Since the 4 Square Supermarket has been on the corner of Seabury Avenue and Queen Street, there has been an increase in traffic, which is to be expected, with delivery trucks etc; but the main issue now is the speeding cars that turn from increase Seabury Avenue into Queen Street and take off down Queen Street at break neck speed without any consideration for residents in the area, there is school children walking home from school, and elderly people on their mobility scooters that are placed at by these idiots. The other issue is the new Residential housing that is being built off Andrew Street, there are a large amount risk of contractors, builder, timber delivery trucks etc and they also treat Queen Street as a race track. We believe that at least 2 speed humps would solve the problem, slowing the traffic down quite considerably. We, the undersigned, are concerned citizens who urge our Council to act now to have these speed humps put in place soon as possible before there is a very serious accident either by someone being injured by a car that an inconsiderate driver has totally lost control of	18	22/08/2016
