What should I put in my green recycling crate?

Keep your green recycling crate. From 1 July, use it to recycle:

- **Glass**
  - Glass food jars
  - Glass food or drink bottles

Please DON’T recycle:

- Broken glass
- Light bulbs
- Pyrex and heatproof bakeware
- Window glass
- Mirrors
- Drinking and crystal glasses

Some types of glass are dangerous to recycling collectors or can’t be easily recycled because they melt at different temperatures.

Don’t forget to rinse glass jars and bottles and remove lids.

Getting it wrong could mean your recycling is not collected, as non-recyclable materials might endanger recycling collectors, break machinery or contaminate recyclables.

If in doubt, do not put it out for collection.

Bins may be removed in cases of serious repeat contamination with non-recyclable material.
