5. My submission is that:	As owners of the building we have supported the protection of our building. To be effective, protection of the wooden sections of the overall building at 6 Main St should be for both the 1879 section and the added 1892 section with street facade which is built in front of the 1879 section. Without change to current wording the 1892 section, which is the heritage noted facade, the street frontage could technically be changed or removed. Also the date of the building is precisely, not circa, 1879. The building was a new build for the Manawatu Herald and printing started there in November 1879
6. I/We seek the following decision from the Horowhenua District Council:	Note that more specific description of the protected sections is needed to ensure effective heritage protection.

5. My submission is that:	<p>It is difficult to oppose a plan change when there is no provision in this plan change to include sites of significance to tangata whenua, particularly when these sites are of far more historical significance than post contact heritage, this local authority is required by law to take into account the principles of the Treaty of Waitangi and the RMA itself describes that the relationship of Maori to their waahi tapu and other taonga is a matter of national importance. Lake Horowhenua is one of the oldest sites of settlement in this country, with taonga removed from the lake dating back to the 14th century, and yet there is activity occurring around the lake that allows the destruction of priceless taonga because this council has made no provision whatsoever for pre-contact heritage.</p> <p>Any concern about the buildings in Main Street is of secondary importance.</p>

Dear Caitlin,

**RE: PROPOSED PLAN CHANGES TO THE HOROWHENUA DISTRICT PLAN 2015**

Horizons Regional Council (Horizons) thanks the Horowhenua District Council for the opportunity of providing comment regarding proposed Plan Change 1: Historic Heritage and Plan Change 2: Review of Residential Development Provisions.

Horizons could not gain an advantage in trade competition through this submission.

The following submission focuses principally on the relationship between Horizons' One Plan (combined regional policy statement (RPS) and regional plans), and the need for the District Plan to give effect to the regional policy statement components and not be inconsistent with regional plan provisions, as set out in section 75 of the Resource Management Act 1991 (RMA).

**PROPOSED PLAN CHANGE 1**

1. Horizons supports the proposal to update Schedule 2: Historic Heritage – Buildings, Structures and Sites, and to amend the methods for Issue 13.1 and Objective 13.1.1. These changes give effect to One Plan Policy 6-12(a), which sets out that "Territorial Authorities must develop and maintain a schedule of known historic heritage for their district to be included in their district plan" (emphasis added).

Kairanga

Marton

**PROPOSE PLAN CHANGE 2**

2. Horizons generally supports HDC's PC2 as giving effect to One Plan Policy 3-4, which states:

Palmerston North

Taihape

*Territorial Authorities must proactively develop and implement appropriate land use strategies to manage urban growth, and they should align their infrastructure asset management planning with those strategies, to ensure the efficient and effective provision of associated infrastructure.*

Taumarunui

Wanganui

Woodville

We note that the proposed amendments will allow increased development in some areas within Flood Hazard Overlay Areas (FHOA). One Plan Policy 9-2 sets out the framework for development in areas prone to flooding. This policy provides for the establishment of new (or increases in the scale of) structures or activities where flood hazard is mitigated for a 0.5% Annual Exceedance Probability (1 in 200 year) event. We consider that the existing provisions relating to FHOA will continue to give effect to Policy 9-2.

The need to give effect to the RPS is, effectively, a minimum requirement in planning processes under the RMA. However, we acknowledge that the One Plan, like all such planning documents, reflects community values and understandings at the time at which was developed. The nature of plan development processes means there is likely to be some lag between the provisions and the most current thinking.

With regard to management of development in areas subject to natural hazards you may therefore wish to consider whether it is sensible, in terms of a risk reduction approach, to exclude the areas within FHOA in the Residential Zone from the proposed provisions allowing increased density.

We acknowledge that, for infill subdivisions, council has retained discretion to place conditions on consents for the avoidance or mitigation of natural hazards. Horizons supports the reference to the Risks and Responsibilities: Report of the Manawatu-Wanganui Regional Lifelines Project (GNS Science Consultancy Report 2016/40). This report includes a regional-scale map that identifies areas where liquefaction might be damaging to buildings and infrastructure. Reference to the report will draw attention to the fact that parts of Foxton Beach and Foxton have a very high susceptibility to liquefaction. This map may identify and prioritise areas where more fine-scale analysis of liquefaction hazard is warranted.

Horizons wishes to be heard in support of this submission. If others make a similar submission we would be willing to consider presenting a joint case with them to any hearing.

Thank you again for the opportunity to make a submission on this proposed Plan Change. Please do not hesitate to contact the Coordinator District Advice (email: [sarah.carswell@horizons.govt.nz](mailto:sarah.carswell@horizons.govt.nz)) if you would like to discuss or clarify any aspect of this submission.

Yours sincerely

Sarah Carswell

5. Continued.

The Council needs to consider carefully the extent of your regulatory measures and the manner in which you go about it. Having property owners and the community as a whole committed to the preservation of heritage contributes to community identity and pride and offers a meaningful connection with the District's past. "Heritage is a finite resource and once it is lost it cannot be replaced" pg 2 Horowhenua District Heritage Strategy September 2012.

6. Continued

For the Council to explore the use of non regulatory measures and other volunteer mechanisms to incentivise the enhancement of heritage and work with property owners to help achieve this as per action 4.2.6 Horowhenua District Heritage Strategy 2012. We also note that Option 3 of the Section 32 Report Proposed Plan Change 1 pg 14 "recognised that non regulatory measures can be quite effective when used in conjunction with regulation". How is this taken into account and addressed through your option 1 preference? Are the 4.2.6 priority actions in the Horowhenua District Heritage Strategy 2012 advanced and addressed through the option 1 preference. We ask that you consider this?

5. Continued

The new bullet points do not recognise work still needs to be done to identify additional historic buildings, structures and sites (post contact) not yet included and makes an assumption that the list is complete. This is a flawed assumption as there are historic buildings/ historic settings/ sites that are identified in historical accounts of the early history of the town/Horowhenua District with recognised important contributions to our early pioneer history that are not on your schedule.

There needs to be a process to consider further nominations in the future in a timely manner either by the community / owners request or by Historic Places Trust listings in order to fulfil responsibilities under the Resource Management Act to preserve heritage.

We are requesting you add an additional bullet point to address how will you continue to consider further nominations in the future.
