

Rates Rebate declaration certificate Resident of a retirement village unit

Applying under section 7A of the Rates Rebate Act 1973

Te Tari Taiwhenua
Internal Affairs

The resident must attach this completed document to their Rates Rebate Application Form.

The village operator must complete this certificate for each resident who wants to apply

Name and address of the retirement village

Name of resident (applicant)

Address of resident's unit

Valuation Reference (if known)

Total amount of rates the village pays for the current rating year (includes council, regional and water rates)

The resident's rates contribution for the current rating year (includes council, regional and water rates)

If rates are not a specified fee for residents, use the equation on the reverse of this form to determine the value of rates deemed payable by the resident for rebate purposes

In accordance with section 7A of the Rates Rebate Act 1973 I confirm that the above information is correct and that the resident contributed to rates under a written agreement with the operator.

Name & Signature
of operator

Date signed

 / /

Direct deposit request (applicant to complete)

I request that the council deposit the rates rebate directly into my personal bank account and have attached a deposit slip confirming my bank account number.

Tick box to confirm

Note: If you do not complete your bank account details below the rebate will be credited to your village's rating account and your village operator will either reduce your annual contribution bill by the rebate amount, or pay you directly.

Work out the resident's rates payable

Fill in these boxes with values for the current rating year. It will calculate the rates deemed payable by the resident if rates are not a specified fee within their annual contribution.

The resident's total annual contribution to the village

\$

÷

Total annual contribution of all residents
(Enter the expected contribution of all residents as if the village was at capacity)

\$

×

Total amount the village pays for rates
(Where a retirement village also has rest home services the rest home portion of rates should be excluded)

\$

=

Resident's rates contribution
(enter this value on the front page)

\$
