Horowhenua Integrated Transport Strategy - Transportation Survey

Have Your Say!

Kia ora

Horowhenua District Council is interested in your travel choices and views on our transport network and the provision of public transport services in the District.

Your responses will help us to create the Horowhenua Integrated Transport Strategy. The strategy will guide Council and our transport partners (including the NZ Transport Agency, Horizons Regional Council and neighbouring Councils), to deliver a more integrated and accessible transport network and associated facilities.

Three surveys will be carried out covering your travel, public transport services, active transport and includes an opportunity for general comments on transport issues and concerns. The information gathered will help to develop the Horowhenua Integrated Transport Strategy.

Thank you
