

Notice is hereby given that an ordinary meeting of the Foxton Community Board will be held on:

Date: Monday 30 November 2020
Time: 6.00 pm
Meeting Room: Stuart Ellwood and Blue Room
Venue: Te Awahou Nieuwe Stroom
92 Main Street
Foxton

Foxton Community Board

OPEN AGENDA

MEMBERSHIP

Chairperson	Mr David Roache	
Deputy Chairperson	Ms Tricia Metcalf	
Members	Cr David Allan	
	Cr Ross Brannigan	
	Mr Trevor Chambers	
	Mr John Girling	
	Ms Ngaire Newland	
Reporting Officer	Mr David Clapperton	Chief Executive
Meeting Secretary	Ms Chloe Marheine	

Contact Telephone: 06 366 0999
Postal Address: Private Bag 4002, Levin 5540
Email: enquiries@horowhenua.govt.nz
Website: www.horowhenua.govt.nz

Full Agendas are available on Council's website
www.horowhenua.govt.nz

Full Agendas are also available to be collected from:
Horowhenua District Council Service Centre, 126 Oxford Street, Levin
Te Awahou Nieuwe Stroom, Foxton,
Shannon Service Centre/Library, Plimmer Terrace, Shannon
and Te Takeretanga o Kura-hau-pō, Bath Street, Levin

REPORTS

6	Reports	
6.1	Chairperson's Report to 30 November 2020	7
6.2	Monitoring Report to 30 November 2020	17

1 Apologies

2 Public Participation

Notification to speak is required by 12 noon on the day of the meeting. Further information is available on www.horowhenua.govt.nz or by phoning 06 366 0999.

See over the page for further information on Public Participation.

3 Late Items

To consider, and if thought fit, to pass a resolution to permit the Council to consider any further items which do not appear on the Agenda of this meeting and/or the meeting to be held with the public excluded.

Such resolution is required to be made pursuant to Section 46A(7) of the Local Government Official Information and Meetings Act 1987, and the Chairperson must advise:

- (i) The reason why the item was not on the Agenda, and
- (ii) The reason why the discussion of this item cannot be delayed until a subsequent meeting.

4 Declaration of interest

Members are reminded of their obligation to declare any conflicts of interest in writing they might have in respect of the items on this Agenda.

5 Confirmation of Minutes

5.1 Meeting minutes Foxton Community Board, 28 September 2020

6 Announcements

The Foxton Community Board meeting will be followed by a closed briefing to discuss the Foxton Pool and the Foxton Beach foreshore improvement works.

Public Participation (further information):

The ability to speak at Council and Community Board meetings provides the opportunity for members of the public to express their opinions/views to Elected Members as they relate to the agenda item to be considered by the meeting.

Speakers may (within the time allotted and through the Chairperson) ask Elected Members questions as they relate to the agenda item to be considered by the meeting, however that right does not naturally extend to question Council Officers or to take the opportunity to address the public audience be that in the gallery itself or via the livestreaming. Council Officers are available to offer advice too and answer questions from Elected Members when the meeting is formally considering the agenda item i.e. on completion of Public Participation.

Meeting protocols

1. All speakers shall address the Chair and Elected Members, not other members of the public be that in the gallery itself or via livestreaming.
2. A meeting is not a forum for complaints about Council staff or Council contractors. Those issues should be addressed direct to the CEO and not at a Council, Community Board or Committee meeting.
3. Elected members may address the speaker with questions or for clarification on an item, but when the topic is discussed Members shall address the Chair.
4. All persons present must show respect and courtesy to those who are speaking and not interrupt nor speak out of turn.
5. Any person asked more than once to be quiet will be asked to leave the meeting

Chairperson's Report to 30 November 2020

File No.: 20/486

1. Purpose

To present to the Foxton Community Board matters relating to the Foxton Community Board area.

2. Recommendation

- 2.1 That Report 20/486 Chairperson's Report to 30 November 2020 be received.
- 2.2 That these matters or decisions be recognised as not significant in terms of s76 of the Local Government Act 2002.
- 2.3 That the Foxton Community Board adopt the 2021 meeting and workshop schedule.
- 2.4 That the Foxton Community Board agree to request for Council to investigate the removal of the trolley bus lines.
- 2.5 That the Foxton Community Board support Council to proceed with the repair of the Manawatu (Foxton) Wharf, and agree to fund half of the project costs from the Foxton Beach Freeholding Account.

3. Issues for Consideration

3.1 Foxton Futures

The Foxton Futures Governance Board met earlier this month on 5th November. The Foxton Futures Governance Board were pleased to see the progress made to date on the project and are looking forward to seeing the final park design.

The Phase one Project Management Group remain confident of completing the stage one works by early 2021. The project team hosted site tours with the local Foxton schools in mid-October, these went really well and it was a great way to engage with the Community.

The Foxton Futures Governance Board raised their concerns about the overhead trolley bus lines and the health & safety hazard they pose. The Foxton Futures Governance Board have requested Council and the Foxton Community Board to investigate the removal of the trolley bus lines.

3.2 Manawatu (Foxton) Wharf

Council are ready to proceed with the Manawatu (Foxton) Wharf project, officers have been working with the interested parties including the Department of Conservation as the owners of the land and wharf and the Manawatu Marine Boating Club. Mr Roache and Councilors Brannigan and Allan have been involved in these discussions.

Council estimate the project to cost around \$350,000 subject to further design confirmation. The Manawatu Marine Boating Club are working with Council and have agreed to contribute some co-funding towards the project.

Council are seeking support from the Foxton Community Board to proceed with the project to repair the wharf, and for the Foxton Community Board to agree to use the Foxton Beach Freeholding account to fund half of the project costs. Council will fund its share through the LTP process.

3.3 **Foxton East Drainage Scheme**

The Foxton East Drainage Scheme Liaison Group met on 12 November 2020. Mr Roache attended as the Foxton Community Board representative on this group. Cr Brannigan and Cr Allan are also members of the Liaison Group as the Kere Kere Ward councilors.

The Liaison group were provided with the costings at the meeting, Mr Roache would like to discuss these in further detail with the Community Board, and will request a meeting with Mr Ramon Strong so the Community Board members can be briefed on the project.

3.4 **Meeting and workshop schedule 2021**

It is good practice for the Community Board to adopt a schedule of meetings for the following calendar year. This allows the business of the Community Board to be conducted in an orderly and transparent manner, enabling an open democratic process and allows public notification of meetings to be given in compliance with the Local Government Official Information and Meetings Act 1987.

Adopting a schedule also allows Community Board members to plan their commitments over the year.

The Community Board may also wish to advise if they will proceed with the public forums before each meeting.

The proposed meeting schedule is **attached**, and is based on the current governance structure.

3.5 **Project Updates**

The updates below relating to Foxton and Foxton Beach are from the Infrastructure Operations and Development Activity Update reports presented to the Finance, Audit & Risk Committee on 25 November 2020.

Foxton Beach Stormwater Consent

The project is to obtain stormwater discharge consents for the existing stormwater network.

Council's policy is that properties are required to provide on-site stormwater management (generally through soak pits). The consent application is for Council's stormwater network only and does not include the on-site soakage pits on private property.

The discharge points are shown in the diagram below. There are five discharges direct to the Estuary, some seepage to ground through the attenuation ponds, and some discharges direct to Whitebait Creek.

As previously reported, monitoring has identified elevated levels of zinc within one of the smaller size sub-catchments (Linklater Avenue) as well as elevated levels of EColi and Phosphorus (both potential indicators of wastewater contaminants possibly entering the system) at several locations. Further investigations have been carried out as follows:

EColi: Two rounds of faecal source tracking have been carried out which has confirmed the EColi source as avian or ruminant. No evidence of human sourced EColi has been identified and therefore the elevated EColi and Phosphorus is not caused by wastewater overflows or cross-connections.

Zinc: Testing at several locations throughout Linklater Avenue has identified zinc levels within the catchment to be approximately one order of magnitude higher than those recorded in other catchments within the Foxton Beach township. Furthermore,

results are approximately 2.5 times higher than the upper and (90th percentile) of stormwater concentrations in similar land-use categories (low density residential areas). To date, the source of the zinc has not been isolated and it appears there may be more than one source within this catchment. Spatial monitoring throughout the network will continue and Council Officers will engage with Community Board members first, followed by discussions with landowners to investigate further. Note that the Linklater Avenue catchment is relatively small, comprising 13 ha or 0.4% of the urban area. It should also be noted that sediment sampling in the Estuary, close to the Linklater discharge, shows no sign of elevated zinc levels in Estuary sediments and ecological assessments have concluded that the risk of adverse ecological effects from accumulated stormwater contaminants in the sediment is likely to be low.

The progress on investigations will be communicated to Horizons in December 2020. Iwi groups will also be updated.

Below is an indicative timeline of the project's life. This is based on the information available to us. Consent processing likely to continue into 2021. Expected public notification early 2021.

Foxton River Loop Regeneration – Stage One

Progress update

We are approximately 80% through the river excavation for Stage One. On 13 November we reached a key project milestone whereby we can cease removing excavated material off-site. All remaining excavated material can be respread on site to build up the new riverside park.

We have now begun forming the new foreshore embankment. The first 80m at the northern end of the River Loop has been treated with biodegradable coconut matting and hydro seeded to protect the embankment until riparian planting gets underway in Autumn 2021.

Excavation in the river will be substantially complete by the end of November, almost a month ahead of schedule. This has given us more time to prepare the new riverside park.

We remain confident of completing the Stage One works (excepting the autumn planting) by early 2021. We are targeting an official opening ceremony on 27th February 2021.

Riverside Park Design

The riverside park design includes the current Harbour Street Reserve and extends between the 'Red Shed' and Paretao Gardens. Within the new park, complementary spaces with overlapping functions will be integrated to form a cohesive environment. Outdoor "rooms" will accommodate cultural elements/art work which will be installed over time. As well as dedicated spaces for park furniture, lighting and passive and active recreation activities. A wide multi-use path close to the water's edge ties into a cross connected network of walkways that connect the park with Harbour Street, Te Awahou and the town beyond.

Angle parking bays will be provided at Harbour Street, in sufficient numbers for day-to-day park use. For event parking, areas between the parking bays can be used temporarily, allowing the park's open space to prevail most of the time.

Traffic calming devices along Harbour Street are being considered to create a low speed, safe, shared environment for pedestrians and vehicles. The installation of these is supported by surrounding residents, however likely to be constructed later in 2021 once required planning and engagement has taken place.

The park will also include some relief features. We are developing low hill forms, as shown below, to create interest and places to relax among trees. The low hills will be 1-2

metres above the path level. Low enough to avoid obstructing views from the street and neighbouring properties, but high enough to have prospect over the park.

We are also working with local hapū and key stakeholders for input into a proposed natural play environment to be incorporated into the park. There is a longer lead-time for this aspect. Construction will likely be completed mid-next year, after the walkways, planting and grass is completed and matured.

Financials

Earthworks in the river presented the greatest risk to the project. The baseline budget included for a sizeable contingency in case we encountered unforeseen ground conditions, contaminated material, archaeology and/or extended inclement weather. Fortunately, these risks have not manifested. The accelerated river excavation works has led to a number of cost efficiencies across the project. We are now able to release the majority of earthworks contingency and have converted them into additional scope within the riverside park and surrounding infrastructure. We are also able to bring forward the design, consenting and construction of some Stage Two project elements including the proposed viewing platform further landscaping upgrades to Harbour Street and enhanced connections to Paretao Gardens. Some of these elements along with art and cultural features will require further engagement with partners and stakeholders over the coming months.

The financial summary below shows the release of earthworks contingencies and subsequent reduction in forecast outturn for stage one – depicted by the delta between the budget and forecast. Remembering that the critical path for the river works was to be complete by December to beat the fish spawning season, we had originally cash flowed the contingency into November and December in case we had to accelerate earthworks. The risks have not occurred. Instead we have evenly spread the contingencies across the riverside park works and Stage Two. The total outturn costs are still forecast to be the same. The difference now is that we are able to construct more park features.

Focus for next month

The next month we begin levelling the earthworks on the park, spreading topsoil and seeding the grass.

We will finalise the transitions from the main excavation area to tie in the new embankments with the current riverbanks to the north and south.

We will begin installation of lighting, power supply and drinking water conduits.

We will trim and lay the basecourse for the paths and walkways. Our aim is to have the foreshore paths and Harbour Street car parking completed by Mid-December.

Our communications team will publish the next newsletter, provide more video-blogs and social media content.

3.6 Foxton Beach Surf Life Saving Club

The Foxton Community Board has provided a letter of support to the Foxton Beach Surf Lifesaving Club in support of their funding application for improvements to the club facilities and amenities, a copy of the letter is **attached**.

3.7 Foxton District Budget Services

Following Mr Girling's presentation as Chair of the Foxton Districts Budget Services to the Foxton Community Board meeting on 28 September 2020, the Foxton Community Board has agreed to provide a letter of support to the Foxton Districts Budget Service to demonstrate community support for external funding applications.

3.8 **Foxton Beach Progressive Association – Chairperson’s Report**

A report from the Chair of the Foxton Beach Progressive Association is **attached**.

3.9 **Foxton Beach Freeholding Account**

Attached to this report is a copy of the updated Foxton Beach Freeholding Fund projected forecast as at 31 October 2020.

Wellington 5010

To Whom it may concern,

FOXTON COMMUNITY BOARD LETTER OF SUPPORT

The Foxton Community Board is pleased to provide this letter in support of the Foxton Surf Life Saving Club application for funding for the improvements to the Foxton Beach Surf Club facilities and amenities.

The Foxton Surf Life Saving Club has played a key role in the Foxton Beach Community for 90 years. The council owned Foxton Beach Surf Club Building was built in 1975 and is in need of improvement to ensure it is fit for purpose and able to cater to the increase in the number of visitors over the peak summer period.

We fully support the efforts of the Foxton Surf Life Saving Club, and ask that you consider this application favourably and recognise the social and economic benefits this funding could provide for the Foxton Surf Life Saving Club and the Foxton Community.

Yours Sincerely

A handwritten signature in black ink that reads 'D Roache'.

David Roache
Foxton Community Board Chair

FOXTON BEACH PROGRESSIVE ASSOCIATION INC

CHAIRPERSONS' REPORT

Foxton Community Board Meeting 30 November 2020

Greetings to Board Members

This report highlights:-

- Foxton Beach Community Plan
- Association's Long Term Plan Submissions – early 2021
- CCTV and Other matters

FB COMMUNITY PLAN

Since last Board Meeting we have held informal discussions with Board members about the draft plan contents, and briefed HDC councillors. The Association also held a public drop-in engagement event on 9 October, which some Board members attended.

Feedback from members and public has not led to draft plan changes. Attendees at the drop-in event discussed wide ranging issues, with the following matters receiving greatest support:-

- 1. Influencing improvement to river and estuary water quality** (Plan Action E.5);
- 2. Completing Holben-Te Wharangi Reserve – including urgently needed traffic calming** (Plan Action R.1);
- 3. Upgrading Manawatu River Wharf, and implementing open space beautification & use amenities at Hartley Street and Dawick reserve** (Plan Action R.5);
- 4a. Completing Shared Pathway Loop connecting Palmer Rd to Holben & beyond, and connecting beach to town & beyond in conjunction with Foxton Futures Plan** (Plan Action R.2);
- 4b. Developing a Foxton Beach promotional strategy which complements Foxton's** (Plan Action ER.2).

The Association's Management Committee is exploring 'working groups' to take some of the Community Plan priorities forward – especially those priorities which the Association need not take the lead on.

These would commence in the New Year.

ASSOCIATION LONG TERM PLAN SUBMISSIONS:

Our LTP submission for early 2021 will mainly concern how Community Plan priorities can be included (and funded) within the HDC Long Term Plan – especially over the next 3 years. Collaboration with the Board on this could be beneficial.

Through collaboration between deputy chairperson Janine Smart and Horizons councillor Sam Fergusson, we have also briefed Regional Councillors on the importance of localised Community Plans to their planning, and the significant environmental needs in our area.

CCTV & OTHER MATTERS:

Local people are also talking about:-

- When will Foxton Beach's CCTV camera system be installed? (We will be able to update the Board at the meeting);
- How can local people learn about upcoming infrastructure works before it happens in their streets?
- Will upgrading of Foxton Pool take into account rapid growth expectations for Foxton and Beach over the next 20-25 years? And recognise that offering a range of aquatic experiences for users and families is known to increase popular usage?

Ted Melton and Janine Smart

Monitoring Report to 30 November 2020

File No.: 20/487

1. Purpose

To present to Foxton Community Board the updated monitoring report covering requested actions from previous meetings of the Community Board.

2. Recommendation

- 2.1 That Report 20/487 Monitoring Report to 30 November 2020 be received.
- 2.2 That this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.
