Response - Official Information Request

I refer to your request for information received on 20 March 2023. Your request has been considered under the Local Government Official Information and Meetings Act 1987 (LGOIMA) and I provide the following information.

Structural design of the new Waitārere Surf Club

Homestead Construction has been engaged by Council under a NZS3916 design and build contract for the Waitārere Beach community facility. Homestead has engaged a series of professional consultants for various components of the facility design. Miyamoto International NZ Ltd was engaged for the structural building design. They have confirmed via Homestead that the Z factor used for the Waitārere Beach community facility structural design is 0.35. The Z factor changes by location and Miyamoto has assessed this as appropriate for this location.
