Questions

What do you think the council should do more of?

Invest more money on safe places for the youth.

What do you think the council should do less of?

Invest less money in roads that are perfectly fine.

What's something that Horowhenua doesn't have but needs?

A platform for youth, this is for youth to speak on and feel empowered although we are teenagers.

Questions

What do you think the council should do more of?

Helping people get build consent in a reasonable amount of time and actually make decisions instead of not making up their minds.

What do you think the council should do less of?

spending money on stupid roads which don't need work like the one beside the warehouse.

What's something that Horowhenua doesn't have but needs?

Low Poverty, No Gangs. But yeah we need a skid pad, give somewhere for the hoons to have a safe environment to skid around without putting their selves or others at risk.

NO LAND NO FOOD

The above is a quotation from the Secretary of the Environment.

The comment was made after her report was released. (Land Use Change and Intensification).

In this report it is pointed out that in just under 20 years, the area of highly productive land that has been lost to Horticulture, has increased by 54%.

Also under increasing pressure is the implication of taking water for irrigation, which has the potential to further restrict river flow, effect aquifers and ultimately eco-systems.

A Lincoln University Professor Amanda BLACK as reported in *The Farmers Weekly April 21 2021* and I quote; “NZ is at a crossroads of a business as usual approach to Land Management or a more informed and intergenerational approach” END QUOTE

It is my submission that the Horowhenua District Council implement the new soil standards into their planning processes and consider the implications of the appended report.

Please note that I wish to speak to this submission.

Diane BROWN.

No land - no food!

» PETER BURKE

peterb@ruralnews.co.nz

DEALING WITH climate change and population growth have been singled out as two key factors that will determine land use in New Zealand.

Secretary for the Environment, Vicky Robertson, says how these issues are managed and the choices made by people will shape the landscape for future generations. Her comments came at the release of a document – Our Land 2021 – produced jointly by the Ministry for the Environment and Statistics NZ and based on the theme: *Land use change and Intensification*.

The report explores these issues and points to some of the drivers. For example, it states that what food people eat and where they live will have an impact on the environment. Consumer preferences – both here and in our export markets – are part of this.

Robertson notes that the rising NZ population is major factor.

“Population growth has a significant impact on our land including our highly productive land that is vital for growing vegetables and fruit. Increasing amounts of this land is being lost to urban expansion and lifestyle blocks,” she told *Rural News*.

“Continuing to grow food in the volumes and quality we have come to expect, depends on the availability of land and quality of the soil. Once highly productive land has been built on, we can’t use it for production,”

Robertson points out that in just under 20 years the area of highly productive land that has been lost to housing has increased by 54%. She says if this trend continues, the supply of food such as vegetables is likely to become even more expensive – unless other alternatives are found. The report also notes that land taken

for rural residential has also doubled during this period.

The report goes on to say that the land used for agriculture has been decreasing since 2002. It says between 2017 and 2019 it fell by 2%. In terms of

dairying, the report notes the increase in cow numbers and the greater use of irrigation especially for dairy farming.

The report also touches on the implications of this and suggests that taking water for irrigation has the

greatest potential to reduce river flow across the country, to affect aquifers and ultimately ecosystems.

“What we point to is the rate of change in dairy, but we don’t make judgement,” Robertson says.

Long Term Plan 2021 - 2041

Submission Form

Submissions must be provided to Council by no later than **4pm, Monday 19 April 2021**

Submissions can be:

-  **Delivered to:**
Horowhenua District Council Offices, Takeretanga o Kura-hau-pō, Te Awahou Nieuwe Stroom and Shannon Library.
-  **Posted to:**
Horowhenua District Council, Private Bag 4002, Levin 5540
-  **Emailed to:**
ltp@horowhenua.govt.nz
-  **Completed online or are available for download**
from Council's website:

Topic One

Foxton Pool

The structure of the Foxton Pool needs to be replaced for health and safety reasons. There are five options for the community to consider.

| | Option 1 All-Year Leisure | Option 2 All-Year Basic | Option 3 Seasonal Leisure | Option 4 Seasonal Basic | Option 5 Close the Pool |
|-----------------------------------|---------------------------------|-------------------------------|---------------------------------|-------------------------------|-------------------------------|
| Indoor provision – All-year | ✓ | ✓ | | | |
| Outdoor provision – Seasonal | | | ✓ | ✓ | |
| 25m Pool | ✓ | ✓ | ✓ | ✓ | |
| Leisure Pool | ✓ | | ✓ | | |
| Teacher/Toddler Pools | ✓ | ✓ | ✓ | ✓ | |
| Splashpad | ✓ | | ✓ | | |
| Upgrade change rooms | ✓ | ✓ | ✓ | ✓ | |
| Cover over Teaching/Toddler Pools | ✓ | | ✓ | ✓ | |
| Outdoor landscaping/BBQ area | ✓ | | ✓ | | |
| Multi-purpose room | ✓ | | | | |
| Rates impact | \$44.53 | \$26.61 | \$22.00 | \$16.02 | -\$12.49 |

Tick below to identify your preferred option

- ☐ **Option 1:** Indoor and Outdoor Leisure Pool
- ☐ **Option 2:** Basic All-year Pool
- ☐ **Option 3:** Seasonal Outdoor Leisure Pool
- ☐ **Option 4:** Seasonal Outdoor Basic Pool
- ☐ **Option 5:** Permanently Close Facility

Topic Two

Infrastructure Funding: Development Contributions

Council is considering the reintroduction of Development Contributions as a key source of funding our growth infrastructure. Do you think this is a good idea?

Tick below to identify your preferred option.

- ☐ **Option 1:** Using development contributions as the key source of funding for growth infrastructure, in combination with other sources.
- ☐ **Option 2:** Not using development contributions for funding growth infrastructure, and increasing rates instead.

Draft Development Contributions Policy

If Council reintroduces development contributions, the Draft Development Contributions Policy outlines what contributions are collected and how.

Do you wish to speak to the Development Contributions Policy at a hearing?

- ☐ Yes ☐ No

Activities

What activities do you think development contributions should be collected for as a source of funding growth infrastructure?

- ☐ Roding
- ☐ Water supply
- ☐ Wastewater treatment
- ☐ Stormwater
- ☐ Community infrastructure such as parks, sportsfields, activity centres, playgrounds and more.

Catchments

The Draft Development Contributions Policy is proposing to use district-wide contributions for roading and community infrastructure. It is also proposing scheme-by-scheme contributions for the three waters, which means different contribution amounts would apply to each scheme area. The big growth areas will pay an additional contribution for major expenses related just to them, however there are other approaches Council could use such as everyone paying the same.

Which approach do you think should be used?

- ☐ District-wide contributions for roading and community infrastructure. Scheme-by-scheme contributions for the three waters. Growth areas pay for major expenses related to them.
- ☐ District-wide contributions for roading and community infrastructure. Scheme-by-scheme contributions for the three waters. Growth areas do not pay for major expenses related to them, these are spread out over the rest of the scheme.
- ☐ Harmonisation: all required contributions are the same across the district.
- ☐ Other (please specify)

Time of payment

Normally development contributions are charged when granting development consents. That is early in the development process and developers can find it difficult to manage cash flows when there is still a lot to do before selling a lot or a new house.

The draft policy proposes to invoice developers at later times in the case of subdivision and building consents, closer to when lots and homes are to be sold as identified below.

- A subdivision consent, at the time of granting a certificate under section 224(c) of the Resource Management Act 1991; and
- A building consent, at the time the first building inspection is carried out.

Do you agree with this approach?

☐ Yes ☐ No

Reductions

The draft policy proposes a limited scope for reducing development contributions once they are calculated for a development. This scope includes just two principles, that the development:

- a. provides a significant public benefit; or
- b. addresses significant affordability issues.

Before agreeing to any reduction, Council needs to be sure it can fund the income it forgoes from another source.

Do you agree with the proposed scope for reducing development contributions?

☐ Yes ☐ No

Topic Three

Changes to the Land Transport Targeted Rate

Council is considering whether the differential on the Land Transport Targeted Rate should be removed. Currently there is a differential that means businesses only pay 35% of the Land Transport Targeted Rate. This was set up when businesses made up 38% of the capital values in the district. However, due to residential growth, businesses now only make up 30% of the district, but are still paying 35% of the Land Transport Targeted Rate.

Tick below to identify your preferred option

☐ **Option 1: Remove Differential**
All ratepayers pay the Land Transport Targeted Rate based on capital value.

☐ **Option 2: Status Quo**
Differential where businesses pay 35% of the Land Transport Targeted Rate and District Wide properties pay 65%.

Council is considering changes to the General Rate to enable rural properties to gain the same benefits from growth as urban properties. The existing differential treated non-farming properties the same as farms even though they do not have the same large footprint and land value.

Tick below to identify your preferred option

☐ **Option 1: Creating a Farming differential**
Differential that only applies to Farming properties with a differential factor of 0.5 (Farming) to 1 (District Wide).

☐ **Option 2: Status Quo**
Rural properties (including all business in the rural zone) pay 25% of the General Rate rates income, District wide pay 75% of the General Rates Rates income.

Draft Revenue and Financing Policy

Topics Three and Four propose changes to the draft Revenue and Financing Policy.

Do you have any other comments about the draft Revenue and Financing Policy?

☐ Yes ☐ No

Financial Strategy

To deliver the projects and services planned over the next 20 years, we are proposing the limit on annual rates increases to range between 4.6% and 7.5% per year for the first 10 years, with an average of 4.4% for the following 10 years. We are also proposing to increase our net debt limit from 195% to 250% of our operating income. Generally operational costs to run the business and renewals are funded by rates, and capital projects such as building new facilities and putting in new infrastructure is funded by debt.

Have we got the balance right between rates increases and debt levels?

☐ Yes ☐ No

Community Outcomes

Council has reviewed the community outcomes which are what we aim to achieve for our community. The outcomes are Vibrant Economy, Outstanding Environment, Fit for purpose Infrastructure, Partnership with Tangata Whenua and Strong Communities.

Do you think the proposed Community Outcomes reflect the aspirations of the Horowhenua community?

☒ Yes ☐ No

Are we missing something, or focusing on something we shouldn't be?

I would like to speak to the connection of strategic planning and outcomes.
Thank you.
SH.

- D. Early implementation (in 2021) of NZTA bore monitoring – to provide a baseline set of data around water (bore) impacts for use during the design and consenting phases
- E. Review of the noise standard adopted via the District Plan, to instead align to a best practice international noise standard.

We would like HDC to rally and push Government to ensure the completion of O2NL and to provide the absolute best version of the O2NL Expressway, which includes:

1. Full inflation adjusted funding through to completion of both projects – being the construction of the O2NL Expressway and the much needed improvements to SH1 (which has to carry the additional load of traffic resulting from district and regional growth until the O2NL Expressway is built)
2. Genuinely fair compensation in accordance with the Public Works Act
3. A standard of noise mitigation that does not reflect the bare minimum, rather fit for purpose mitigation that preserves quality of life and amenity
4. Mitigation of noise, dust and other inconveniences caused during the construction process, noting particularly the impact of dust and contaminants entering rain water collection systems
5. Protection of our natural environment (bores, aquifers, streams, wildlife and arable lands)
6. Provide a safe passage for our children to get to and from Manakau School from their homes in Manakau Village, Manakau South, Manakau North and Waikawa Beach
7. Maintain full connectivity between Manakau Heights Drive and Manakau Village

I would like to speak to my
submitter please. 

Submission to Long Term Plan 2021-2041

The focus of this submission is roading in the Manakau area and the Otaki to North of Levin expressway project.

We are seeking actions and advocacy from Horowhenua District Council (HDC) as part of its Long Term Plan work programmes.

Our submission seeks the following actions and budget provisions (where applicable):

| | |
|---|---|
| 1 | <p>We would like to ensure that there is funding for a clearly defined HDC plan for O2NL and the revocation of SH1 (and SH57) and that this forms part of Council's work programme for 2021/2022.</p> <p>We believe it is essential that the plan include details of what HDC will advocate for on behalf of affected communities (such as Manakau), as well as specific aspects that HDC needs to ensure NZTA addresses as part of the project, and revocation phase.</p> |
| 2 | <p>We request that in 2021 HDC advocate to NZTA on behalf of the Manakau community for the following roading improvements/measures on State Highway 1 at Manakau:</p> <ul style="list-style-type: none"> A. Reduction of the speed limit through Manakau to 60km B. Installation of a roundabout or traffic lights at Waikawa Beach Road C. Installation of a safety measure to aid the passage of pedestrians and cyclists between Manakau village and Waikawa Beach Rd, such as via an overbridge, underpass or time-limited traffic lights D. Construction of a new section of road alongside the railway line between the Northern railway overbridge at Manakau, and the overbridge at Ohau to avoid short term safety issues until O2NL is built and future replacement of the overbridges (a cost that we understand is likely to fall to ratepayers once the existing SH1 is revoked) E. Investigation of a new entrance to Manakau village immediately opposite Waikawa Beach Rd (with closure of the existing entrance) and introduction of a roundabout for safety and access purposes F. Upgrading of South Manakau Rd, including replacement of one-lane bridges in anticipation of inevitable north bound traffic flows avoiding congestion at the termination point of the expressway (two lanes to one dynamic) |
| 3 | <p>In respect to O2NL we request that HDC advocate for:</p> <ul style="list-style-type: none"> A. No expressway off ramp at Manakau B. No severance of Manakau Heights Drive C. Ensuring that walkways are appropriately positioned and easily accessible to Manakau residents in relation to access to the Village from North and South of Manakau |
