Water Supply

The Water Supply Activity provides a safe and reliable supply of water to urban (residential, industrial and commercial) and agreed rural properties.

What Water Supply involves:

- The Council's water supply service treats and distributes water that we source from groundwater bores and rivers in the district. We plan, operate and maintain water treatment plants to meet water quality standards as well as maintain water supply reticulation networks, 422 km. Across the district, we provide fresh water to over 13,000 customers.
- Providing drinking water to defined urban and rural areas for Levin, Foxton Beach, Foxton, Shannon, Mangaore and Tokomaru.
- We ensure our water supply complies with the New Zealand Drinking Water Standards and that it is used sustainably, particularly when demand is high by implementing water demand management using NZ Water Loss Guideline. We also make sure there is water available for firefighting in urban areas.
- Managing our water resources through ensuring compliance with resource consents for water takes and managing our water resources more sustainably for future generations. We have 20 resource consents for Water supply.
- Respond to and resolve (if possible) complaints relating to the Water Supply Activity.

What has changed since the 2018/38 LTP?

- All five water treatment plants are in compliance with NZ Drinking Water Standards. The compliances are being continuously monitored and reported annually and through inspections made by the Ministry of Health's appointed Drinking Water Assessor.
- We are continuously improving water leakage rate in Levin and Shannon and Tokomaru through Water Demand Management programme which is a requirement for our water intake consents.
- Council sought feedback on water sustainability and resolved to establish a 'Horowhenua Water Working Party'.

Challenges Council faces for Water Supply Activities

- A major challenge facing Council for its Water Supply Group of Activities is source of water supply for growth specifically in Levin.
- Aging infrastructure of water supply assets. Asset ageing affects reliability, maintenance costs, and overall performance. Council's response to ageing infrastructure is to increase renewal through investigations, collecting data and develop targeted renewal programmes for the water supply networks and treatment plants.
- Achieving compliance with New Zealand Drinking Water Standards and the Horizons Regional Council's One Plan is also a challenge and is a major driver in capital expenditure as Council is required to increase some Levels of Service and to obtain and be compliant with 20 resource consents.
- An additional challenge for the District is water sustainability. Making sure the District's Communities have sufficient and safe drinking water is critical. There are quantity issues that need addressing to ensure Council can secure water supply to existing and future Communities.

Significant and negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- A significant negative effect associated with Water Supply Group of Activities is the impact of water abstraction from rivers/streams and underground aquifers. If over abstraction occurs it affects the rivers ecological habitat. This is mitigated by continued monitoring and compliance with Council's resource consents and their conditions, which are reinforced through the Water Demand Management Plan.

Key Risks and Assumptions associated with this Activity

- Risks associated with the Water Supply Group of Activities include service failures/disruption, inconsistent strategic planning and poor business/continuity planning.

Rationale for this Activity (why we do it):

Maintain a safe and reliable water supply for domestic and business activity use.	<p>Vibrant economy Providing a safe and reliable water supply is essential for supporting existing businesses and enabling new businesses to establish.</p> <p>‘Fit for purpose’ infrastructure Our water assets are maintained and developed to meet the current and future needs of the community. They support the ongoing growth of our community and are planned to reduce the risk from climate change and other natural hazards.</p>	Funder/Provider
Resource consents restricting water usage are monitored and adhered to through Water Demand Management.	<p>Outstanding environment We are continuously improving water leakage in our water networks and consumption through public education and Water Demand Management so that less water is required to be taken from bores and rivers.</p>	Funder/Provider
Deliver education to the Community to encourage sustainable use of the natural water resource.	<p>Outstanding environment We are encouraging the public to report leakages and advocate for sustainable use of water to reduce the volume of water that is required to be taken from bores and rivers.</p>	Provider/Advocate
The water supply is safe to drink.	<p>Strong Community Providing safe drinking water supply for our community and meeting with NZ Drinking Water Standards. Safe water is essential for protecting the health and wellbeing of our community.</p>	Funder/Provider
There is adequate supply of water for firefighting.	<p>Strong Community Providing sufficient water for firefighting for residential or up to FW3 level to protect our community. This provides a reliable supply of water in case of a fire emergency,</p> <p>‘Fit for purpose’ infrastructure There is sufficient capacity in our networks to provide up to FW3 level firefighting flow.</p>	Funder/Provider
The water supply can be quickly restored following a natural disaster event.	<p>Strong Community Providing safe drinking water supply for our community is an essential part of ensuring community health and wellbeing.</p> <p>‘Fit for purpose’ infrastructure We are improving the resilience of our infrastructure so that it can be restored quickly in a natural disaster event.</p>	Funder/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Safe water supply*.	Strong Community	Council's drinking water supply complies with: (a) part 4 of the Drinking Water Standards (bacteria compliance criteria) in Levin Shannon Foxton Foxton Beach Tokomaru	Achieve Achieve Achieve Achieve Achieve	Achieve Achieve Achieve Achieve Achieve	Achieve Achieve Achieve Achieve Achieve	Achieve Achieve Achieve Achieve Achieve
		(b) part 5 of the Drinking Water Standards (protozoa compliance criteria) in: Levin** Shannon Foxton Foxton Beach Tokomaru	Achieve Achieve Achieve Achieve Achieve Achieve Achieve	Achieve Achieve Achieve Achieve Achieve Achieve Achieve	Achieve Achieve Achieve Achieve Achieve Achieve Achieve	Achieve Achieve Achieve Achieve Achieve Achieve Achieve
		** This measure previously has not been met but after extensive upgrades to the Levin treatment plant this target is expected to be met.				

What does this tell me?

This measure informs ratepayers and consumers on whether the water supplied is safe to drink. The New Zealand Drinking Water Standards, monitored by the Ministry of Health, provide a recognised standard for public safety.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Drinking water that tastes and looks satisfactory*.	Strong Community	The total number of complaints received about any of the following (expressed per 1000 connections):				
		Drinking water clarity;	1	1	1	1
		Drinking water taste;	1	1	1	1
		Drinking water odour;	1	1	1	1
		Drinking water pressure or flow;	1	1	1	1
		Continuity of supply; and	1	1	1	1
		Council's response to any of these issues.	1	1	1	1
		Total: *	≤ 6	≤ 6	≤ 6	≤ 6

What does this tell me?

The number of complaints provides an indication of the quality of the service provided. This measure also provides information on problems requiring attention, such as the need for maintenance, repair, upgrading or new infrastructure.

Response to faults*.	Strong Community	The median time from the time that Council received notification, to the time that service personnel:				
	'Fit for purpose' infrastructure	Reach the site for urgent call-outs;^	< 1 hour	< 1 hour	< 1 hour	< 1 hour
		Confirm resolution of the fault or interruption of urgent call-outs;^	< 8 hours	< 8 hours	< 8 hours	< 8 hours
		Reach the site for non-urgent call-outs; and*^	< 3 days	< 3 days	< 3 days	< 3 days
		Confirm resolution of the fault or interruption of no-urgent call-outs.*^	< 3 days	< 3 days	< 3 days	< 3 days

What does this tell me?

Households and businesses rely heavily on water, so it's important that we provide a timely response when something goes wrong. An **urgent** call-out is one when no water is being delivered. A **non-urgent** call-out is where there is still a supply of water.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Firefighting needs are met.	Strong Community 'Fit for purpose' infrastructure	Percentage of sampled network where firefighting flows in urban residential areas meet the NZ Fire Service firefighting water supplies Code of Practice SZ 4509:2008.	≥ 80%	≥ 80%	≥ 80%	≥ 80%

What does this tell me?

The fire service requires a minimum pressure from a water network to effectively control fires. This measure indicates the adequacy of our water network for firefighting.

Water supply has adequate flow and pressure.	Strong Community 'Fit for purpose' infrastructure	Network supply pressure at the property boundary is not less than 250kPa for on demand connections and 150kPa for restricted flow connections.	Achieve	Achieve	Achieve	Achieve
--	--	--	---------	---------	---------	---------

What does this tell me?

The water in the supply network is maintained at positive pressure to ensure that water reaches all parts of the network, that a sufficient flow is available at every take-off point and to ensure that untreated water in the ground cannot enter the network. This measure is used to ensure that these objectives are met.

Water supply is sustainable*.	Strong Community Outstanding environment	Average consumption of drinking water per person per day (lpcd) within the water supply areas (target based on Horizons One Plan - Section 5.4.3.1). <i>lpcd – litres per capita per day.</i>	≤ 300 lpcd	≤ 300 lpcd	≤ 300 lpcd	≤ 300 lpcd
-------------------------------	---	---	------------	------------	------------	------------

What does this tell me?

Careful water management ensures demand does not exceed capacity, that water is allocated efficiently, and that productivity is maximised. A system that treats and transfers less water maximises the value of existing infrastructure. It costs less to construct and maintain, uses fewer chemicals, and less energy. Where there is increasing demand for water, managing demand provides a means for a Community to defer investment in new water infrastructure through more efficient use of existing resources.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Minimal water losses*.	Outstanding environment	Percentage of real water loss from the network as measured by the standard World Bank Institute Band for Leakage.*	Band "B"	Band "B"	Band "B"	Band "B"

What does this tell me?

Water lost from leaking pipes is a key indicator of the performance of our water network. High levels of water loss can show that the network is in poor condition or that it is being operated inefficiently. To reduce the amount of water lost from the network, we will continue with our programme to find and fix leaks. We use the World Bank Institute Band for leakage to calculate how much water is lost from the network. This uses a grading system ranked from Band "A to D". Specifically Council's target is Band "B" and represents potential for marked improvements; consider pressure management, better active leakage control practices, and better network maintenance.

Sustainable water supply management	Outstanding environment	The number of:				
		Abatement Notices;	0	0	0	0
		Infringement Notices;	0	0	0	0
	Strong Community	Enforcement Orders; and	0	0	0	0
		Convictions	0	0	0	0
		received by Council in relation to Horizons Regional Council resource consents.*				

What does this tell me?

This measure indicates how well Council is managing the environmental impacts of the water network. Not complying with consent conditions may indicate that Council is not managing its processes adequately or that the infrastructure is no longer adequate.

Customer Satisfaction	Strong Community	Percentage of customers not dissatisfied with the service, based on the Annual Customer Satisfaction Survey.	≥ 84%	≥ 84%	≥ 84%	≥ 84%
-----------------------	------------------	--	-------	-------	-------	-------

What does this tell me?

The percentage of satisfied customers gives us an indication of the quality of service we are providing.

* These performance measurements are provided by the Department of Internal Affairs and they are mandatory.

^ Urgent call-out is defined as a complete loss of service to the water supply

Wastewater Treatment

The Wastewater Treatment Activity aims to protect human health and environment by treating wastewater from residential and industrial properties and discharging treated effluent back into the environment.

What Wastewater Treatment involves:

- Council's Wastewater (sewage) reticulation network and pump stations collect sewage from households, businesses and industrial customers. It is then transported to wastewater treatment plants (Levin, Foxton, Foxton Beach, Shannon, Tokomaru and Waitāre Beach) where it is biologically treated and treated effluent from wastewater treatment plants is then applied to land (except from Tokomaru)¹.
- Our activities include operating and maintaining Levin Wastewater treatment plant (advance wastewater treatment plant), five oxidation pond type WWTPs, 78 pump stations, 342 kilometres of sewer network and 12,429 service connections. We also monitor the flow of trade waste into the sewer reticulation network in Levin and Foxton.
- Meeting resource consent conditions for the discharge of treated effluent wastewater or for the construction or upgrade of assets. There are 28 resource consents for the Wastewater activities.
- Responding to and resolving (if possible) customer complaints relating to the Wastewater Treatment Activity.

What has changed since the 2018-38 LTP?

- Council is continually planning for wastewater upgrades to service the anticipated growth in the District. With improved asset information,

planning for asset renewals and Level of Service upgrades can be done more efficiently and effectively.

- Council have undertaken feasibility studies on wastewater for Ōhau during last LTP. The review of feasibility study will be completed during 2021-2022 financial year. The decision on whether to undertake a feasibility study on wastewater for Manakau has been deferred until 2023-2024 (Year 3 of the Long Term Plan).

Challenges Council faces for Wastewater Activities

- A major challenge facing Council regarding its Wastewater Activities is the increasing age of Council's wastewater assets especially within Levin reticulation and treatment plant. Asset ageing affects reliability of asset, increased maintenance costs, and overall performance of assets would be lower. Poor pipe condition is a major cause of groundwater infiltration which adds unnecessary volume to the amount of wastewater collected during wet weather events. The response to asset ageing is to increase carefully targeted renewal programmes for the wastewater collection networks and treatment plants.
- Meeting with growth demand. Anticipated growth is leading to increased residential, commercial and industrial demand. We plan to undertake a Master Plan (taking a long-term view) on wastewater treatment activity focusing in Levin area. This takes into account legislative framework (Freshwater National Policy Statement, Plan Change) and projected growth.
- Resource consent process and complying with consent conditions, is another challenge faced by Council for this Group of Activities. It can be expensive, particularly with increased expectations from the public and stakeholder groups.

¹ Council does not provide a wastewater disposal service for Waikawa Beach, Hokio Beach, Manakau and Ōhau (although it accepts septic waste from these areas at the Levin treatment plant)
Horowhenua District Council Long Term Plan 2021-2041

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with Wastewater Activities

- A significant negative effect associated with this Group of Activities is the long term effect of discharge of treated wastewater to the receiving environments which includes land and watercourses throughout the District. This effect is mitigated by meeting the standards of treatment required by Horizons Regional Council. As these standards increase in the future, Council will need to obtain further significant capital expenditure.
- Another significant negative effect of Council's Wastewater Activities is unintentional overflows of untreated wastewater from the collection system to private property, public land, or watercourses during heavy rain events. This is mitigated by a regime of pipe and pump inspections and maintenance. We also plan to increase resilience programme and data monitoring for pump stations especially for critical pump stations.

Key Risks and Assumptions associated with Wastewater Activities

- Risks associated with the Wastewater Group of Activities include service failures/disruption to services, inconsistent strategic and poor business/continuity planning. Three Waters reform bill which has been initiated by the government.
- Assumptions which may affect this Group of Activities include population projection.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Maintain the safe collection, treatment, and disposal of wastewater produced by residential and business activities.	<p>Vibrant economy</p> <p>Providing a safe collection and treatment of wastewater is essential for supporting existing businesses and enabling new businesses to establish.</p> <p>‘Fit for purpose’ infrastructure</p> <p>Our wastewater assets are maintained and developed to meet the current and future needs of our community. They support the ongoing growth of our community and are planned to reduce the risk from climate change and other natural hazards.</p>	Funder/Provider
Resource consent conditions on the quality of discharges are met.	<p>Outstanding environment</p> <p>Making sure that wastewater treatment plants are designed to incorporate resource consent requirements, and operated and monitored to meet resource consent conditions to ensure the quality of discharges are met.</p>	Funder/Provider
The collection network is reliable and has minimal blockages or overflows.	<p>‘Fit for purpose’ infrastructure</p> <p>We are improving the resilience of our infrastructure so that it can be restored quickly in a natural disaster event.</p> <p>Outstanding environment</p> <p>Our infrastructure are resilient during wet-weather events and has minimal impact on environment by ensuring overflows or blockages are reduced.</p>	Funder/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Reliable wastewater collection and disposal*.	Outstanding environment	The number of dry weather wastewater overflows from the wastewater system per 1000 connections.*	≤ 2	≤ 2	≤ 2	≤ 2
	'Fit for purpose' infrastructure					

What does this tell me?

This measure provides information on whether the wastewater system is designed to an adequate standard and is being maintained in a way that minimises harm to the Community. Overflows are when wastewater escapes the wastewater system and enters the environment.

Council provides a good response to wastewater system faults reported*.	The median time (hrs) from the time that Council receives a notification, to the time that services personnel reach the site in responding to an overflow resulting from a wastewater blockage or other fault.*	< 1 hour	< 1 hour	< 1 hour	< 1 hour
	The median time (hrs) from the time that Council receives a notification, to the time that services personnel confirm a resolution of a blockage or other fault within the wastewater system causing the overflow.*	< 12 hours	< 12 hours	< 12 hours	< 12 hours

What does this tell me?

This measure shows how quickly we respond when there is a problem with the sewerage system, and how quickly the problem is resolved.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
The service is satisfactory*.	'Fit for purpose' infrastructure	The total number of complaints received (expressed per 1000 connections to the wastewater system) regarding: Wastewater odour; Wastewater systems faults; Wastewater system blockages; and Council's response to issues with its wastewater system. Total number of complaints received about any of the above.* Percentage of customers not dissatisfied with the service, based on the Annual Customer Satisfaction Survey.	<4 <6 <8 <4 <22 ≥84%	<4 <6 <8 <4 <22 ≥84%	<3 <6 <8 <3 <20 ≥84%	<3 <6 <8 <3 <20 ≥84%

What does this tell me?

The number of complaints provides an indication of the quality of the service provided. This measure also provides information on problems requiring attention, such as the need for maintenance, renewals, upgrades, or new infrastructure.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Safe disposal of wastewater*.	Outstanding environment	The number of				
		Abatement Notices;	0	0	0	0
		Infringement Notices;	0	0	0	0
		Enforcement Orders; and	0	0	0	0
		Convictions	0	0	0	0
		received by Council in relation to Horizons Regional Council resource consents for discharge from its wastewater system.*				

What does this tell me?

This measure indicates how well we are managing the environmental impacts of the District's wastewater system. It only includes formal actions taken, as they represent incidents that may have the greatest adverse impact on the environment.

** These performance measurements are provided by the Department of Internal Affairs and they are mandatory*

Stormwater

As part of the Stormwater Activity Council provides and maintains a stormwater system that aims to remove water from the roading corridor, and in some case residential and commercial properties, to reduce the occurrence of flooding during rainfall events.

What Stormwater involves:

- Providing and maintaining drainage systems (including reticulation pipes, open culverts, pump stations, soak pits, discharge outlets and detention areas) in settlements² across the District to remove stormwater from the road corridor and some residential and commercial properties.
- Continuous improvements and extensions to the stormwater network utilising stormwater catchment management plans.
- Meeting resource consent requirements for stormwater discharges and drainage systems.
- Responding to and resolving (if possible) customer complaints relating to the Stormwater Activity.

What has changed since the 2018/38 LTP?

- Council now has completed stormwater Catchment Management Plans (CMPs) across the district. For existing catchment areas, these CMPs are being used during the planning phase for asset renewals to ensure continuous improvement to the network. The CMPs also allow Level of Service upgrades to be done more efficiently and effectively.
- The Horowhenua District is currently experiencing and expecting considerable growth in the coming years. Council is planning for Stormwater upgrades in the expected growth areas and, where

possible, applying the recommendations that derive from the stormwater catchment management plans.

- Council has applied for stormwater discharge resource consents (Foxton Beach and Levin, Queen Street into the Lake Horowhenua). The investigations in both locations are ongoing to enable a better data collection (quality of stormwater discharges and developing improvement plans).

Challenges Council faces for Stormwater Activities

- Climate change is a challenge facing Council for its Stormwater Activities as it is expected that, over time, there will be a gradual change in the weather patterns, including more frequent heavy rainfall events. Stormwater catchment management plans incorporate climate change effects into stormwater models as well as including historical flooding information so that asset renewals are done appropriately and fit-for-purpose.
- Customer expectations are continually increasing and this presents a challenge for the future provision of Stormwater Activities as peoples' expectations are higher but Council can only do so much.
- Another challenge faced by Council is that the quality of freshwater in streams, river systems, and water catchments in general is affected by water runoff, erosion, and contaminants (whether chemical or solid waste) which can be present in stormwater. These contaminants largely originate from sources outside of Council's control and yet they are still ultimately transported to natural systems by Council's stormwater drainage system. The National Policy Statement (NPS) for Freshwater Management 2020 is the key instrument for controlling this

² Levin, Foxton, Foxton Beach, Hokio Beach, Shannon, Mangaore, Tokomaru, Manakau, Ōhau, Waikawa Beach and Waitāre Beach
Horowhenua District Council Long Term Plan 2021-2041

contamination and will impact on Council's stormwater services in the future.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with Stormwater Activities

- The stormwater systems are essentially a means of transporting surface water across urban landscapes to protect private and public property from flooding. A negative effect associated with this Group of Activities is that stormwater runoff can pick up contaminants (including rubbish and chemicals) and then discharge these contaminants into receiving natural systems such as rivers, lakes, and the sea.

Key risks and assumptions associated with Stormwater Activities

- The significant risk associated with Stormwater Activities is lack of knowledge around both the built system and the complexities of the total catchments covering each urban area. This risk has been identified through stormwater catchment management plans. We plan to implement actions from stormwater catchment management plans as part of continuous improvement.
- Assumptions which may have a significant effect on this Group of Activities are the quality of asset data and information, the rate and nature of population and business growth, and the rate and nature of changes of weather patterns from climate change.
- Council has applied for resource consents for Levin and Foxton Beach. The investigation phase has been undertaken and communicated with relative stakeholders. It is expected that the investigations will continue to improve monitoring data which are required by Horizons One Plan. It is expected that the discharge consent will be granted for these two Communities during this LTP period.

Rationale for this Group of Activities (why we do it):

Activity	Community Outcome	Council Role
Maintain a system to divert stormwater away from the road and to protect residential and business properties.	Vibrant economy Providing stormwater services to protect our community and supporting existing businesses and enabling new businesses to establish. 'Fit for purpose' infrastructure Our infrastructure are resilient, helping us to respond to climate change and natural hazards.	Funder/Provider
Provide a means of ensuring minimal contamination of receiving water course.	Outstanding environment Stormwater discharge points are monitored and work is ongoing to reduce contaminants entering the stormwater system and reducing any impacts on receiving environment.	Funder/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
An adequate stormwater system*.	Outstanding environment	Number of flooding events each year that occur in the District.*	< 5 per year	< 5 per year	< 5 per year	< 5 per year
	'Fit for purpose' infrastructure	For each flooding event, the number of habitable floors affected. (Expressed per 1000 connections to Council's stormwater networks).*	2 or less	2 or less	2 or less	2 or less
	Strong Community					
What does this tell me? It is important that our stormwater system is reliable and that the scale of any flooding event is minimised. This performance measure provides information on how effective our stormwater system is in providing an appropriate level of protection and how well it is being managed. In other words, whether it has been designed to an adequate standard and is being operated in a way that minimises harm to the Community. A flooding event means an overflow of stormwater from Council's stormwater system that enters a habitable floor. A habitable floor refers to a floor of a building (including a basement) but does not include ancillary structures such as standalone garden sheds or garages.						
Response to faults*.	Outstanding environment	The median response time to attend a flooding event, measured from the time that Council receives notification to the time that service personnel reach the site.*	< 1 hour	< 1 hour	< 1 hour	< 1 hour
	Strong Community					

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
What does this tell me? This measure shows how quickly we respond when there is a problem with the stormwater system. It measures situations where water from the stormwater system enters a habitable floor of a building. It is important that we are able to respond quickly to flooding events to reduce the impact they have on buildings and the welfare of the inhabitants of those buildings.						
Customer satisfaction*.	Strong Community	The number of complaints received by Council about the performance of its stormwater system expressed per 1000 properties connected to the system.*	<10 per year	<10 per year	<10 per year	<10 per year
		Percentage of customers satisfied with the stormwater service. As per the Annual Customer Satisfaction Survey.	≥80%	≥80%	≥80%	≥80%
What does this tell me? The number of complaints received gives us an indication of the quality of service we are providing. It also gives us information about issues with the stormwater system and tells us how satisfied customers are with the stormwater network.						
A sustainable stormwater service.	Outstanding environment	The number of:				
	Strong Community	Abatement Notices;	0	0	0	0
		Infringement Notices;	0	0	0	0
		Enforcement Orders; and	0	0	0	0
	‘Fit for purpose’ infrastructure	Convictions	0	0	0	0
received by Council in relation to Horizons Regional Council resource consents* for discharge from its stormwater system.**						
What does this tell me? This measure indicates how well Council is managing the environmental impacts of the stormwater system. Not complying with consent conditions may indicate that Council is not managing its processes adequately or that the infrastructure is no longer adequate.						

* These performance measurements are provided by the Department of Internal Affairs and they are mandatory.

** Currently there is no discharge consent for Levin's stormwater

Land Transport

The Land Transport Activity aims to provide and maintain roads, footpaths and shared pathways across the District that meet the community's needs.

What the Land Transport Activity involves:

- Allows for the safe, convenient and efficient transit of people and goods through, and within, the District in a way that meets national standards.
- Provides a network of roads, footpaths, bridges, car parks, signs and markers, street lights, and associated drainage systems in what is known as the 'Transport Corridor'.
- Maintains a partnership with Waka Kotahi - New Zealand Transport Agency, which is Council's co-investment partner for roading, to produce and deliver the 'Optimised Programme', which is approved on a three yearly cycle in the Regional Land Transport Plan.
- Operates, maintains and improves land transport assets.
- Meets requirements of relevant national legislation, strategies and plans.

What has changed since the 2018-38 LTP?

- Council have a better understanding of the increasing demand on the District's land transport network. The confirmation of O2NL, as well as the higher than previously predicted growth, means that Council is more able to accurately set the required funding levels to provide the required levels of service, while also planning for sustainable growth.

Challenges Council faces for Land Transport

- Changes in demand to the transport network, caused by growth and O2NL, is a significant challenge. Council is meeting the challenge with comprehensive planning processes to ensure targeted investment meets growth demands while still providing required levels of service for the current community.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- The Horowhenua District's roading network presents a high risk to its users, with a significantly higher rate of crashes per vehicle kilometres travelled compared with the rest of the country and within our region. Council is addressing this problem through a programme of safety improvements.
- Severe traffic congestion, while generally caused by state highway use, can cause disruption for local road users. This notably occurs during public holiday periods and also during severe rain events. As congestion like this is normally related to state highway use, Council has limited ability to resolve this issue.

Key Risks and Assumptions associated with this Activity

- A key risk to this activity are constraints involving contractor and supplier availability, which can severely impact Council's ability to deliver its Land Transport Programme.

A key assumption is that the Funding Assistance Rate that Council receives from NZTA will be 62% in 2021-2022, 61% in 2022-2023, and 60% in

2023-2024 as indicated to Council by NZTA. Another assumption is that the development of the Ōtaki to North of Levin Expressway will continue.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Maintain a safe and reliable road and footpath system to support private and business transport needs.	<p>Vibrant economy</p> <p>Enabling easy and safe transport provides significant economic benefits.</p> <p>Strong Community</p> <p>Safe and accessible transport infrastructure enables a greater level of community participation.</p> <p>‘Fit for purpose’ infrastructure</p> <p>Land transport infrastructure is delivered efficiently, providing sufficient capacity for growth while retaining value for money for the current community.</p>	Funder/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
A safe road network*.	Strong Community Fit for purpose infrastructure	The change from the previous financial years in the number of fatalities and serious injury crashes on the local road network.	0 change or less from previous year.	0 change or less from previous year.	0 change or less from previous year.	0 change or less from previous year.

What does this tell me?

It is extremely important that our road network is safe for everyone to use. Road crashes can involve factors that are outside of Council's control (such as speed or driver behaviour). It is important that other factors within our control are carefully managed to improve road safety across our region and reduce the number of deaths or serious injuries each year. These include the condition of the road and footpaths, the location of pedestrian crossings, and traffic signals.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Roads in good condition*.		The average quality of a ride on a sealed local road network measured by Smooth Travel Exposure.	Minimum 85%	Minimum 85%	Minimum 85%	Minimum 85%

What does this tell me?

The roughness of roads can impact on the safety and comfort of road users. As well as on vehicle operating and maintenance costs. Smooth Travel Exposure (STE) is a system of measurement used to assess the quality of the ride on our District's roads. The higher the STE percentage, the smoother the network.

Roads that are maintained well*.	Fit for Purpose Infrastructure Strong Community	The percentage of the sealed local road network that is resurfaced annually.*	Minimum of 5% of total area	Minimum of 5% of total area	Minimum of 5% of total area	Minimum of 5% of total area
----------------------------------	--	---	-----------------------------	-----------------------------	-----------------------------	-----------------------------

What does this tell me?

This measure provides information on how well we are maintaining our road network and meeting the targets for road resurfacing set in our Asset Management Plan.

Footpaths are in an acceptable condition*.	Fit for Purpose Infrastructure Strong Community	Target footpath condition rating (% compliant with Council's standards found in the Land Transport Activity Plan).	Minimum 30% in excellent condition Maximum 10% in poor condition	Minimum 30% in excellent condition Maximum 10% in poor condition	Minimum 30% in excellent condition Maximum 10% in poor condition	Minimum 30% in excellent condition Maximum 10% in poor condition
--	--	--	---	---	---	---

What does this tell me?

Footpaths are an important part of the District's infrastructure. Well maintained footpaths are important for pedestrian convenience and safety.

Good response to service requests*.	Strong Community Fit for Purpose Infrastructure	The percentage of customer service requests relating to roads and footpaths to which Council responds within 15 working days.	>95%	>95%	>95%	>95%
-------------------------------------	--	---	------	------	------	------

What does this tell me?

Interaction with the Community is a key aspect of our service and response time is a key method of measuring whether Council is listening to its customers.

* These performance measurements are provided by the Department of Internal Affairs and they are mandatory.

Solid Waste

The Solid Waste Activity aims to collect and safely dispose of residential and commercial rubbish, assist with waste minimisation and also aims to deliver continued waste reduction.

What Solid Waste involves:

- Educating the Community on waste minimisation.
- Providing kerbside recycling, recycling stations, refuse bag collection, operation of waste transfer stations, Levin landfill, and monitoring closed landfills.
- Ensuring that the necessary resource consents for the Activity are obtained and that any conditions are complied with.
- Operating within other legislative requirements (e.g. the Health Act 1956 and the Waste Minimisation Act 2008).

What has changed since the 2018-38 LTP?

- Council moved to a fortnightly kerbside recycling collection, with 240 L wheelie bins for mixed recycling and a 55 L crates for glass.
- Council's Waste Minimisation and Management Plan 2018 was adopted.
- An agreement was signed between HDC, the Hokio Environmental Kaitiaki Alliance, the Horowhenua District Ratepayers and Residents Association, and section 274 parties in relation to the Levin Landfill closure timeframes.
- A gradient change was completed on the open cells in order to extend the life of the open cells until a decision is made regarding landfill closure timeframes.

Challenges Council faces for this Group of Activities

- A key challenge for the future of the Solid Waste activities is the decision required regarding the Levels of Service provision. Council will need to balance the solid waste disposal needs of the District with the ability to generate income, by accepting waste from outside the District, and also the extent of provision by Council of the solid waste activity. All of these considerations have an effect on long term capital expenditure, income, and the estimated longevity of Council's most significant solid waste asset which is the Levin Landfill.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Group of Activities

- There is a negative perception regarding landfill use.
- A key negative effect associated with this Group of Activities is the presence of both ground and airborne contaminants produced by the Landfill and their potential harm to the immediate environment. This effect is mitigated by strict adherence to Horizons Regional Council's resource consent conditions. Council also facilitates a neighbourhood group and monitors the airborne effects associated with the Landfill.

Key Risks and Assumptions associated with this Group of Activities

- A key risk associated with the solid waste activities is the potential environmental and social impacts associated with disposal of waste to landfill (both current and historic). This risk is mitigated through legislative controls and constant monitoring of leachates and ground conditions.
- A key assumption of the 2021 - 2024 Long Term Plan is that Council's current ownership of the Levin Landfill, and being a provider of solid waste services, will continue.
- As mentioned above, much of this Group of Activities is optional rather than mandatory. Future changes in the service provision model, especially the level of Council's participation in it, could change the overall funding requirements.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Provision of landfill and static recycling stations. These help reduce waste and minimise its negative environmental effects.	Outstanding environment Well managed solid waste disposal services and infrastructure allow for waste to be disposed of in a controlled manner that minimises environmental impacts. Recycling services support the reduction in waste entering the landfill. 'Fit for purpose' infrastructure Provision of solid waste infrastructure that meets expected level of service and legislative requirements ensures that waste can be disposed of in a safe, environmentally sustainable way. Strong community Reliable solid waste infrastructure and services enable strong communities through the provision of safe, accessible waste disposal options.	Provider
Provision of waste transfer stations, recycling, and refuse collection. These help reduce waste and minimise its negative environmental effects.	Outstanding environment Provision of recycling collection and drop off stations help to reduce the amount of recyclable material being disposed of at landfill or entering the environment as litter. 'Fit for purpose' infrastructure Recycling service which meet current demand allow for safe and reliable collection and disposal of recyclable materials.	Provider
Provision of waste minimisation education to the Community.	Outstanding environment Provision of waste minimisation education helps to promote more sustainable practices within the community and reduce the pressures and impact on the environment. Strong community Waste minimisation education helps to reduce waste to landfill and promote more sustainable ways of living.	Provider/Advocate

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Provision of landfill but minimising the amount that is sent there.	Fit for Purpose Infrastructure Outstanding Environment	Quantity of waste going to the landfill per person per year.	≤ 400 kg per person	≤ 400 kg per person	≤ 400 kg per person	≤ 400 kg per person
Recycling is encouraged	Outstanding Environment Fit for Purpose Infrastructure	Level of recycling	≥ 40% of total waste	≥ 40% of total waste	≥ 40% of total waste	≥ 40% of total waste

What does this tell me?

The provision of a landfill and encouraging recycling helps reduce waste and minimise its negative environmental effects.

Waste transfer and recycling stations have a minimal impact on the immediate and surrounding environment.	Outstanding Environment Fit for Purpose Infrastructure	Number of odour complaints and minimal reports of solid waste in or around:	<4	<4	<4	<4
		Waste transfer stations; and recycling stations per month.	<4	<4	<4	<4

What does this tell me?

The number of complaints provides an indication of the quality of the service provided. This measure also provides data that highlights problems requiring attention, such as the need for maintenance, repair, upgrading, or new infrastructure.

Response to service requests regarding Council's Solid Waste Activities is timely.	Strong Community	95% of all requests are responded to within the required timeframe.	Within 3 working days	Within 3 working days	Within 3 working days	Within 3 working days
--	------------------	---	-----------------------	-----------------------	-----------------------	-----------------------

What does this tell me?

This measure shows how quickly we respond when there is a problem regarding solid waste.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Recycling and refuse is collected on time and in a sanitary manner.	Fit for Purpose infrastructure	Number of complaints per-month about non collection of:				
	Outstanding Environment	Kerbside recycling	<6	<6	<6	<6
	Strong Community	Kerbside refuse	<6	<6	<6	<6

What does this tell me?

The number of complaints provides an indication of the quality of the service provided. This measure also provides information on problems requiring attention.

Recycling stations are available and accessible in urban centres in summer.	Outstanding Environment	Recycling stations are available at the agreed locations on the agreed days and times outlined on Council's website.	Achieve	Achieve	Achieve	Achieve
	Strong Community					

What does this tell me?

Available collection points stop rubbish and recycling becoming a health risk.

Customers are content with Council's transfer stations, recycling collection, and refuse collection services offered.	Fit for purpose infrastructure	Percentage of customers satisfied with their solid waste services:				
		Kerbside recycling	≥ 80%	≥ 80%	≥ 80%	≥ 80%
		Kerbside refuse	≥ 80%	≥ 80%	≥ 80%	≥ 80%

What does this tell me?

The percentage of satisfied customers gives us an indication of the quality of service we are providing.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Customers are educated on waste minimisation practices.	Strong Community Outstanding Environment	Number of school aged students waste education is provided to each year	≥ 300 students	≥ 300 students	≥ 300 students	≥ 300 students
Customers are educated on waste minimisation practices.	Strong Community Outstanding Environment	Number of events Council attends to promote ways to minimise waste	≥ 5	≥ 5	≥ 5	≥ 5

What does this tell me?

Waste minimisation is important because it helps protect the environment and it makes good business sense. Today's environmentally savvy children are tomorrow's environmentally responsible adults. This measures shows that Council is doing its part in protecting the environment.

Sustainable solid waste management.	Outstanding Environment	The number of:				
	Fit for purpose infrastructure	Abatement Notices;	0	0	0	0
		Infringement Notices;	0	0	0	0
		Enforcement Orders; and	0	0	0	0
		Convictions	0	0	0	0
		received by Council in relation to Horizons Regional Council resource consents.				

What does this tell me?

This measure indicates how well Council is managing the environmental impacts of its Solid Waste Activities. Not complying with consent conditions may indicate that Council is not managing its processes adequately or that the infrastructure is no longer adequate.

Community Facilities

The Community Facilities Group of Activities includes the following:

- **Aquatic Centres and Recreation**
- **Community Centres and Libraries**

Aquatic Centres and Recreation

The Aquatic Centres and Recreation Activity aims to provide public access to swimming pools, fitness, rehabilitation, and swimming programmes to enhance wellbeing through providing healthy recreational and social opportunities.

What Aquatic Centres and Recreation involves:

- Horowhenua Aquatics provide public access to swimming pools, fitness, rehabilitation, and swimming programmes to enhance community wellbeing through providing healthy recreational and social opportunities by:
- Providing opportunities for recreation to improve physical fitness and wellbeing including off site and outreach services.
- Providing a focal point for local communities where they can meet and participate in leisure and recreational activities.
- Providing swimming pools for general use including assisting clubs and organisations to host and run events.
- Providing a certified Swim School Programme in Levin and Foxton.
- Providing safe venues for fun activities and social interaction
- Providing a venue for Aquatic Sports and competitive activity.
- Providing land and water based fitness and rehabilitation classes both on and off-site.
- Managing Shannon School Swimming Pool during the summer school holidays.
- Facilitating a targeted swimming programme for the rural community within Horowhenua.

What has changed since the 2018-38 LTP?

- An Aquatic Strategy has been developed that will assist in shaping the future of Aquatic Facilities within Horowhenua and provide direction in respect to future facility investment.
- Community demand for lane space, fitness offerings, and recreation programmes continue to grow resulting in the limited availability of water space during peak times.
- Learn to swim numbers have continued to grow at both Foxton Pool and Levin Aquatic Centre and income has increased because of this.
- A number of outreach programmes have been developed and continue to be popular with communities.

Challenges Council faces for this Activity

- A major challenge facing Council for this Activity is the change in demand and Community expectations as well as the ongoing increases in operational costs, coupled with the desire to make fees and charges affordable for our Community. Council is continuing to actively investigate areas for increasing revenue to subsidise other areas of public access.
- Another challenge is the current condition of the Foxton Swimming Pool. This is something that needs to be addressed in the short term. Interest in this facility continues to be strong but in general usage remains low.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- Injuries or drownings resulting from use of the facility.
- This is managed by ongoing training, qualification and provision of competent lifeguards and compliance with the Poolsafe accreditation.
- As costs increase to provide swimming pools it may become unaffordable for some. This is managed by ensuring costs are kept to a minimum through ongoing review and efficiencies. Programmes and events are actively monitored and reviewed to maximise revenue opportunities to offset operational costs.

Key Risks and Assumptions associated with this Activity

- It is assumed that Aquatics will continue to be managed in house.
- The major risks associated with this Activity are health and safety risks inherently associated with publicly accessible swimming pools and with undertaking physical exercise. Control measures are in place to mitigate these risks and these are reviewed annually

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Safe aquatic centres are available for Community use.	Strong Community <ul style="list-style-type: none"> • Aquatic Centres provide a safe venue and opportunity for people to learn how to swim, and enhance water safety and other life skills. • Aquatic Centres contribute to providing a 'sense of place' where people are proud to live. • Aquatic Centres provide safe venues for fun activities and opportunities for social connection and inclusion. • Aquatic Centres provide opportunities for all cultures in the district and can be a place where cultural diversity is celebrated. 'Fit for purpose' Infrastructure <ul style="list-style-type: none"> • Aquatic facilities are planned and developed for the district to meet current and future needs. • Aquatic Centres are reliable, efficient and well run. 	Provider
Recreation opportunities are provided for the Community.	Strong Community <ul style="list-style-type: none"> • Provide a focal point for local communities where they can meet and participate in leisure and recreation activities • Provide opportunities for recreation to improve physical fitness and wellbeing • Provide opportunities for people to participate in recreational and physical activities, which enable people to live a healthy lifestyle. • Provide a venue for aquatic sports and competitive activity. 	Provider/Advocate

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Safe aquatic facilities are operating in the District.	Strong Community Fit for purpose infrastructure	Compliance with relevant standards including Pool Safe Accreditation.	Achieve	Achieve	Achieve	Achieve
What does this tell me? This measure is to ensure the safety and enjoyment of aquatic centres for all customers.						
Aquatics centres meet customer needs.	Strong Community	Percent of customers satisfied, based on the Annual Customer Satisfaction Survey.	≥ 90%	≥ 90%	≥ 90%	≥ 90%
What does this tell me? The percentage of satisfied customers gives us an indication of the quality of service we are providing.						
A high quality Swim School operates at the Levin and Foxton Aquatic Centres.	Strong Community	Number of participants in Learn to Swim classes.	≥ 400 per term	≥ 400 per term	≥ 400 per term	≥ 400 per term
What does this tell me? Our pools offer curriculum based water safety and aquatic education programmes to local schools that do not have their own pools. We also offer swimming lessons for people of all ages and abilities to improve their swimming technique and overall skill level.						
Local clubs are supported to deliver their own events.	Strong Community	Number of events per year held by clubs- clubs growing and taking ownership of their own events and future.	≥ 5 per year	≥ 5 per year	≥ 5 per year	≥ 5 per year
What does this tell me? Council makes available its facilities for local aquatic clubs and organisations to deliver their own events.						
Growing existing events and developing new ones for the following areas; children, general public, and retirees.	Strong Community	Number of events per year for:	≥ 3	≥ 3	≥ 3	≥ 3
		Children;	≥ 3	≥ 3	≥ 3	≥ 3
		General public; and	≥ 3	≥ 3	≥ 3	≥ 3
		Retirees.				
What does this tell me? Council supports local sports/recreation clubs and organisations to host and run events on and off site.						

Community Centres and Libraries

This Activity aims to provide a location where people can visit, spend time, and positively engage in activities and opportunities, whether that be through social interaction, personal development or recreation and leisure.

What Community Centres and Libraries involves:

Multi-functional facilities and District wide Library Services provide a wide range of services to both the community and to visitors to the Horowhenua District, including:

- Spaces for social interaction
- Bookable rooms for community and commercial entities
- A creative hub that allows for music and visual performance and exhibition
- Museums that share stories and insight into the lives of the people in our area, and beyond
- Events that enrich our community
- Providing AA Services for our community
- Providing Visitor information services through two sites (Levin and Foxton)
- Delivery of Council Services (e.g. Dog registrations at Shannon and Foxton)

District wide library services in Levin, Foxton and Shannon deliver programmes and services that:

- Provide equitable access to information for leisure, entertainment, research, education and career development across the district
- Foster and enhance literacy (including digital) and lifelong learning
- Deliver events and programmes for children, young people, adults and elders
- Recognise and support those with special needs and requirements
- Encourage the development of partnerships for the delivery of services and programmes

- Promote opportunities for people and communities to connect with each other
- Protects, conserves and maintains Horowhenua's heritage resources
- Provide opportunities for access to local history and heritage resources
- Operate a dedicated youth space that encourages and promotes inclusion, safety and interaction in both structured and unstructured settings.

What has changed since the 2018-38 LTP?

- Shannon Library was completely refurbished in 2020.
- The Education suite was repurposed in 2020 as a result of a Provincial Growth Fund grant to create a business hub for the district.

Challenges Council faces for this Activity

- There are no significant challenges Council faces for this Activity.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this activity.

Key Risks and Assumptions associated with this Activity

- There are no known risks to this Activity.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Community centres and libraries operate within the District.	<p>Vibrant Economy</p> <p>Community Centres and Libraries contribute to the local economy through employment and financial sustainability.</p> <p>Strong Community</p> <p>Community Centres and Libraries provide opportunities for people of all ages and all phases of life to enjoy quality of living and contribute to providing a 'sense of place' where people are proud to live.</p> <p>Community Centres and Libraries provide opportunities for social connection and inclusion and opportunities for all cultures in the District and can be a place where cultural diversity is celebrated.</p> <p>'Fit for Purpose' Infrastructure</p> <p>Community Centres and Libraries are reliable, efficient and well run.</p> <p>Partnership with Tangata Whenua</p> <p>We value the objectives and goals of Tangata Whenua within the provision, development and operation of Community Facilities.</p>	Funder/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council provides community facilities for residents, ratepayers, and visitors to access Community services including library services.	Vibrant economy	Communities with library and community facilities providing an integrated and District wide service.	Levin, Foxton, and Shannon	Levin, Foxton, and Shannon	Levin, Foxton, and Shannon	Levin, Foxton, and Shannon
	Strong Community					
	'Fit for Purpose' Infrastructure					
	Partnership with Tangata Whenua

		Shannon Library)	≥25,000	≥165,000	≥30,000	≥30,000
				≥25,000		

What does this tell me?

Council recognises the importance of libraries as social hubs for learning and literacy in the Community. Council sets out to provide a relevant library service and community facilities that people can enjoy throughout the District.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Libraries and community facilities meet the public's needs.	'Fit for Purpose' Infrastructure	Percent of residents and non-residents satisfied with library and Community services based on the Annual Customer Satisfaction Survey.	>90%	>90%	>90%	>90%
	Strong Community					
	Partnership with Tangata Whenua					

What does this tell me?

The percentage of satisfied customers gives us an indication of the quality of service we are providing.

Community facilities are available for public use.	'Fit for Purpose' Infrastructure	Number of booking counts for community facilities.	≥ 1,400	≥ 1,500	≥ 1,600	≥ 1,700
	Vibrant economy		70%	65%	60%	60%
	Strong Community	Te Takeretanga o Kura-hau-po	30%	35%	40%	40%
	Partnership with Tangata Whenua	Te Awahou Nieuwe Stroom				

What does this tell me?

This measure is used to ensure the community facilities are being utilised.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Customers have access to a range of current information in both print and digital format.	'Fit for Purpose' Infrastructure	Number of items loaned from the libraries across the District, including books, magazines etc.	≥ 270,000	≥ 270,000	≥ 300,000	≥ 320,000
	Strong Community	Collections are refreshed and meet the literacy and information needs of the community in accordance with the NZ Public Library Standards	\$7 per capita spent on library resources	\$7 per capita spent on library resources	\$7 per capita spent on library resources	\$7 per capita spent on library resources
		Percent of increase in use of websites and online engagement	+>1%	+>1%	+>1%	+>1%
What does this tell me? Council sets out to provide a modern and relevant library service. The number of loaned items would indicate the range of loanable items is current and relevant. The growing use of the library website indicates Council provides a modern library service that people use and enjoy.						
Customers have access to programmes and initiatives that enhance the wellbeing of the District.	'Fit for Purpose' Infrastructure	Number of programmes delivered:	500	500	500	500
	Strong Community	Levin	≥ 50%	≥ 50%	≥ 50%	≥ 50%
	Vibrant economy	Foxton	≥ 30%	≥ 30%	≥ 30%	≥ 30%
		Shannon	≥ 20%	≥ 20%	≥ 20%	≥ 20%
	Partnership with Tangata Whenua					
What does this tell me? Council sets out to provide a relevant library service that people can enjoy throughout the District.

Property

The Council owns a substantial number of properties throughout the Horowhenua District which support the delivery of Council's activities. The Property Activity ensures that these assets are managed and maintained effectively.

What Property involves:

- Management, maintenance, purchase and disposal of Council owned property.
- Granting of permits and community and commercial leases and licences.
- Undertaking this activity in accordance with the Property Strategy 2015, which informs future decision-making on maintenance, investment and/or disposal of property.

Council owns a range of properties including:

- The Council administration building in Levin.
- Endowment property - Council owns land in Foxton Beach that was formerly owned by the Foxton Harbour Board. Much of this land is subject to perpetual 21-year leases including a number of residential properties with rights of purchase. Though there are a number of other properties including Gazetted Reserve, development land, and the Foxton Beach Holiday Park.
- General Properties and land including - historic and cultural buildings, depots, carparks, and residential and commercial land.
- Council has interest in two campgrounds being Waitarere Beach Motor Camp and Playford Park Motorcamp both of which are full operational Leases in the General Property sub-activity.

What has changed since the 2018/38 LTP?

- Horowhenua is projected to show significant growth over the next 20 years. The initial sections created by Council's subdivision at Foxton Beach have all been purchased and Council is now looking at a second stage of the subdivision.
- There has been a shift in the demographic choosing to settle in the Horowhenua with 0-14 year olds; 15-39 year olds; and 40-64 year olds set to grow by an average of 3% a year, and 65 years plus to grow by an average 2% per year over the 30 year period concerned.
- All property service contracts have expired and been extended.
- The Commercial Property portfolio has been sold.
- The property team has introduced an Asset Management System to maintain and keep record of all property assets and generate a renewals program.
- Council has resolved to evaluate its property portfolio in terms of core and non-core properties. The non-core property portfolio will be considered for divestment.
- Council has resolved to dispose of its Memorial Halls portfolio being Foxton Memorial Hall, Shannon Memorial Hall, and Levin Memorial Hall. Whilst details are still to be worked through it is likely Foxton and Shannon will be disposed of to Community Groups, with Levin memorial hall being repurposed as a small business incubator/office facility as part of the Transforming Taitoko agenda.

Challenges Council faces for this Activity

- A key challenge facing Council for this Activity is changing demands and Community expectations with the use of some of Council's facilities.
- Declining use for some facilities alongside an increase in their operational costs.
- Demand for other Council owned facilities are increasing and therefore Council needs to decide where to focus its funds. This issue will be met by ensuring that as key property assets are developed they are designed to be multi-use and flexible enough to cope with the change in demands and expectations.
- Another challenge is that the District's demographic projections have changed with growth predicting that there will be an 8% increase in persons below 65 compared to 2% of those over 65. This will require the development of active recreational facilities for a range of ages between 2021 and 2041
- A number of Council's buildings have been identified as earthquake prone. With new legislative requirements to upgrade earthquake prone buildings Council must decide the future of these buildings.

Significant negative effects on the wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding Council's planned Property Activity.

Key Risks and Assumptions associated with this Activity

- A key assumption for this activity is that Council's Property portfolio will continue to be assessed as core/non-core and readied for sale as necessary
- A key assumption for this Activity is that earthquake prone properties will be maintained in a fit for purpose state, unless identified for disposal as non-core assets.
- A key assumption is that renewals will continue to be completed as scheduled.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Management and maintenance of Council owned properties.	<p>Vibrant Economy</p> <p>This activity considers the sale of Council property to facilitate growth</p> <p>This activity provides leases and licences to support diversity and resilience in the community.</p> <p>Outstanding Environment</p> <p>This activity ensures the portfolio provides for the wellbeing of people by providing community leases for community centres, and provides land for community funded activities e.g. Surf Lifesaving clubs.</p> <p>Fit for Purpose' Infrastructure</p> <p>This activity is responsible for maintaining Council facilities to meet the needs of current and future populations</p> <p>This activity facilitates growth by providing development land</p> <p>Partnerships with Tangata Whenua</p> <p>This activity involves Tangata Whenua in its strategic and developmental activities and in so doing recognises the role of Mana Whwnua as Kaitiaki of their rohe.</p> <p>Strong Community</p> <p>This activity values the diversity of our people and facilitates the use of Council land for community activities in recognising that diversity</p> <p>This activity consults with community stakeholders and in so doing enables local decision making</p> <p>This activity provides land via various leasing arrangements to facilitate social and cultural connectedness</p> <p>This activity provides facilities that allow people to live positive and healthy lifestyles</p>	Funder/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council operated facilities are available for public hire.	Fit for Purpose Infrastructure Strong Community	Facilities availability (hrs) and hire charges by annual review.	8 hrs per day	8 hrs per day	8 hrs per day	8 hrs per day
What does this tell me? Halls provide public spaces for local Communities to come together and participate in sport, social or other Community events. This measure shows Council promotes the use of public space, the halls are available and hire charges are set to recover a proportion of cost.						
Council's properties will comply with relevant legislation.	Fit for Purpose Infrastructure Strong Community	All buildings with compliance schedules will have current building WOF.	Achieve	Achieve	Achieve	Achieve
What does this tell me? It is extremely important to Council that our buildings are safe for everyone to use.

Community Infrastructure

The Community Infrastructure Group of Activities is made up of a number of sub-activities, which aim to provide both passive and active amenities for the Community to use.

The Community Infrastructure Group of Activities include:

- **Reserves and Beautification**
- **Public Halls**
- **Public Toilets**
- **Sports Grounds**
- **Cemeteries**

Reserves, Sports Grounds, Cemeteries, Beautification, Urban Cleansing, Public Halls, and Public Toilets

This Activity aims to provide management of reserves, sports grounds cemeteries, street beautification, urban cleansing, public halls and public toilets.

What Reserves and Beautification, Public Halls, Sports Grounds and Cemeteries involves:

- Maintenance of neighbourhood reserves, riverside and lakeside picnic areas, public gardens, and sports grounds.
- Maintenance of street trees and street gardens
- Mowing of berms, rubbish bin emptying, and the urban roading weed spraying program
- Providing Reserve Management Plans for Council reserves.
- Maintaining public halls in Levin, Foxton and Shannon.
- Establishment and maintenance of public toilets for the purpose of tourism and public health.
- Establishment and maintenance of cemeteries under the Burial and Cremation Act 1964.

What has changed since the 2018-38 LTP?

- Horowhenua is projected to show significant growth over the next 20-years and the demographic has changed with an 8% growth rate in the estimated under 65 bracket. As such, Council needs to consider enlarging and developing its active recreation offering whilst continuing to service a 2% growth in over 65's.
- In preparation for actively managing Levels of Service in the face of an increasing and younger age group, Council introduced an Asset

Management System for the community services assets and generated a renewals program.

- Council uses its area based RMPs to assist in measuring supply and demand, in relation to a significant increase in subdivision activities.

Challenges Council faces for this Activity

- Changes in levels of demand and Community expectations are challenges facing Council for this Activity. These challenges are addressed by ensuring that reserves and sports grounds are developed to be multi-use and flexible enough to cope with changes in demands and expectations.
- In the context of cemeteries and Horowhenua's changing demographic, there will be the need to consider less traditional users which may necessitate developing options for natural burials and/or changes to plot depth, size and orientation. Use of some facilities may also be a challenge, with usage decreasing and operational costs increasing.
- The accelerated growth will also support the need to maintain sufficient funding to maintain existing Level of Service and expansion of the network via subdivision or other means. In addition, a lack of asset knowledge and condition together with deferred maintenance funding will require higher expenditure to maintain existing Levels of Service in the short-term.
- Due to the lack of growth in the past, there has been a lack of strategic long-term planning for sports grounds and reserves assets, cemeteries, and shared pathways. The current RMP process, together with the regional facilities plan, should assist in this regard. In an increasingly technology savvy environment there will be the need to develop the e-citizens agenda across the Community Services portfolio.
- Changes to environmental standards may also be a challenge faced by Council. These changes may require Council to consider more riparian planting, dune stabilisation, succession planting than has traditionally been considered in the past, as well as having less

reliance on traditional means of weed control (herbicides). These changes will inevitably result in additional costs.

- Vandalism and graffiti are challenges faced by Council for this Activity. Where possible Council designs assets to CPTED (Crime Prevention Through Environmental Design) standards.
- Another challenge facing Council is that the Community Halls in Levin and Foxton have been identified as being earthquake prone. Council proposes to manage this issue by transferring the halls to local community groups (Foxton Memorial Hall), and/or repurposing them (Levin Memorial Hall). Both Levin Domain Grandstand and Shannon Domain Grandstand are earthquake prone and will need to be strengthened or demolished and rebuilt.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding this Activity.

Key Risks and Assumptions associated with this Activity

- Due to the active nature of some assets used within this Activity, there are varying levels of personal and social risks within some sub-activities. For example, playgrounds contain a range of inherent risks to personal safety. These types of risks are removed or managed by adherence to a range of standards regulating how these assets and activities are to be run.
- Earthquake prone buildings owned by Council will need to be strengthened in line with current legislation, or alternatively considered for disposal.
- There are increased expectations from local community groups that Council will raise its Levels of Service in this activity.
- A deferred renewals program from 2010 until 2016 has led to a 'bow wave' of necessary repairs with some assets failing prior to having been renewed.
- Council is finding itself having to deal with previously unconsidered growth and a change in demographic which is leading to a range of conflicting priorities as it applies to Councils Recreation and Leisure asset.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Maintain public reserves	<p>Outstanding Environment</p> <p>High quality parks, gardens and streetscapes provide for physical and physiological wellbeing of communities</p> <p>This activity provides for the environmental restoration of streams, lakes, and sea-scapes</p> <p>This activity is responsible for maintaining a range of natural features</p> <p>Partnership with Tangata Whenua</p> <p>This activity through consultation with Mana whenua recognises their role as Kaitiaki of their respective rohe.</p> <p>Strong Community</p> <p>This activity recognises the diversity of the community and provides high-quality spaces and places for the purpose of recreation and leisure.</p> <p>This activity meets regularly with resident organisations, clubs, and user groups recognising the interest and pride of those communities in local greenspace and thereby permits local decision making.</p> <p>This activity through its SSP's, RMP's and other strategic documents ensures the provision of community infrastructure in a high growth environment.</p> <p>This activity perceives its service providers as extensions of its role and builds highly collaborative relationships with them in the interest of building stronger and more resilient communities.</p>	Funder / Provider / Advocate
Manage a beautification programme across the District	<p>Vibrant Economy</p> <p>A well-maintained and high-quality streetscape encourages business and residents to relocate to the district</p> <p>Outstanding Environment</p> <p>This activity preserves its environmental assets assigning an amenity value to its street tree asset.</p> <p>This activity preserves a balance between economic growth and the natural environment by preserving key features of its green portfolio (eg Prouse Bush).</p> <p>A well-maintained streetscape improves the psychological well-being of the community.</p> <p>'Fit for purpose' Infrastructure</p> <p>This activity appertains specifically to the roading asset where a good level of maintenance preserves the lifecycle of the asset and mitigates infrastructural damage through line clearance and the clearance of signs.</p> <p>Street gardens help to manage stormwater and street trees improve shading, and act as a carbon sink to reduce the effects of global warming.</p> <p>Strong Community</p>	Funder/Provider

	<p>The Horowhenua has a well-established urban treescape that contributes to its heritage and identity which is maintained under this activity</p> <p>A well-maintained streetscape contributes to healthy psychological outcomes and has been shown to reduce anti-social behaviour and other social inequities.</p>	
Maintain sports grounds for public use.	<p>Outstanding Environment</p> <p>High quality sportsgrounds provide for physical and physiological wellbeing of communities.</p> <p>‘Fit for purpose’ Infrastructure</p> <p>Public sportsgrounds provide for community infrastructure.</p> <p>Development plans of significant sportsground facilitate growth.</p> <p>Partnership with Tangata Whenua</p> <p>This activity through consultation with Mana whenua recognises their role as Kaitiaki of their respective rohe.</p> <p>Strong Community</p> <p>This activity recognises the diversity of the community and provides high-quality spaces and places for the purpose of recreation and leisure</p> <p>This activity meets regularly with resident organisations, clubs, and user groups recognising the interest and pride of those communities in local greenspace and thereby permits local decision making</p> <p>This activity through its SSP’s, RMP’s and other strategic documents ensures the provision of community infrastructure in a high growth environment</p> <p>This activity perceives its service providers as extensions of its role and builds highly collaborative relationships with them in the interest of building stronger and more resilient communities</p>	Funder/Provider
Operate cemeteries	<p>Outstanding Environment</p> <p>Provision of cemeteries provides for the psychological stresses and grief arising from bereavement and in this way supports the wellbeing of the community.</p> <p>‘Fit for purpose’ Infrastructure</p> <p>This activity provides for the needs of existing and future generations</p> <p>This activity provides for affordable places of rest for the community</p> <p>Strong Community</p> <p>Existing and proposed improvements allow for an increasingly diverse population.</p> <p>This activity maintains a range of cemeteries with significant heritage value that contribute to the community’s sense of identity.</p>	Funder/Provider

Undertake Urban Cleansing on the urban residential roading network	<p>Vibrant Economy A well-maintained and high-quality streetscape encourages business and residents to relocate</p> <p>Outstanding environment A well-maintained streetscape improves the psychological well-being of the community</p> <p>‘Fit for purpose’ infrastructure This activity relates specifically to the roading asset where a good level of maintenance preserves the lifecycle of the asset and mitigates infrastructural damage.</p> <p>Strong Community A well-maintained streetscape contributes to healthy psychological outcomes and has been shown to reduce anti-social behaviour and other social inequities</p>	Funder/Provider
Provide and maintain Community Halls	<p>Strong Community Community Halls contribute to the community’s sense of identity and provide heritage</p>	Funder/Provider
Provide and maintain Public Toilets	<p>Vibrant economy This activity contributes to the economy by providing facilities for residents and visitors.</p> <p>Outstanding environment This activity supports the well-being of people living in, or visiting the Horowhenua.</p> <p>‘Fit for purpose’ infrastructure Maintenance of existing, and provision of new facilities in this activity meet the needs of current and future generations.</p>	Funder/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Reserves are available for Community use.	Vibrant Economy	Residential dwellings in urban areas are within 400 metres to local reserves, either Council or privately provided.	≥ 80%	≥ 80%	≥ 80%	≥ 80%
	Outstanding Environment Fit for Purpose Infrastructure Partnership with Tangata Whenua Strong Community	Residential dwellings in urban areas are within 800 metres of playgrounds or destination reserves.	≥ 80%	≥ 80%	≥ 80%	≥ 80%

What does this tell me?

Reserves allow a diverse range of pursuits important to the enjoyment of healthy lifestyles. This measure shows Council that its reserves are located in areas where they are accessible to the public.

Reserves meet local needs.	Outstanding Environment Fit for Purpose Infrastructure Strong Community	Percentage of customers satisfied with the service, based on the Annual Customer Satisfaction Survey.	≥ 80%	≥ 80%	≥ 80%	≥ 80%
----------------------------	---	---	-------	-------	-------	-------

What does this tell me?

The percentage of satisfied customers gives us an indication of the quality of service we are providing.

Sports grounds are available for Community use.	Vibrant Economy Outstanding Environment Fit for Purpose Infrastructure Partnership with Tangata Whenua Strong Community	Percent of time that sport grounds are available for use during their opening hours.	≥ 95%	≥ 95%	≥ 95%	≥ 95%
---	---	--	-------	-------	-------	-------

What does this tell me?

Sports grounds cater for both organised and casual sports. This measure shows Council have grounds available all year round.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Sports grounds are available for Community use.	Vibrant Economy Outstanding Environment Fit for Purpose Infrastructure Partnership with Tangata Whenua Strong Community	Percent of time that sport grounds are available for use during their opening hours.	≥ 95%	≥ 95%	≥ 95%	≥ 95%
What does this tell me?						
Sports grounds cater for both organised and casual sports. This measure shows Council have grounds available all year round.						
Sports grounds meet local needs.	Outstanding Environment Fit for Purpose Infrastructure Strong Community	Number of Customer Request Management complaints reporting of ground conditions per annum	<5	<5	<5	<5
What does this tell me?						
The number of complaints gives us an indication of the quality of service we are providing.						
Playgrounds are safe for users.	Outstanding Environment Fit for Purpose Infrastructure Strong Community	Playground facilities comply with relevant National Playground standards.	Achieve	Achieve	Achieve	Achieve
What does this tell me?						
It is extremely important to Council our playgrounds are safe for everyone to use.						
Community Halls are available for public use.	Strong Community	Number of uses per fortnight for Community Halls.	10	10	10	10
What does this tell me?						
Halls provide public spaces for local Communities to come together and participate in sport, social or other Community events. This measure is used to ensure the Halls are being utilised.

Representation and Community Leadership

This Activity comprises of how Council meets its responsibility to represent and provide leadership for the Community including how Council will involve the Community in its strategic planning and decision making.

What Representation and Community Leadership involves:

- Employing the Chief Executive who is empowered to implement decisions of Council
- Hosting Local Body elections
- Encouraging Horowhenua residents to become involved in Council activity and communicating Council decisions
- Council, Committee and Community Board meetings
- Setting the strategic and policy direction of Council. This includes preparing the key strategic policy and planning documents such as the Long Term Plan and Annual Plans.
- Reviewing the District Plan and preparing plan changes. Monitoring the District's State of the Environment and efficiency and effectiveness of the District Plan.
- Representing the views and interests of residents.

What has changed since the 2018-38 LTP?

- Changes to the Resource Management Act in 2020 involved rolling back a number of the changes introduced by the previous government as part of the Resource Management Amendment Act 2017, such as the removal of the Collaborative Planning Process and retention of Financial Contributions. Also included were some additional provisions intended to reduce complexity and support the Government's other

initiatives to improve freshwater management and freshwater outcomes

- The first set of National Planning Standards came into force on 3 May 2019. These standards focus on providing national consistency for the structure, form, definitions and electronic accessibility of District Plans. Most councils have five years to adopt these National Planning Standards into their plans, with the exception of the basic electronic accessibility and functions standard where there was a one year timeframe and the definitions standard where there is a seven years' timeframe.
- Local Government Amendment Act 2019 which restored community wellbeing to the purpose of local government.
- Waka Kotahi identified a 300m wide preferred corridor in December 2018 for the Ōtaki to North of Levin (Ō2NL). They are still in the process of confirming a preferred alignment for the expressway within this corridor.

Challenges Council faces for this Activity

- A key challenge faced by Council is how to make local government more relevant for our residents and ratepayers as well as how to encourage positive and active engagement in Council's decision making processes.
- Another challenge is the impact that future changes in legislation could have on Council and its responsibilities and functions. Likely reform of the Resource Management Act may mean Council Officers will be required to understand and implement a new system for environmental management.
- Council is also conscious of protecting its reputation, both within the local Community but also nationally and with key stakeholders.

Council's reputation is critical to working with others (such as Central Government Agencies) in the pursuit of Community Outcomes.

- The District is experiencing higher levels of growth than it has faced in the last 20 years. This combined with the significant investment that has been made in the expressway and highway improvements to the south of the Horowhenua District, and the development of an expressway from Ōtaki to North of Levin, make it crucial that Council ensures it balances its planning for growth with achieving the best outcomes for the community
- Council must work towards giving effect to the first set of National Planning Standards in the next four to six years. Where possible these will be given effect to as Council undertakes plan changes.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding Council's planned Representation and Community Leadership Activity.

Key Risks and Assumptions associated with this Activity

- A key assumption is that the Ōtaki to North of Levin Expressway will be constructed during the period of this LTP and that the associated future planning for the District including the redevelopment of the Levin Town Centre will need to be undertaken. A risk is that the proposed Expressway is delayed and timeframes are pushed out, which may impact on the level and speed at which growth occurs in the District.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
<p>Hosting local elections.</p> <p>Engaging and informing residents of decisions of Council.</p> <p>Represent the views and interests of residents.</p> <p>Gain the trust and confidence of district residents, by being open, transparent and accountable.</p>	<p>Vibrant economy</p> <p>Through the Long Term Plan and Annual Plans, residents and district-wide views and aspirations will be listened to, challenges will be recognised and decisions made in the best interests of the district.</p> <p>Strong community</p> <p>Elected members are effective, responsible and accountable for the decisions they make. With strong governance and leadership, decisions will be made through a transparent and accountable process where residents feel they are listened to, have trust and confidence in Council.</p> <p>Partnership with Tangata Whenua</p> <p>As Te Tiriti o Waitangi partners, Tangata Whenua and Māori will have meaningful engagement and their views listened to. Through enhanced relationships there will be increased opportunity for Māori to contribute to the decision making process of Council.</p>	Provider/Advocate
<p>Reviewing the District Plan, monitoring the effectiveness of the District Plan, and preparing or processing Plan Changes/Variations.</p>	<p>Vibrant economy</p> <p>The District Plan plays a crucial role in providing for business activities. The use of different zones helps to ensure that there is sufficient opportunity for different business activities to establish and operate locally, supporting a healthy local economy.</p> <p>Outstanding environment</p> <p>The District Plan works to ensure that as our communities change and grow that any adverse effects on the natural and physical environment are managed sustainably.</p> <p>Partnership with Tangata Whenua</p> <p>We work with tangata whenua through the development of Plan Changes and the review of the District Plan to ensure that the things important to them are understood and where possible provided for.</p> <p>Strong community</p> <p>Plan Changes and the review of the District Plan are public processes and Council encourages its people to actively participate in these to help ensure that the provisions put in place meet the needs of our local communities. The District Plan is instrumental in ensuring the development of safe, healthy and well-connected communities. It also aids in the protection of local heritage.</p>	Provider

Preparing the key strategic policy and planning documents of Council.

Strong community

Community wellbeing is at the heart of Council's strategic policies and plans, with Council's Horowhenua 2040 Strategy and its vision for our community being firmly based on this concept. Council's key strategic documents may serve different purposes but they all aim to build stronger. Our strategic documents do this by supporting specific activities (e.g. economic development or affordable housing), or by providing support to specific parts of our communities (e.g. youth or the elderly) to ensure that the diverse needs of our communities are met.

'Fit for purpose' infrastructure

The LTP provides for the maintenance and growth of Council's infrastructure and identifies how this is going to be funded. This forward planning aims to ensure that our infrastructure remains fit for purpose and that the needs of current and future generation can be met.

Provider/Enabler

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council provides open, accessible information and processes to local government and the Community.	Strong Community	Number of successful challenges to Council's decision making processes. LGOIMA requests responded to within 20 working days. Official Information requests are processed in accordance with the LGOIMA.	<2	<2	<2	<2
			>90% compliance rate	>90% compliance rate	>90% compliance rate	>90% compliance rate

What does this tell me?

Council seeks to strengthen democracy through facilitating Community input to decision-making processes. Council is required to comply with the Local Government and Official Information and Meetings Act.

Council supports residents and ratepayers to have their views heard and considered in Council decision making.	Strong Community	Percent of residential and non-residential ratepayers who are satisfied with the way Council involves the public in its decision making, based on the Annual Customer Satisfaction Survey	>50%	>50%	>50%	>50%
Council supports residents and ratepayers to have their views heard and considered in Council decision making	Strong Community	Council will pre-engage on all significant decisions as outlined in the Significance of Engagement Strategy found on Council's website.	Achieve	Achieve	Achieve	Achieve

What does this tell me?

The percentage of satisfied people gives us an indication of the quality of public involvement in Council decision making. Through pre-engagement on significant decisions, Council is engaging with the Community beyond what is legally required.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council's planning documents meet statutory requirements and have unqualified audit opinions.	Vibrant economy	The LTP is completed within the statutory timeframe, including a Financial and Infrastructure Strategies which meets the requirements of the Local Government Act.	Adopted before 30 June (every 3 years)	Adopted before 30 June (every 3 years)	Adopted before 30 June (every 3 years)	Adopted before 30 June (every 3 years)
	Outstanding environment					
	Strong community	The Annual Plan will be adopted before 30 June annually.* The Annual Report will include an unqualified audit opinion.	Achieve	Achieve	Achieve	Achieve
	Partnership with Tangata Whenua					
	'Fit for purpose' infrastructure					

What does this tell me?

Council will meet its statutory requirements regarding planning and reporting documents.

The District Plan provides for a balanced regulatory framework that protects important community and environmental values.	Vibrant economy	Percent of non-complying resource consents approved as a proportion of all approved consents.	<10%	<10%	<10%	<10%
	Outstanding environment					
	Strong community					
	Partnership with Tangata Whenua					

What does this tell me?

Good planning supports sustainable growth and development. It protects natural and built environments and helps maintain quality of life for our residents. This measure shows whether the District Plan is performing effectively. If the number of consent applications being approved as non-complying activities is above 10% it would suggest the District Plan needs to be updated to support growth and development that is considered appropriate for the District.

* Every third year a LTP is prepared in the place of the Annual Plan.

Community Support

The Community Support Group of Activities is made up of a number of sub-activities which aim to provide for the Community's social and economic wellbeing.

These Activities are:

- **Emergency Management**
- **Community Engagement**
- **Visitor Information**
- **Economic Development**

Emergency Management

The Emergency Management Activity aims to ensure the Horowhenua District is ready for, and able to respond to emergencies or natural hazards that may cause loss of life, injury, or illness.

What Emergency Management involves:

- Facilitating community resilience and emergency preparedness planning with external agencies and community groups through the Manawatū-Whanganui Emergency Management Group and the Horowhenua Emergency Management Committee. This includes identifying hazards and developing and implementing measures to minimise impacts (reduction).
- Ensuring plans are in place and that the Community is aware of the 'hazardscape' and is prepared (reduction).
- Engaging with, and educating, our Community about 'Being Prepared' (readiness).
- Providing a fully functional Emergency Operating Centre (EOC) to co-ordinate response activities during an emergency. Ensuring critical services can be provided during and after an emergency (response).
- Co-ordination of recovery activities (recovery).
- Being an active member of the Manawatū-Whanganui Civil Defence Emergency Management Group.

What has changed since the 2018/38 LTP?

- There has been an increased awareness in general about emergency management due community response plans and recent events. Coupled with the appointment of a full time Emergency Management Officer position, the level of promotion has increased.

Challenges Council faces for this Activity

- Council has faced a worldwide pandemic, which does not currently have a vaccination programme. The pandemic is a health led activity that could result in the shutdown of city, region or the country. The resurgence of this pandemic has a major impact on the community, business sector and staff who form part of the emergency management team. Council also have a much higher level of scrutiny and audit because of disasters in this country including the Canterbury and Kaikoura Earthquakes. Together this means a deeper level of commitment of staff time for EOC training and exercises as well as from Council managers and Civil Defence Emergency Management EOC function managers (and associated team members), for regular planning and reviewing of processes associated with the various emergency management functions.
- Another challenge Council faces for this Activity is obtaining accurate and up-to-date information on potential hazards (e.g. liquefaction and sea level rise) and how they might affect this District.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- Psychological wellbeing has become more of an issue that we need to be aware of and have a focus on both within the community and our Council. We saw a lot of pressures placed on people during the pandemic that we don't necessarily see in general.
- Council has an obligation to provide staff to be trained to perform duties under the Emergency Management function and to plan and review processes which will take core staff members away from their core duties.

Key Risks and Assumptions associated with this Activity

- A key risk for this activity is ensuring there is sufficient staff that are trained to respond to emergency events.
- Natural disasters including floods, earthquakes, erosion, and drought will all impact the emergency responders and the community.
- Health pandemics within the community and New Zealand puts further pressure on this activity and emergency services in general. The impact on local businesses and community wellbeing adds further complication to the recovery of the district

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Emergency management and services are provided for the Community.	<p>Strong community</p> <p>A strong focus on community readiness and response prior to an emergency event occurring, helps to build community resilience in an emergency event. During an event the Emergency Management Activity provides community support to ensure basic needs are met and our community is supported as required.</p> <p>A key part of the Emergency Management function is working in collaboration with other agencies or service providers to support affected communities.</p> <p>Partnership with Tangata Whenua</p> <p>Partnerships with tangata whenua enable the community to access emergency services and support the recovery of the district.</p>	Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Community awareness is promoted and encouraged.	Strong Community	12 media messages promoting preparedness for an emergency will be made to residents and ratepayers annually*.	Achieve	Achieve	Achieve	Achieve

What does this tell me?

Council is working with the Community to build greater resilience to emergencies and disaster events, and to help our District recover faster.

Council maintains a functional EOC and trained staff.	Strong Community	Civil defence and emergency management assessment of readiness and capability.	80% of Council staff with EOC roles	80% of Council staff with EOC roles	80% of Council staff with EOC roles	80% of Council staff with EOC roles
---	------------------	--	-------------------------------------	-------------------------------------	-------------------------------------	-------------------------------------

What does this tell me?

Council will take the lead in a civil defence or emergency event and will have the capacity and capability to do so.

** This measure will include increased emphasis on monitoring Activity associated with individual, household, neighbourhood and community preparedness.*

Community Engagement

The Community Engagement Activity aims to enhance community wellbeing within the Horowhenua District, to improve Council's cultural competency and ensure the Community is informed of Council's activities. This Activity is made up of three sub-activities being Community Development, Cultural Outcomes and Communications.

What Community Engagement involves:

Community Development

- Support delivery on the Horowhenua Community Wellbeing Framework.
- Implement Community Wellbeing Action Plan (s).
- Support community-led development within the Community to help the community respond to local needs.
- Advocate on behalf of the Community for better health, safety, housing and social belonging outcomes through the Community Wellbeing Committee.
- Facilitate a Community Capacity Building Programme: provide free or subsidised training to the not-for-profit sector with the aim to increase their ability to respond to the community's needs.
- Provide funding support for local Surf Life Saving, Waitārere and Foxton Beach Wardens, Neighbourhood Safety providers and Neighbourhood Support.
- Support communities creating Community Plans
- Provide the following contestable grant schemes:
 - Community Development Grant
 - Community Consultation Grant
 - International Representation Grant
 - Vibrant Communities Fund
 - Horowhenua Events Grant
- Provide administrative support to externally funded contestable grant schemes:
 - Horowhenua Creative Communities Scheme

- Shannon Community Development Trust

Communications

- Produce and distribute Council publications – (e.g. press releases, Community Connection, ElderBerries, public notices, and strategies).
- Monitor, update and create relevant content for social media.
- Maintain and update Council's website presence - www.horowhenua.govt.nz.
- Respond and provide information to media outlets.
- Support the creation of Council's key strategic documents
- Undertake a yearly resident satisfaction survey.
- Ensure internal staff and Elected Members are kept up to date with what Council is doing.

Cultural Outcomes

- Create and support delivery of Council's Māori Engagement Strategy
- Support staff to be equipped in Tikanga Māori
- Provide opportunities for the community to celebrate our diverse cultures
- Develop protocols and processes for Council which enhance participation by different cultures

What has changed since the 2018/38 LTP?

- The Community Engagement Activity has grown to include Cultural Outcomes.
- The change in Government saw the restoration of wellbeing into the Local Government Act.

Challenges Council faces for this Activity

- A challenge facing Council for this Activity is the change in community expectations for engagement. This is, in part, due to the growing population who bring with them different challenges and expectations. This challenge will be met by ensuring that the services provided by the Community Engagement Activity will be developed to ensure that they are meeting the needs of their target audience as well as the wider Community and to ensure that they are flexible enough to cope with these changing demands and expectations.
- Another challenge is the need to stay connected to Central Government's Strategic Policies and Direction for providing for community engagement and community wellbeing while maintaining a focus on the needs of our local Communities.
- Funding requests are regularly higher than the limited funding that is available and these funds must be allocated to a wide range of community organisations, not just a few.
- Council is often viewed as the effortless driver of community projects and are therefore approached regularly to lead activities. As Council is moving towards Community-Led projects, building capacity in the community and other organisations is a measure to develop capability and less of a reliance on Council.
- Difference in understanding of what iwi partnership means across the organisation and within the community.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding Council's planned Community Engagement Activity.

Key Risks and Assumptions associated with this Activity

- An assumption is that the role of local government will continue to include community wellbeing as a core service and outcome.
- Despite the growth in population, an assumption has been made that the target population areas which currently form our Networks and Forums such as Young People and Older People, will remain the same.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Facilitate a Youth Council and Community networks and forums.	Strong community Council's networks and forums provide a platform for those who may not otherwise have a voice to participate in local decision making and come together to achieve outcomes collectively.	Provider
Advocate for better health, safety, housing and social belonging outcomes	Strong community The Community Wellbeing Committee brings together representatives from key target groups, service providers and government organisations to identify priority areas. The committee enables collective action to achieve better outcomes.	Advocate
Contestable Grant Schemes are provided.	Strong community The Grant Schemes provide an opportunity for groups and organisations to contribute positively to the community.	Funder
Administration of externally funded Grant Schemes.	Strong community Administering the external grant schemes gives the community access to funding to support their initiatives and community-led activities.	Provider
Contracted services are managed.	Strong community Council supports services which provide support for the community helping our people to be connected and safe.	Funder
Capabilities training for the non-profit sector is provided.	Strong community Council supports non-profit organisations by providing opportunities to upskill and build capability, which in turn allows the organisations to support communities to become resilient and connected.	Funder
Perform Council's communication function.	Vibrant economy Council's communications function assists in telling the district's Growth story, capturing opportunities. Additionally, the business sector is a key stakeholder whom Council communicates with regularly to provide information and support. Outstanding environment We utilise a number of different mediums to communicate with the community, not only to ensure we are reaching a wide audience, but to also use sustainable resources such as web based modes instead of print. Strong community	Provider

Council's communications function shares and celebrates the stories of our diverse community and shows how these differences contribute to our community's identity.

The function promotes and encourages ways in which our people are able to participate in Council processes.

Partnership with Tangata Whenua

Council's communication function follows Te Puni Kōkiri guidelines for best practice to ensure information and signage engages with Māori and supports Te Reo Māori to be more visible.

Opportunities are available for the community to celebrate our vibrant cultures	Strong community By providing a platform for cultures to come together and share their uniqueness and celebrate their identity, our people build pride and connection to each other and their wider community.	Provider
Council upholds Te Tiriti o Waitangi and its principles	Partnerships with Tangata Whenua Council is committed to partnering with tangata whenua. This is achieved through following the principles of Te Tiriti o Waitangi and by working alongside tangata whenua in a partnership that is mutually beneficial. Officers are provided opportunities to learn how to achieve this and supported in undertaking their role successfully.	Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council provides effective leadership in advocating, coordinating and facilitating on behalf of Community needs.	Strong community Partnership with Tangata Whenua	Number of Community Wellbeing Committee meetings per year.	≥4	≥4	≥4	≥4
What does this tell me? The Community Wellbeing Committee is the platform for community engagement with Council facilitating and coordinating on behalf of the Community to find solutions to respond to local needs.						
Young people in the Horowhenua live in a safe and supportive environment, which empowers them to make positive life choices.	Strong community	Number of Youth Empowerment Project meetings per year.	≥8	≥8	≥8	≥8
		Number of programmes or projects implemented by Youth Empowerment Project	≥4	≥4	≥4	≥4
		Number of Youth Services Network meetings per year.	≥6	≥6	≥6	≥6
What does this tell me? Council is engaging with young people and supporting programmes or projects with a youth focus.						
Horowhenua residents are empowered to make choices enabling them to live a satisfying and healthy lifestyle.	Strong community	Number of Older Person Network meetings per year.	≥6	≥6	≥6	≥6
		Number of Elderberries magazine publications annually.	≥4	≥4	≥4	≥4
What does this tell me? Council is engaging with the older people and keeping them informed.						
Horowhenua is a vibrant, creative and friendly Community with an abundance of art, rich cultures and a strong sense of heritage.	Strong community	Number of Creative Communities funding rounds per year.	≥2	≥2	≥2	≥2
What does this tell me? Council supports arts and culture in the District by providing administrative support to externally funded contestable grant schemes.						

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Horowhenua is New Zealand's foremost District in taking joint responsibility for the success of our Community through education.	Strong community	Number of Education Horowhenua meetings per year.	≥4	≥4	≥4	≥4
What does this tell me? Council is leading the way in a collaborative approach to education in the District via the Education Horowhenua group.						
Horowhenua is fully accessible to all people.	Strong community	Number of Access and Inclusion Leadership forums per year.	≥4	≥4	≥4	≥4
What does this tell me? Council supports United Nations Convention of Rights of Persons with Disabilities. The Convention guides how to remove barriers and make sure disabled people have full and equal enjoyment of all human rights and fundamental freedoms.						
Council promotes community group empowerment and provides opportunities for Community driven initiatives and projects, and to grow and develop.	Strong community	Number of Community Capacity and Capability Building Programme workshops or trainings offered.	≥10	≥10	≥10	≥10
		Percent of satisfaction with Capacity and Capability Building Programme workshops or training.	≥85%	≥85%	≥85%	≥85%
		Number of individuals participating in Capacity and Capability Building Programme workshops or training over the year.	≥200	≥200	≥200	≥200
What does this tell me? Council provides opportunities for Community driven initiatives and projects by distributing funds through a contestable grants and funding scheme. Council also promotes community group empowerment via the Capacity and Capability Building Programme where the percentage of satisfaction gives an indication of the quality of the programme provided.						
Council supports beach safety initiatives within Communities by providing financial support.	Strong community	Number of weeks Council funded surf lifesaving service is provided at Foxton and Waitārere Beaches.	≥6	≥6	≥6	≥6

What does this tell me?

Public safety while enjoying the District's beaches is very important to Council. Council funds surf lifesaving services at two of the District's most popular beaches during peak season.

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council effectively communicates with its ratepayers and residents.	Strong community Vibrant Economies Outstanding Environment Partnership with Tangata Whenua	Percent of media releases feature in media within 21 days of release	≥60%	≥60%	≥60%	≥60%
		Percent of residents are well informed about what the Council is doing	≥60%	≥60%	≥60%	≥60%

What does this tell me?

Council provides useful and accessible information for the community.

Council provides a variety of ways to access information.	Strong community	Number of Council "Community Connections" newsletters published annually.	≥10	≥10	≥10	≥10
		Number of new digital services are delivered online annually.	≥2	≥2	≥2	≥2

What does this tell me?

Council offers a variety of mediums to engage with the community.

Council provides a 24/7 telephone contact centre operation.		Telephone contact is continually provided 24/7.	Achieve	Achieve	Achieve	Achieve
---	--	---	---------	---------	---------	---------

What does this tell me?

Council can be contacted any time even out of normal business hours.

Council staff are knowledgeable in tikanga māori and the principles of Te Tiriti o Waitangi	Partnership with Tangata Whenua	Percent of staff who have undertaken training.	60% of Council staff	80% of Council staff	80% of Council staff	80% of Council staff
---	---------------------------------	--	----------------------	----------------------	----------------------	----------------------

What does this tell me?

Council upholds Te Tiriti o Waitangi and its principles.

Visitor Information

The Visitor Information Activity manages the provision of visitor information services in Levin and Foxton.

What Visitor Information involves:

- Domestic travel and accommodation bookings.
- Horowhenua attractions, activities and accommodation bookings.
- Local regional and national visitor information, travel maps and resources.
- Working partnerships with local tourism providers & operators to promote local experiences.

What has changed since the 2018/38 LTP?

- Levin and Foxton i-SITE services are delivered by Council, from Council run facilities.

Challenges Council faces for this Activity

- Maintaining the current levels of funding support in the absence of receiving income generated from this Activity.

- Another challenge is balancing the requirements of visitor and local customers as this blurs the line between economic and community wellbeing outcomes and funding mechanisms.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding Council's planned Visitor Information Activity.

Key Risks and Assumptions associated with this Activity

- There are no known risks or assumptions associated with Council's planned Visitor Information Activity.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Visitor information services are offered throughout the District.	<p>Vibrant economy Providing an opportunity for local tourism operators to promote their products/services to local consumers as well as visitors to the district. Locally and throughout the i-SITE Network</p> <p>Strong community Council is committed to the promotion of attractions, products and services that our region has to offer. We are also committed to providing relevant and appropriate information to our community for any tourism enquiries they may have.</p>	Funder

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council supports the promotion of Horowhenua as a tourism destination.	Vibrant economy	i-Site accreditation is maintained at Te Awahou Nieuwe Strom and Te Takeretanga o Kura-hau-pō facilities.	Achieve	Achieve	Achieve	Achieve
	Strong community	Annual number of visitor information enquiries conducted from Horowhenua i-Sites.	≥10,000	≥10,000	≥10,000	≥10,000

What does this tell me?

i-Site is a visitor information network with over 80 visitor centres throughout New Zealand and offers an excellent platform for local operators and service providers to sell their businesses and for the District to promote local events and public amenities. The i-Site brand is managed by Tourism New Zealand and various standards must be met to maintain accreditation.

Economic Development

The purpose of the Economic Development Activity is to facilitate economic growth to support improved social and economic wellbeing in the Horowhenua District

What Economic Development involves:

- The District is poised for significant change and has the opportunity to considerably advance its economic wellbeing and prosperity. This will require quality leadership and decision making, as well as, co-ordinated action with businesses and the wider community to take advantage of available opportunities.
- During 2018, the Horowhenua New Zealand Trust was contracted to deliver economic development for the District. This arrangement will continue in 2020/2021.

What has changed since the 2018/38 LTP?

- No significant changes have occurred in Economic Development since the 2015-25 LTP.

Challenges Council faces for this Activity

- A challenge faced by Council in relation to economic development is realising Horowhenua District's economic potential over the coming

years. This will require quality leadership and decision making with an appropriate level of strategic and operational resourcing.

- Co-ordinated action is imperative if the District is to fully realise its opportunities. Council needs the support of businesses and the wider Community to help facilitate economic growth and prosperity in Horowhenua.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding Council's planned Economic Development Activity.

Key Risks and Assumptions associated with this Activity

- There are no known risks or assumptions associated with Council's planned Economic Development Activity

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Business sector support and advocacy.	Vibrant economy	Provider/Advocate
Sustainable natural resource utilisation.	Vibrant economy	Advocate
Infrastructure and policy development/implementation.	Vibrant economy Outstanding Environment Strong community 'Fit for purpose' infrastructure	Advocate
Workforce skill development, training and education.	Vibrant economy Strong community	Advocate
Horowhenua as a vibrant and sustainable place to live and visit.	Vibrant economy Strong community	Provider/Advocate/ Funder

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Council provides strategic leadership in coordinating Economic Development activities across the District.	Vibrant Economy	Number of Economic Development Board meetings organised per year.	≥10	≥10	≥10	≥10
What does this tell me? Council is committed to coordinating Economic Development meetings to keep encourage initiatives and networking. Below 10 meetings would indicate that Council could do more with the Economic Development Board.						
Council provides opportunities for businesses to collaborate and network resulting in a stronger business sector.	Vibrant Economy Strong Community	Number of business networking meetings organised per year.	≥10	≥10	≥10	≥10
What does this tell me? Council is committed to collaborate and network with the local business sector. Below 10 would indicate Council is not fulfilling its commitment.						
Council advocates for and facilitates business development and new business investment in the Horowhenua District.	Vibrant Economy 'Fit for purpose' infrastructure	Percent of the District's Business Community that are satisfied or more than satisfied with Council's overall performance in the Economic Development Activity.	>75%	>75%	>75%	>75%
What does this tell me? The percentage of satisfied customers gives us an indication of the quality of service we are providing.

Regulatory Services

The Regulatory Services Group of Activities provides advice, consenting services, assessment, education, compliance and enforcement. This Group of Activities aims to protect the health and safety of our Community and the environment they live within.

The Regulatory Services Group of Activities includes the following Activities:

- Resource Consenting
- Building Consenting
- Environmental Health
- Alcohol Licencing
- Parking Enforcement
- Building Compliance
- Resource Management Compliance
- Animal Control
- General Regulatory Services

Resource Consenting

The Resource Consenting Activity is undertaken to ensure Council is meeting its obligations under the Resource Management Act (1991).

What Resource Consenting involves:

- Processing resource consents and other applications made under the Resource Management Act.
- Providing advice to the public on the District Plan and Resource Management Act.
- Processing section 223 and 224 applications to certify approved subdivision applications.
- Engagement with the planning industry to stay informed about best practice and relevant issues.
- Provision of planning information relating to building consent applications.

What has changed since the 2018-38 LTP?

- The Resource Management Amendment Act 2020 was enacted on 30 June 2020. This Act resulted in a range of changes for consenting process, such as the stopping of the clock, preclusions for notification and appeal rights. .
- District Plan changes – Plan Changes 1 & 2 became operative in November 2018.
- The population growth experienced by the district is reflected in the level of resource consenting activity increasing.

Challenges Council faces for this Activity

- A key challenge facing Council for this Activity is that there is a level of uncertainty about the implications for Council of the current reforms to the RMA, as well as the development or amendment of National Environmental Standards or National Policy Statements. For example,

implications could result in changes to how resource consent applications are processed or could require the District Plan to be updated or amended.

- Another challenge is balancing the need to provide for and encourage economic development with the desire to ensure that any adverse effects that businesses and their associated activities may have on the natural environment are acceptable, and will not compromise future generations use and enjoyment of natural resources.
- The requirement to apply for resource consents can be perceived by some people as encroaching on private property rights and frustrate property owners who perceive 'over-regulation'. However, requirements relating to the District Plan and resource consents are deemed necessary to protect and sustainably manage the District's natural and physical resources.
- The anticipated growth of the District will place pressure on this Activity. The growth environment is likely to see an increase in the volume and complexity of applications.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

There are no known significant negative effects surrounding this Activity.

Key Risks and Assumptions associated with this Activity

Changes in legislation could result in subsequent changes to the District Plan or changes to how resource consents are processed or monitored, which have not been anticipated. However, it is assumed that Central Government will give local government adequate notice/warning of any potential changes. It is also assumed where major changes are required, there will be an appropriate transition period provided to allow for Council to plan and budget for any required changes.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Processing of resource consents.	Vibrant Economy Is supported by this activity as it contributes to the growth of the district. Outstanding environment Is supported by this service as it involves managing development in accordance with the Resource Management Act 1991, the purpose of which is to promote the sustainable management of natural and physical resources.	Regulator/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Processing of applications under the Resource Management Act (RMA) 1991.	Vibrant economy Outstanding environment	Applications under the RMA will be processed within statutory timeframes.	95%	95%	95%	95%

What does this tell me?

This measure indicates whether we are meeting our statutory timeframes for processing resource consent applications.

Building Consenting

The Building Consenting Activity aims to ensure that buildings are constructed and/or altered in a manner, which means they are safe to use.

What Building Consenting involves:

- Processing building consent applications by assessing their compliance with the Building Code.
- Undertaking inspections of the consented building work to ensure compliance with the approved building consent.
- Providing advice to the public on building consent applications and the Building Act 2004.
- Maintaining accreditation requirements in accordance with the Building (Accreditation of Building Authorities) Regulations 2006.
- Engagement with the building industry to stay informed about best practice, relevant issues and changes to processes.
- Processing code compliance certificate applications and subsequent approval where Council is satisfied the building work complies with the Building Code.

What has changed since the 2018-38 LTP?

- Council's Building Consent Authority had its first accreditation re-assessment under the revised accreditation scheme in April 2019.
- Changes to Schedule 1 of the Building Act 2004 allowing additional low-risk building work to be carried out without obtaining building consent came into effect on 31 August 2020.

Challenges Council faces for this Activity

- A key challenge facing Council for this Activity is that there is uncertainty around future amendments to current legislation or the introduction of new legislation, and the implications that this would have on the Levels of Service for this Activity.

- The anticipated growth of the District is likely to place pressure on this Activity. The growth environment is likely to see an increase in commercial and industrial new builds in the district. Potential development of increased housing density, may result in the building of multi-story and multi-unit dwellings. The Building Consent Authority will need to ensure that building officers continue to develop their skills and competencies to cater for the increased complexity associated with these types of buildings and the commercial and industrial buildings.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding this Activity.

Key Risks and Assumptions associated with this Activity

- The risk for this Activity is that Council may not maintain its Building Consent Authority Accreditation and this would mean that Council would no longer be able to process building consent applications in-house. However, Council has an internal auditing and monitoring programme in place to ensure that its systems, policies and procedures are appropriate to ensure that it maintains its accreditation at each re-assessment.
- Changes in legislation could result in an increase to the Levels of Service or require changes to be made to how Council currently undertakes this Activity. However, it is assumed that Central Government will give local government adequate notice/warning of any potential changes and that where major changes are required there will be an appropriate transition period provided to allow for Council to plan and budget for these.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Processing building consent applications, undertaking inspections of the building work to ensure compliance with the consent, and processing of code compliance certificate applications to ensure compliance with the Building Code.	<p>Vibrant Economy</p> <p>Is supported by this activity as it contributes to the growth of the district.</p> <p>Outstanding environment</p> <p>Is supported by this service as it involves ensuring that building are constructed in accordance with the requirements of the Building Act 2004, the purposes of which include ensuring that people can use buildings safely and without endangering their health; and buildings are designed, constructed and able to be used in ways that promote sustainable development.</p>	Regulator/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcome	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Carry out Building Consent Authority functions including enforcement of legislation relating to construction of buildings and structures.	Vibrant economy	Building consent applications are processed within statutory timeframes.	98%	98%	98%	98%
	Outstanding Environment	Council will maintain its accredited status as a Building Consent Authority.	Achieve	Achieve	Achieve	Achieve

What does this tell me?

This measure indicates whether we are meeting our statutory timeframes for processing building consent applications. Council has to maintain its status as a Building Consent Authority in order to be able to issue building consents.

Environmental Health (Food Safety)

Environmental Health (Food Safety) ensures that food services used by the Community are healthy and safe.

What Environmental Health (Food Safety) involves:

- Registration and verification of food businesses in accordance with the Food Act 2014 and associated regulations and legislation.

What has changed since the 2018-38 LTP?

- Since the introduction of the Food Act 2014, certain food businesses became part of a contestable market meaning that these businesses can choose their Verifier. For Council to be able to deliver verifier services to these businesses operating under National Programmes, we are required to be operating under an approved Quality System such as ISO 17020. Council is yet to achieve this requirement.

Challenges Council faces for this Activity

- A key challenge facing Council for this Activity is that there is uncertainty around future amendments to current legislation or the

introduction of new legislation, and the implications that this would have on the Levels of Service for this Activity.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

- There are no known significant negative effects surrounding this Activity.

Key Risks and Assumptions associated with this Activity

- There is a risk of a reduction in our food premises client base due to the contestable market.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Processing applications for food businesses undertaking verifications/audits of these businesses.	Vibrant Economy This activity contributes to the Vibrant Economy outcome in that it provides clarity for food businesses in how the requirements of the Food Act 2014 affects their activities; and how it requires persons who trade in food to take responsibility for the safety and suitability of that food.	Regulator
Respond to food related complaints and take appropriate action when a non-compliance is observed.	Strong Community This activity contributes to the Strong Community outcome in that it provides reassurance to the community that our food business operators who trade in food are held accountable for the safety and suitability of that food, in accordance with the Food Act 2014.	Regulator

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Food safety – Food businesses are monitored to ensure compliance with legislation.	Vibrant Community Strong Community	Food businesses operating under the Food Act 2014 are verified at the frequency determined by the Food Regulations 2015.	Achieve	Achieve	Achieve	Achieve

What does this tell me?

Local food businesses need to be routinely verified to check they are operating safely when providing food to the public.

Alcohol Licensing

The Alcohol Licensing Activity aims to ensure that the sale and supply of alcohol is conducted in a manner, which complies with the Sale and Supply of Alcohol Act 2012.

What Alcohol Licensing involves:

- Processing applications for licences and managers' certificates.
- Monitoring and inspection of all licensed premises to ensure compliance with both legislation and licence conditions.
- Undertaking 'Controlled Purchase Operations' with partner agencies.
- Providing information and advice to customers on licensing requirements.

What has changed since the 2018-38 LTP?

In 2020 the Horowhenua District Local Alcohol Policy came into force & subsequently is now being applied all new applications.

Challenges Council faces for this Activity

A key challenge for this activity is that the fees for licensing are set by Central Government and as such, Council is unable to change them.

Another key challenge for this Activity is that there is uncertainty around future amendments to current legislation or the introduction of new legislation that can be made at short notice; an example of this is the immediate modification orders made during Covid, the changes having a huge impact on service delivery, and resulted in significant delays for customers.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

There are no known significant negative effects surrounding this Activity.

Key Risks and Assumptions associated with this Activity

Changes in legislation could result in unanticipated changes in Levels of Service for this Activity. It is assumed that Central Government will provide local government adequate notice/warning of any potential changes. It is also assumed that where major changes are required there will be an appropriate transition period provided to allow for Council to plan and budget for any required changes.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Processing applications for premises and undertaking inspections.	Vibrant Economy Is supported by this activity in that the sale and supply of alcohol in the district is regulated in accordance with the Sale and Supply of Alcohol Act 2012, enabling suitably licensed premises are open for business. Strong Community Is supported by this activity in ensuring licensed premises are regulated appropriately, providing confidence to the public that where alcohol sales take place they are undertaken safely and responsibly; and that any harm caused by excessive or inappropriate consumption of alcohol be minimised.	Regulator/Provider
Responding to complaints relating to non-compliance with liquor licensing requirements and taking appropriate action when non-compliance is observed.		Regulator

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Monitoring of licensed premises to ensure compliance with relevant* legislation.	Strong Community Vibrant Economy	Premises are inspected annually to check for compliance with their licence conditions.	Achieve	Achieve	Achieve	Achieve
What does this tell me? The Sale and Supply of Alcohol Act sets out who can apply for a licence to sell alcohol, between what times and other requirements. This measure ensures premises, such as restaurants and bars, are providing alcohol to the public in a way that compiles with legislation and their licence requirements.						

**Relevant is defined as only required under the Sale and Supply of Alcohol Act 2012.*

Parking Enforcement

The Parking Enforcement Activity aims to ensure that people can easily access car parks for on and off-street parking.

What Parking Enforcement involves:

- Enforcing the parking requirements for mobility car parks, metered parking, time restricted parking, and illegal parking, including issuing infringement notices for non-compliances.
- Monitoring and enforcement of expired vehicle registrations, certificates of fitness and warrants of fitness.
- Monitoring of unauthorised parking on taxi stands, loading zones, broken yellow lines, double parking, parking on the footpath, bus stops, or inconsiderate parking.
- Monitoring and enforcement of the parking control measures specified in Council's Land Transport Bylaw 2017 and relevant legislation.

What has changed since the 2018-38 LTP?

National Policy changes effecting the car-parking requirement for urban developments will likely have an impact on this activity. With the potential to create an increased demand in Council parking needed to service the needs of the community.

Challenges Council faces for this Activity

A key challenge for the parking enforcement activity is the aged condition of our parking meters that are now obsolete. Coin operated only, the machines are not equipped to operate with modern technology, and therefore a challenge to our service delivery options.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

There are no known significant negative effects surrounding Council's planned Parking Enforcement Activity.

Key Risks and Assumptions associated with this Activity

No key risks or assumptions have been identified for the Parking Enforcement Activity.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Operation of a parking enforcement scheme.	<p>Strong Community</p> <p>This activity supports the Strong Community outcome as the provision of parking spaces in the Levin CBD helps to enable people to access the goods and services provided in the Levin town centre.</p> <p>Vibrant Economy</p> <p>This activity also supports the Vibrant economies outcome in that the provision of monitored parking helps to ensure parking availability for businesses and their customers in the Levin CBD.</p>	Regulator

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
All parking restricted areas in Levin will be enforced under the provisions of Council's Bylaw and the Land Transport Regulations.	<p>Vibrant economy</p> <p>Strong Community</p>	Parking infringement explanations are responded to within 5 business days of receipt.	Achieve	Achieve	Achieve	Achieve

What does this tell me?

This measure indicates the frequency at which we are enforcing our Land Transport Bylaw (in regards to parking restricted areas in Levin) and other relevant legislation e.g. how many working days a year our parking wardens are undertaking their enforcement duties.

Building Compliance

The Building Compliance Activity aims to support the Building Consenting Activity and protect health and safety by ensuring the Community is complying with building requirements.

What Building Compliance involves:

- Responding to complaints relating to non-compliances with the Building Act 2004 and associated codes and regulations, and taking appropriate action when non-compliance is observed.
- Monitoring and enforcement of the Building (Pools) Amendment Act 2016, primarily, undertaking inspections of swimming pool fencing.
- Monitoring, enforcement and actions related to the Building (Earthquake-prone Buildings) Amendment Act 2016.
- Ensuring Building Warrants of Fitness (BWOFs) are renewed and are accurate.

What has changed since the 2018-38 LTP?

In 2019 Council introduced regular inspections of buildings with a BWOF in line with the recommendation of the Ministry of Building, Innovation and Employment (MBIE).

In 2020, changes to Schedule 1 of the Building Act 2004 came into effect allowing additional low-risk building work to be carried out without the requirement for a building consent.

Challenges Council faces for this Activity

A key challenge for this activity continues to be the implementation of the earthquake-prone building provisions in the Building Act 2004, where during this LTP period, buildings in the Levin town centre may be deemed earthquake-prone.

This is likely to have an impact on the town centre where some building owners may choose to abandon further development of their buildings. During the same period, Council's territorial authority has a statutory requirement to identify all potentially earthquake-prone buildings in the district.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity:

There are no known significant negative effects surrounding Council's planned Building Compliance Activity.

Key Risks and Assumptions associated with this Activity:

Council will continue to meet its requirements as a regulator under the Building (Earthquake-prone Buildings) Amendment Act 2016.

No key risks have been identified for this Activity.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Respond to complaints and undertake territorial authority requirements under the Building Act 2004.	<p>Outstanding Environment</p> <p>Is supported by this activity as it involves ensuring buildings meets the requirements of the Building Act 2004, and in ensuring that people can use buildings safely and without endangering their health.</p> <p>Strong Community</p> <p>Is supported by this activity through ensuring publicly assessable buildings are safe to use by the community, both for social and commercial purpose.</p> <p>It is also supported by the regulation of private swimming pools in the district, restricting unsupervised access by children. Providing for a safe community.</p>	Regulator

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Carry out territorial authority functions including enforcement of legislation.	Outstanding Environment	Reported cases of illegal building work will be responded to within five working days.	Achieve	Achieve	Achieve	Achieve
	Strong Community	Percentage of private swimming pools on register inspected annually for compliance.	>33%	>33%	>33%	>33%
What does this tell me? This measure is all about ensuring buildings and structures, such as swimming pools, are or continue to be safe for use and do not cause harm or problems in the future.						
Carry out territorial authority functions including enforcement of legislation.	Outstanding Environment	100% of BWOFs are renewed or Notices to Fix are issued.	Achieve	Achieve	Achieve	Achieve
What does this tell me? Council must ensure all buildings are compliant and safe.						

Resource Management Compliance

The Resource Management Compliance Activity aims to support Council's Resource Consenting Activity and the sustainable management of the environment by ensuring compliance with the Resource Management Act 1991, the Operative District Plan and resource consent conditions.

What Resource Management Compliance involves:

- Responding to complaints and queries relating to the Resource Management Act 1991, Operative District Plan or conditions of resource consents, and taking appropriate action when a non-compliance is observed.
- Monitoring of compliance with resource consent conditions, and taking appropriate enforcement measures in respect of non-compliance.

What has changed since the 2018-38 LTP?

No significant changes have occurred within this Activity.

Challenges Council faces for this Activity

A key challenge for this activity is likely be created by the new changes to exempt buildings in the Building Act 2004 .It is likely there will be an increase in the number of resource management complaints associated as property owners not realizing their exempt building work requires a resource consent. .

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity:

There are no known significant negative effects surrounding Council's planned Resource Management Compliance Activity.

Key Risks and Assumptions associated with this Activity:

No key risks or assumptions have been identified for this Activity.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
To ensure the requirements of the District Plan and consent conditions are complied with.	Outstanding Environment Is supported by this service as it involves monitoring consents issued under the Resource Management Act 1991, the purpose of which is to promote the sustainable management of natural and physical resources.	Regulator

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Monitoring of District Plan requirements, resource consent compliance and complaints.	Outstanding Environment	Known and reported instances of non-compliances with the District Plan and any resource consents will be responded to within five working days.	Achieve	Achieve	Achieve	Achieve
		All resource consents that are required to be monitored for the year are monitored for compliance with conditions.	Achieve	Achieve	Achieve	Achieve

What does this tell me?

This measure indicates our response to any known or reported instances where a certain activity does not meet the requirements of the District Plan or a resource consent. Resource consents may be granted with conditions to help control any adverse effects the consent's activity may have. For those consents that are required to be monitored, Council must check they are complying with their conditions.

Animal Control

The Animal Control Activity aims to implement, and enforce, legislation and Council bylaws related to dogs and animals to improve public safety by mitigating the risk of harm, injury, or nuisance in our Community.

What Animal Control involves:

- Maintaining a register of dogs in the District.
- Patrolling the District for animal nuisances.
- Responding to complaints about dogs and livestock.
- Providing impounding facilities for dogs and livestock.
- Educating the public on the responsibilities of dog ownership.
- Re-homing or euthanising unclaimed animals.
- Enforcement of Council's bylaws related to Animal Control - Dog Control Bylaw 2015, Animal Nuisance and the Keeping of Pigs, Poultry and Bees Bylaw 2014 and Land Transport Bylaw 2017 (Part 2 – Stock Control and Movement).. Enforcement of relevant legislation – Dog Control Act 1996 and Impounding Act 1955

What has changed since the 2018-38 LTP?

Ministry for Primary Industries (MPI) code of welfare for the temporary housing of companion animals was introduced in October 2018.

Challenges Council faces for this Activity

A key challenge for the Animal Control function is the aging state of the pound facility and its ability to meet the minimum standards in the MPI code of welfare.

Another key challenge for this activity is the increasing demand on the service as our population grows and dog numbers increase.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

There are no known significant negative effects associated with Council's planned Animal Control Activity.

Key Risks and Assumptions associated with this Activity

A key risk is that changes in legislation could result in unanticipated changes in Levels of Service for this Activity. However, it is assumed that Central Government will give local government adequate notice/warning of any potential changes. It is also assumed that where major changes are required there will be an appropriate transition period provided to allow for Council to plan/budget for any required changes.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Provision of animal control services.	Strong Community The service provided helps the community to live positive and healthy lives.	Regulator/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Reported instances of non-compliances and dog nuisances will be responded to.	Strong Community	Percent of reported instances of non-compliances and dog nuisances will be responded to. An after-hours emergency response will be continuously provided.	100% Achieve	100% Achieve	100% Achieve	100% Achieve

What does this tell me?

This measure will tell us how effective our response is to reports of non-compliances with bylaws, such as Council's Dog Control Bylaw, and dog nuisances. When responding to these reports, our aim is to ensure that animals are looked after and are not menacing or a nuisance to the public.

Registration and classification of all known dogs within the District.	Strong Community	Percent of known dogs that will be registered or accounted for annually by 31 October.	100%	100%	100%	100%
--	------------------	--	------	------	------	------

What does this tell me?

This measure indicates how much of the known dog population is accounted for on our register. For each dog, the register holds information on the dog itself, their owner and its microchip number (if it has one), so if it was ever lost or stolen there is the information to help the dog be reunited with its owner. The register also helps us keep track of dogs deemed to be menacing or dangerous.

General Regulatory Services

The General Regulatory Services Activity consists of a number of sub-activities undertaken as part of Council's general regulatory functions, with the aim of dealing with statutory nuisance-related matters, registration, permitting and inspection of appropriate activities.

What General Regulatory Services involves:

- Review, develop and/or input to and relevant bylaws and policies.
- Respond to general noise complaints and take appropriate action.
- Respond to complaints regarding vehicles reported as being abandoned in public places and take appropriate action.
- Permitting and inspection of amusement device.
- Respond to general bylaw complaints.
- Inspecting registered camping grounds, funeral directors, and hairdressing premises to ensure compliance with relevant regulations and legislation.
- Investigating health nuisance complaints and carrying out enforcement action when appropriate.

What has changed since the 2018-38 LTP?

No significant changes have occurred within this Activity.

Challenges Council faces for this Activity

A key challenge facing Council for this Activity will be the increased demand on the service as new residents relocate to the area, with them bringing differing expectations of living, and expectations of Council to address non-compliance. As the number of complaints increase, the level of enforcement action will also be expected to increase.

Significant negative effects on the social, cultural, economic and environmental wellbeing of the local community associated with this Activity

There are no known significant negative effects surrounding Council's planned General Regulatory Services Activity.

Key Risks and Assumptions associated with this Activity

No key risks or assumptions have been identified for this Activity.

Rationale for this Activity (why we do it):

Activity	Community Outcome	Council Role
Provide general regulatory services.	Strong Community Is supported through the regulation and enforcement of legislation and bylaws, protecting the community from nuisance, protecting promoting and maintaining public health and safety, and minimising the potential for offensive behaviour in public places.	Regulator/Provider

Levels of Service and how we will measure our performance:

Service	Community Outcomes	How will we measure our performance	Target 21/22	Target 22/23	Target 23/24	Target 24/41
Noise complaints response service will be provided.	Strong Community	Noise complaints services are provided all year round and 90% of complaints will be responded to within 60 minutes.	Achieve	Achieve	Achieve	Achieve

What does this tell me?

Excessive noise can cause a nuisance, especially if occurring within a quiet part of a neighbourhood. This measure indicates whether we are responding to noise complaints efficiently and ensuring that the noise, if deemed excessive, is addressed.

Public safety bylaws and other legislation will be enforced.	Strong Community	Percent of reported non-compliances and complaints that are responded to within five working days.	100%	100%	100%	100%
--	------------------	--	------	------	------	------

What does this tell me?

Our public safety bylaws are in place to ensure our community feel safe in the environment they live within. Any non-compliance with the bylaws or other legislation that compromises public safety should be addressed efficiently, which is what this measure is looking at.

This page has intentionlly been left blank.
