge about, and adequate consideration of, the views and preferences of affected and interested parties bearing in mind the significance of the decision.
